Hasn't demonstrated any traits that would make him unsuitable for treating trans* patients in unrelated contexts.		Update: "I need to add a caveat wrt incompetence to Dr Eden's entry on the "good GPs" list. He recently stopped being cooperative with regards to monitoring after he discovered that spiro interferes with the appearance of oestrogen levels, completely ignoring the fact that it doesn't effect the appearance of testosterone levels or more importantly, safety-critical indicators"

Offered to put notes on my file re: pronouns/titles (and didn't just do it without asking) when it came up. I know the practice has a few trans men who get their prescriptions there but I'm the first trans patient that she sees personally, so she's not prescribed yet. I have no reason to believe that she won't prescribe on GIC recommendation.	This GP has referred to a GIC or onto an official pathway.

15/12/2015 11:57:58	Catherine Dunn	York	Unity Health York Campus University of York York	Yes	Once		I approached them regarding being genderless and wanting to start androgen blockers, and they explained the process as it stands. They didn't create any unrealistic expectations and knew straight off that the nearest GIC was Leeds. They explained the pre-screening that would be needed and arranged a blood test and explained what would happen moving on. I didn't have to blag being binary at all, and felt like they had an understanding of NB identities. On a side note, they helped me approach the receptionist about changing the title on my records. The receptionist asked if I had a preferred pronoun or if I preferred not using a pronoun at all. The blood test was done within 20 minutes because the surgery had an opening. 31/07/2016 14:05:03	Dr Neil Jackson, Dr Branco Momic, Dr Yvonne Harrington	Twickenham	Acorn Group Practice, 29-35 Holly Rd, Twickenham TW1 4EA	Yes	More than five times	020 8891 0073	I wish to recommend a number of GPs in this practice, namely Dr Branco Momic, Dr Yvonne Harrington, and Dr Neil Jackson. They have treated me as a trans man for years. What I like about them is that they are a genuinely caring group of doctors who treat you as a human being and are genuinely interested in you as such. I believe they genuinely want to assist and treat you with kindness, care and professionalism (without seeing you as an 'unusual specimen' or defining people by their condition or illness). They have a listening ear. The Practice Nurse Emma Jones RGN is also very professional e.g. re smear tests for transmen.	This GP has prescribed HRT or another treatment without a recommendation from a GIC.

I am binary (trans man) so no experience with him and non-binary people. He does take some time, as long as you chase up often you'll get it sorted no problem. Often booked up for around a month in advance but makes space for phone calls (actually how I got my prescription sorted!) and while he may not know everything about transitioning (GICs handle that) he listens really well and is very understanding. Great GP to have! If you get the same receptionist consistently that can lead to better results as they have impeccable memory.	This GP has prescribed HRT or another treatment recommended by a GIC.

This GP has agreed to provide blood tests (on the NHS) at the request of GenderGP and also to fulfill prescriptions (on the NHS) guided by a treatment summary from GenderGP. I came into my first appointment not expecting much as another Doctor at the practice messed up my referral to Leeds GIC a few years ago but in those years it seems like their treatment of trans patients has improved drastically. Dr Minshall seemed incredibly knowledgeable on trans issues, he immediately asked whether I was on a waiting list for a GIC, offered without prompting to get bloods sorted for me when I mentioned I needed them, found the history that was missing from my file due to a mess up at another practice and also was eager to work with GenderGP to get a treatment summary and sorted out an NHS prescription without me asking. I couldn't have asked for better care and treatment.	This GP has prescribed HRT or another treatment without a recommendation from a GIC., This GP has provided blood tests for self medication.

