System and Integration Test

System and Integration Test 1

Application:	[Name of the application being tested]	Build or version:	[Build or version number of the application being tested]
Test ID:	[A unique reference number for this test case]	WBS ID/Module ID:	[WBS ID/Module ID that this test case relates to]
Environment:	[Enter the environment used.]	Equipment tested:	[Enter the equipment that will be used for this test e.g. Windows 10 PC, server etc.
Test Description:	[Describe the test.]		
Objective:	[Describe the desired outcome .]		
Assumptions/ Constraints:	[List any assumptions or constraints that have been made before carrying out this test.]		
Files/Test Data:	[List the files or test data needed for this test.]		
Author:	[Person who wrote this test case.]	Last update:	[Date when this test case was last updated.]
Reviewed by:	[Person who reviewed and authorised this test case.]	Reviewed Date:	[Date of the last review of this test case.]
Tested by:		Test Date:	

Test Steps:			
Step number	Description	Expected Result	Actual Result
[001]	[List step by step what the tester should do on the application.]	[Describe the expected result.]	[Enter the actual result. If the actual result matches the expected result then the fields should match.]