04/02/2021 16:33:40	Dr. Elizabeth Hartley	Swanscombe	Southfleet Rd, Swanscombe DA10 0B	No	More than five times	01322 427447	She and the nursing staff who do my injections are all lovely. I've never experienced anything but acceptance from them - but I have no experience with the other doctors in the surgery, so I cannot speak to their skills. My GP has lamented openly to me about the lack of training GPs receive regarding trans issues, but she has shown herself to be willing to do the research herself. She's not afraid to say "I don't know" and get back to me in a few days after doing some reading. I'm also medically complex, and she is that rare doctor who can keep up with all my referrals, medication trials, and general WTFness of my body. So I recommend her for that reason as well. She's just all-around lovely and genuinely helpful. Also, changing my name on their records was relatively painless, and the office staff are (mostly) great about using my proper name and pronouns. I don't remember if I have talked about being NB, but I don't feel like that would be an issue - the prevailing attitude there seems to be "tell me about yourself and I'll believe you and do research on my own time". 28/02/2021 15:48:42	Dr J D Mullen	Parbold	4 The Green, Parbold, Wigan, WN8 7DN	No	More than five times	01257 514000	All practitioners who have administered hormones have been very respectful. I usually see two specific people who always use correct pronouns, names etc. When asking for surgery referrals or help contacting my NHS Leeds gender team they have always done what they can. They have refrained from inappropriate comments or questions, if they did not understand a certain effect of medication they were very polite in asking making sure not to come across rude or ignorant. Overall very kind, respectful and willing staff.  I had to change practices because my old GP refused to give me my NHS prescribed hormone blockers and HRT - the Parbold practice didn't bat an eye and were more than willing to administer the medication. 04/07/2021 23:53:37	Dr Anna Gregorowski	Bath	St James's Surgery, 6-9 Northampton Buildings, Bath BA1 2SR	Yes	Twice to five times		Dr. Greg is really amazing. She immediately agreed to share care and believed me when I told her I'm trans without question or any gatekeeping. I described the diagnostic/endocrine process to her beforehand (so she may have prescribed without said diagnosis for all I know - I just assumed she would need it). Though she isn't entirely clear on the process of getting HRT (etc - which makes two of us), she has been nothing but accommodating, empathetic, and helpful throughout my time with her. I'm a non-binary trans-fem and she was absolutely fine with me just describing my experience - it was so refreshing to just be taken at my word, compared to the likes of the psychiatrists I've encountered with whom you have to over-emphasise being attached to a binary gender. I haven't yet asked to be referred to a GIC, but I have no doubt that she would do this with little to no trouble. I haven't yet got my diagnosis/endo appointment, but she has assured me that she'll do my blood tests and, as soon as she knows what to prescribe, she will prescribe it, which has been a massive relief. It's a little bit difficult to get an appointment when asking for specific doctors at the practice, but this is a minor, general fault with the practice rather than anything to do with her. I'd highly recommend anybody being a patient of hers, particularly as the practice allow out of area (OoA) patients. I've moved from gels to sustanon to nebido and had regular testosterone injections by nurses and had post-top-surgery care here too. I think that you do have to be at the University of Sussex to attend them initially, but I graduated and because my hormone levels are still being monitored they haven't asked me to move GP surgeries post-graduation like they do for many other people. 18/11/2021 11:52:54	The Gardens Surgery	London	The Gardens, London SE22 9QU	No	Twice to five times	020 8693 4715	I've been at The Gardens for the past 2 years and sadly now have to leave due to not being in their catchment area. In that time, they have shown an actual interest in my healthcare and taken regular blood tests, supplied my prescription, and sought advice from a GIC about appropriate levels and potentially switching medication. Most recently, upon telling them I was now interested in surgery, they referred me to a GIC immediately upon my request - the first time any GP has referred me to anything so quickly. Every GP I have dealt with at The Gardens has been respectful and supportive, and actually listened to my concerns. Cannot recommend them highly enough. I think I was his first trans patient. He commiserated over the waiting lengths of the GICs, and supported me going privately with the LTC. He provided blood tests for free and agreed to a Shared Care Agreement with them.  He seemed to genuinely want to help, but wasn't sure of the reality of the situation. He listened to me and was persuaded to help.	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment without a recommendation from a GIC.

17/04/2022 22:10:16	Dr Chris Allen	London	Imperial College Health Centre 40 Prince's Gardens, London SW7 2PD [8]	Yes	Twice to five times		Excellent GP, was extremely affirming and has worked with several transgender patients in the past I talked to him specifically about having shared care with GenderGP. He was nice about it, wanted to know if it was doctors that are specialised for hormone therapy. Didn't feel qualified enough to prescribe himself, so won't do bridging most likely. Don't remember which doctor did blood forms before they knew I was on testosterone, but the whole surgery lets me have my regular blood forms without an appointment first now. They were very ready to change my name and update my gender marker and contact PCSE about my new NHS number. Not very knowledgeable about trans issues but seemingly very willing to help. She is trans herself, and I didnt need to explain in detail the situation I am in, she just immediately helped. I had alot of issues, so she recommended I book a double appointment for the week after. She wrote me a letter to get a M marker on my passport (successful!) as well as properly referring me to the NHS GIC as previous GPs had failed to do so. She is now helping me with a bridging prescription of testosterone so i dont have to be private anymore, as she knows I am on the waiting list! I would recommend this GP 100000%!! I'm a trans man of colour. I was their first openly trans patient and fought them repeatedly to get the treatment I deserve.</p> <p>I trust that they can do what is mentioned in the checkboxes as well as: taking over prescription from Gender GP, give evidence of dysphoria for surgery and 'change of gender' for passport and other ID forms, referral to an endocrinologist and communicating with them to increase my dose, getting title or gender marker changed (they made me change my NHS number but recently I found this is actually not necessary to change recognised gender).</p> <p>All of this except taking over my prescription from Gender GP was met with resistance (they actually contacted me to take over my T because Gender GP had contacted them and they were concerned. I'd just started T). I often saw a different doctor each time and there was sometimes poor communication between them. They didn't seem to know what to do and they tried to tell me no and misinform me, but I knew my rights. I had to educate them and speak with their manager twice to be heard and get my needs met.</p> <p>After that, I was happy with their service and I consider myself quite lucky - this is where I grew up. I'm not with them anymore as I moved out of the area and switched to another GP. Despite the struggle, I recommend them to any trans person in the area.</p>	This GP has referred to a GIC or onto an official pathway. I asked for a referral to a GIC and for shared care with GenderCare. I brought lots of documents with me to support my shared care request, and didn't need a single one because she agreed so quickly (before even hearing which private provider I wanted). She said she was up to date on NHS information about treating trans* patients, and had experience treating trans* patients. I'm not nonbinary, so I don't know for sure that she's non-binary friendly, but I would be very surprised if she wasn't. 							<p>My family has been with Dr Naeem for a few generations now, so I was a little nervous about talking to him about my gender identity.</p> <p>When I went in, I said a single sentence. "I have realised that I am transgender, and I would like to see if I can be prescribed testosterone."</p> <p>Before I could say anything else, he immediately laid out the process for me, booked in a general health examination within the week and gave me a number to call for a blood test. He said as soon as I get the blood tests sorted he'll refer me.</p> <p>He was brilliant. He especially kind of stressed that we could go pretty quickly on this - he never explicitly said it but it really felt like he was conscious of my mental health (I've attempted suicide in the past and he was the person I talked to in the aftermath) and wanted to get things done quickly so that I wouldn't have to wait any longer than I needed to.</p> <p>Overall he's a wonderful doctor in so many ways, but ESPECIALLY when it comes to being open and understanding around tough subjects. He seems to understand what you're talking about within a few words, and does his best to help you where he can. Just an amazing doctor and I'd never dream of going anywhere else.</p>

20/10/2022 14:45:45	Dr James Morton	Huddersfield, West Yorkshire	Elmwood Health Centre, Huddersfield Rd, Thongsbridge, Holmfirth HD9 3TR	Yes	More than five times	01484 943000	I've been with Dr Morton for many years, He has always been understanding, if he lacks the knowledge he seeks it out. He listens, he cares, he communicates with other services. All round an amazing doctor, and very trans friendly. Has had other trans patients, and is non binary friendly. He's prescribed HRT under guidance from GIC, keeps up with monitoring and blood tests, and does everything he can for me, even outside of trans care. I can't recommend anyone more after bouncing between many doctors.	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment recommended by a GIC.

26/10/2022 10:30:27	Leesbrook Surgery	Oldham	Mellor St, Lees, Oldham OL4 3DG	Yes	More than five times	0161 621 4800	I've been with this GP from birth (23 years ish). I've had no issue changing my name, gender marker, getting letters from my old doctor about permanent gender changes, etc. I've also had my nebido shot with the same nurse (would recommend Debbie) since I've started T. They do shared care incredibly well (I also take private ADHD meds and they charge me only £9 instead of the private price!) and one of the new doctors was especially non binary friendly. It can be hit or miss with doctors who don't work with the practice but are hired in to fill in when the regulars are sick, but for the most part it's a friendly practice. 26/11/2022 09:01:58	Dr Clarkson	Dundee	Hillbank Health Centre	No	More than five times	01382 226673	When I first attended I was only asking him to do my bloods for my as I was already at a private clinic for hormones. He didn't hesitate when he agreed to do them for me. He stated he had another trans patient that he does this for also. In general, he is a bit all over the place and forgetful - sometimes giving me wrong prescriptions and wrong dates of appointments which is a bit annoying. However he is saving me £300 a time so I can't fault him for that.	This GP has referred to a GIC or onto an official pathway., This GP has provided blood tests for self medication.

09/12/2022 19:08:51	West Pottergate Medical Practice	Norwich	137 W Pottergate, Earham Rd, Norwich NR2 4BX	Yes	More than five times	01603 513333	I moved to this GP one month after I was prescribed Testosterone. They have continued to prescribe it with GIC guidance, and kept on top of my bloods - sometimes with really short notice. I have not been misgendered. I am down on NHS systems as 'Mx' due to still being registered 'female'. I go by he/him pronouns and this was not clarified so they referred to me as 'they' in medical letters which is promising for Nbi folks! They were patient and understanding when I booked and rebooked my cervical smear multiple times. I am especially impressed by the nurses and HCAs who are genuinely interested and invested in my transition. (Don't panic if you're stealth/don't want to talk about your transition - they follow my lead). Had a bad experience with my GP regarding being late but that wasn't because I'm trans! Really impressed and appreciative to be a patient of theirs.	This GP has prescribed HRT or another treatment recommended by a GIC. This GP has provided blood tests for self medication.
10/12/2022 02:00:04	Dr Snowden	Huddersfield	University Health Centre, Sand St, Aspley, Huddersfield HD1 3AL	Yes	Twice to five times	01484 430386	My referral was done before I moved to Huddersfield but the GP is not only trans friendly but is very well informed and is extremely understanding and helpful. They were very quick sorting my bloods out and prescribing under a shared care agreement with the London Transgender Clinic. Awesome GP	This GP has prescribed HRT or another treatment recommended by a GIC.

Bridging prescriptions issued after a year on private HRT, recently reviewed & he attempted to deny due to no shared care agreement - responded with "you've been doing this for a year with no complaints". Will not prescribe triptorelin (no shared care) or finasteride (unless you're on a GIC waitlist, Charing Cross sent a welcome pack which he accepted as instruction).  Trans-friendly & accepting, but not necessarily a good advocate, not without a bit of a fight.  Basically, with a bit of pushback, they'll do the mechanics of shared care without the actual agreement in place. 27/04/2023 16:22:25	John Rohan	London	Lawrence House Surgery, 107 Philip Lane, N154JR	Yes	Once	02088016640	John prescribed me a bridging prescription of testosterone with a respectful and compassionate manner. He didn't ask invasive questions and listened to my expertise on the matter.	This GP has prescribed HRT or another treatment without a recommendation from a GIC.
27/04/2023 20:08:25	Dr S Kilips	Blyth	Blyth Community Hospital & Health Centre, Thoroton St, Blyth NE24 1DX	No	Twice to five times		(Note: I can't speak to NHS GIC related experiences, as I opted for private HRT/dysphoria evaluations)  Dr Kilips is down to Earth and informed about trans healthcare, as well as being open and upfront about her limitations re: knowledge. She has expressed eagerness to engage in a shared care arrangement as soon as I start HRT, and from all I can tell, understands the timelines and processes for both private and NHS referrals. On receiving blood test results, she also told me that she wouldn't (at this stage) no how to interpret blood results as they relate to gender care, which I found rather refreshing given some previous experiences with GPs	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment recommended by a GIC.
27/04/2023 20:39:41	Dr Newell	Stafford	Weeping Cross Surgery	No	Once	01785 662 505	I completed a phone call appointment with Dr Newell and she immediately agreed for me to drop my completed referral form for referral to an NHS GIC that afternoon. She actually also advised me that my initial chosen GIC might not be accepting referrals so seemed somewhat knowledgeable about this pathway.	This GP has referred to a GIC or onto an official pathway. This GP has prescribed HRT or another treatment without a recommendation from a GIC., This GP has provided blood tests for self medication.

24/05/2023 15:45:25	Dr Farida Ahmed	Bristol	Horfield Health Centre Lockleaze Road Bristol BS7 9RR	No	More than five times	0117 969 5391	This GP was safe to talk to about me being trans from late 2010's and during 2023 was responsive, helpful and willing to sign shared care forms after starting Testogel with GenderGP. Although, I am not nonbinary she seems to be accepting of the identity and is aware of the NHS' lacking trans services.	This GP has prescribed HRT or another treatment recommended by a GIC.
24/05/2023 22:26:34	Lyppard Grange Medical Centre	Worcester	Ankerage Green Warndon Worcester WR4 0DZ	No	Twice to five times		They have been accommodating and open to Shared Care with my private doctor. They are reluctant to work with GenderGP and therefore I ended up choosing a different provider.  Pretty straightforward, no issues with them.  I am able to have all my blood tests here and my hormones prescribed with the recommendation of a private endocrinologist.  Note that this GP practice is part of Severn Valley Medical Practice which is overseen by the same doctor (Dr Pickerell).	This GP has prescribed HRT or another treatment recommended by a GIC.

25/05/2023 20:34:30	The Hive	Middleton, Manchester	Middleton, Manchester M24 2YJ	No	More than five times	0161 654 4103	<p>The entire staff have been amazingly supportive and proactive in expanding their knowledge of trans healthcare in the NHS.</p> <p>They made referrals to both the Leeds GIC and Indigo. When later requested they agreed to make a referral to an endocrinologist of our choice and are now following his guidance in prescribing a bridging prescription. They've even made referrals to a speech and language therapist in the hopes they can assist with voice training, and issued a prescription for Vaniqa cream to help reduce facial hair (I'd never even heard of it before!). All of this has been fully through the NHS.</p> <p>Although I have no direct experience of it, I have every reason to believe they would treat a non-binary patient with an equal level of respect and care.</p> <p>I'd recommend this practice to anyone.</p>	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment without a recommendation from a GIC.

22/06/2023 12:24:12	Park View Surgery	Loughborough	Leicester Road	No	More than five times	01509 230717	I ticked "prescribed HRT without a recommendation from a GIC" - they did this for me after a referral from a private endocrinologist who also works within the NHS GIC system. Blood tests prior to this were requested by another private clinician again who also works within the NHS - so they provided blood tests but that was not for self-medication. I did have to remind/provide details that the NHS policy is to do blood tests as requested by private practitioners. The admin staff at the practice have also been friendly and actioned changes, and when there was a delay with getting new NHS number one of the managers worked hard to get it sorted. Actively uses correct pronouns, though forgetful he DOES make an effort and apologises when he messes up. I believe I am the first they/them openly nonbinary patient he has had and he is AMAZING; not just for trans patients, but for all medical needs- including my chronic illnesses, mental and physical. Uses correct pronouns when making referrals also.	This GP has referred to a GIC or onto an official pathway.

07/07/2023 18:57:26	Dr David Hopkins	Exeter	Mount Pleasant Rd, Exeter EX4 7BW	No	More than five times	01392255722	Dr Hopkins agreed to do shared care with my GenderCare specialists (Dr Bhatia&Coxon). He's been good and trusting of me. He implied that he only agreed to the shared care because I had printed out and highlighted lots of documents about it to show him, so I don't know that the surgery has done any trans related training. He's been good and has always signed off my prescriptions and approved blood tests etc. As stated in a previous submission, the surgery was happy to do my name and gender change for me too and I've not had any issues with them regarding my trans-related care. Very supportive, non judgemental, good listener and respectful. She hasn't prescribed things directly because I went through cmagic, that's why I didn't tick those boxes.	This GP has referred to a GIC or onto an official pathway., This GP has provided blood tests for self medication.
17/08/2023 16:25:31	The Glebe Medical Practice	Lesmahagow	Abbeygreen, Lesmahagow, Lanark ML11 0DB	No	Twice to five times		This practice is currently listed as a trans friendly GP under your website stating that they will provide bloodtests for self-care. This may have been true when it was added, however the clinic appears to have done a 180 on that and are refusing to provide blood tests for me wether I'm doing self-care or even through a private GIC - they told me to just wait on the waitlist for an NHS GIC if I want any assistance from them (I explained the absurdity of that request given how long the waitlist is and the response I got was along the lines of "Well, it is what it is"). I switched to this GP originally because they were listed on this and other websites as trans friendly, so I'm trying to make sure it gets removed before other people make the same mistake as I do.	
22/08/2023 16:55:44	Dr Harland	Kilburn, London	Brondesbury Medical Centre NW6 7JQ	Yes	Once	020 7624 9853	GP happy to prescribe T with advice on how to write a bridging prescription from Dean Street. 30/08/2023 17:20:50	Dr Catherine Spilsbury	Edinburgh	Green Practice, Stockbridge Health Centre, 1 India Pl, Edinburgh EH3 6EH, Verenigd Koninkrijk	Yes	Once		(Disclaimer, I'm an international student and w already had a dysphoria diagnosis.) Incredibly positive experience. The reception at Green Practice has several pride flags, including a trans flag. Dr Spilsbury immediately referred me to the GIC. She was understanding regarding my self-medication, but provided me with a bridging prescription for testosterone. She offered to administer bloodwork, provide injection supplies and directed me to other resources (needle exchange, Edinburgh steroid clinic) should I not feel comfortable asking the GP. She also created a "dummy" medical record for me with the correct name/pronouns/title and explained that this is what physicians and other medical professionals would see, unless the knowledge of my sex assigned at birth is necessary. 30/08/2023 21:53:41	East Trees Health Centre	Bristol	100a Fishponds Road Eastville Bristol BS5 6SA	No	More than five times		Multiple GPs are trans-friendly (Dr Gabbot, Dr Bowler, Dr Woodward, Dr Wheatcroft), complete respect, correct pronouns used. I think the practice has a policy to provide people with as much gender care as possible as when one of the doctors couldn't tell me at the appointment what help I can expect but called me after checking. They provided blood tests (when on DIY and then while on HRT prescribed privately) and agreed to shared care with a private endocrinologist. Training for self-injections was offered. No bridging prescriptions as far as I know.	This GP has prescribed HRT or another treatment without a recommendation from a GIC., This GP has provided blood tests for self medication.

06/09/2023 18:09:21	Dr Dan Lane	Willingham by Stow, Gainsborough [12]	Willingham Surgery, High Street, Willingham by Stow, Gainsborough, Lincolnshire, DN21 5JZ	No	Twice to five times	01427 788277	Dr Lane and the surgery staff have been incredibly supportive, he immediately asked what my preferred name and pronouns would be. Just from self identification Dr Lane arranged for a new (female) NHS number and registered me with the NHS clinic and contacted the breast screening unit. At the same time I registered with Gender GP, he provided the requested blood tests, when G GP produced a treatment plan he accepted it and writes my prescriptions and arranges blood tests as required. I cannot praise Dr Lane and the staff enough, they are professional, compassionate and so supportive.	This GP has referred to a GIC or onto an official pathway.

26/09/2023 17:19:33	Catrin Clwyd-Jones	Chester	Handbridge Medical Centre, Handbridge, Chester, CH4 7JS	Yes	Twice to five times	1244	Is largely uneducated about trans people as of the time of writing, not in an insensitive way, I think she'd probably never met a trans/nonbinary person before, but was instantly agreeable to prescribe our HRT and do blood tests on shared care/treatment summaries with GenderGP. We are with a GIC (London) but waited 2 years for our first appointment despite being referred from GIDS and are still, over a year and a half later, waiting for the second appointment, so this GP was chill with prescribing for us in shared care with a private service. Will presumably also refer to the GIC if someone wasn't registered with one/do bridging prescriptions. Does still misgender us in official writings but that's more of a thing with our paperwork than malice and we're sure if we went to the practice with a deed poll and said we wanted to change our details, they would be agreeable. Overall, she was definitely understanding of our situation and has been great with referring us for fertility preservation and then also helping us to chase up said referral. Solid 9/10, -1 for the occasional misgendering.	This GP has prescribed HRT or another treatment without a recommendation from a GIC., This GP has provided blood tests for self medication.

02/10/2023 10:44:08	Dr Lucy Miller	Edinburgh	The Longhouse Surgery, 73 E Trinity Rd, Edinburgh EH5 3EL	No	Twice to five times	0131 552 4919	<p>This practice has been proactive in supporting my transition and the GPs I have seen were shining examples of how to care for transgender patients. Dr Miller referred me to the NHS GIC without hesitation on my first visit and, when I explained I would be seeing a private gender clinic, she offered to investigate a shared care agreement with the GP partners and the practice pharmacist. She also agreed to conducting the necessary blood tests for treatment monitoring.</p> <p>All the above made my visit to the private clinic so much easier and, once I had my gender incongruence diagnosis and a treatment plan, Dr Miller (and The Longhouse Practice) agreed to the shared care agreement and prescribed my GNRHa/hormones immediately.</p> <p>I cannot fault the care I have received from Dr Miller and the rest of the GPs I have seen. They have been empathetic, kind and supportive, and never once did I feel I was judged or there was gatekeeping of care. I think it is the standard every other practice should aspire to!</p>	This GP has referred to a GIC or onto an official pathway. This GP has prescribed HRT or another treatment recommended by a GIC. He knew the basics and didn't ask any invasive or uncomfortable questions, but listened to me and what I was looking for. He changed details on my record in an efficient time, contacted the GIC when I needed him to set up a referral. The nurses at this practice I've found to be really good too for administering injections, quick, warm and thorough.	This GP has prescribed HRT or another treatment recommended by a GIC.

The nurse Jillie regularly chatted to me and would always be sure to say positive things like how good my facial hair growth was going and how glad she is to be a part of my journey supporting me.</p> <p>The GPs have also fought for me when it comes to getting hysterectomies and have advocated for me as a trans patient, outright calling gynaecologists on their prejudices when refusing to see me solely on the basis of my identity when they would gladly see me if I were cisgender.</p> <p>Cannot recommend them enough, amazing and supportive care staff. I initially called and explained the situation with my current GP and the Dalton Terrace receptionist was horrified but professional and reassured me that I would be welcome there and talked me through the steps of registering and basically hand-held me. It was such a relief after an ordeal. I first saw a trainee GP there who wasn't as knowledgeable on trans healthcare but he was being mentored by Dr Stevenson and after our first appointment he told me he's going to brush up on all he can and discuss his areas to improve upon by our second appointment. He actually did! I started seeing Dr Stevenson more regularly due to complex disabilities alongside transition, but I have found the staff there nothing but accepting, kind and brilliant - from the GPs to the nurses to the receptionists. Asked for a bridging prescription recently, I was refused as I didn't have the symptoms needed but Dr Ferrer (only him) agreed to do prescribe T (on the NHS) if I used a private service (he recommended GenderGP) and he did prescribe and agreed to do blood tests. I never had a blood test here tho as I changed GP before my first one was required. I am nonbinary and nothing was delayed because of this. 04/03/2024 15:29:23	Dr Jane Braddy	Faringdon	Volunteer Way, Faringdon SN7 7YU	No	More than five times	01367 242388	Is willing to do shared care agreements with GenderGP. She has been nothing but kind and helpful to at least two binary trans women so I see no reason to think that she wouldn't be non-binary friendly. [16]	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment without a recommendation from a GIC., This GP has provided blood tests for self medication.
08/03/2024 14:02:05	Dr Simon Tucker	Kidlington, Oxford	The Key Medical Practice, Exeter Close, Kidlington, OX5 1AP	No	More than five times	01865 842292	Providing ongoing shared care with recommendation from private GenderCare specialist with no issues (blood tests, HRT prescriptions and injections), all the GPs and nurses I've seen at the practice have been helpful.  Updated my name and title in their records immediately on request. Did require prompting again to also update the gender marker as they weren't initially clear on the process for this, and in doing so they lost track of my prior medical records from before the gender marker change - this has resulted in some administrative confusion but the reception staff likewise have been helpful in working around it.	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment recommended by a GIC.

20/03/2024 12:30:43	Dr Matthew Easdale	Oxford	28@Northgate, Northgate Health Centre, 15 Market Street, Oxford, OX1 3EF	Yes	More than five times	01865 311 811	Dr Easdale has treated myself and a few of my trans friends. He was happy to arrange a shared-care agreement with a private gender healthcare service, and has prescribed TRT on this basis without any fuss. He has never asked me any inappropriate questions, and has treated my unrelated health issues (including mental health) without undue consideration of my trans status. He seems generally bemused by my non-binary identity, but in a friendly, open and non-judgemental way.	This GP has prescribed HRT or another treatment recommended by a GIC.

19/08/2024 19:55:54	Highfield Health	Southampton	38 Highfield Rd, Southampton, SO17 1PJ	No	More than five times	02380 010048	I'm with Gendercare and the GP was willing to take on a shared care agreement for MtF HRT without any issues! I've been with them for 4 years (2020 - 2024) and they've always been good with giving prescriptions, administering Decapeptyl injections and doing blood tests for my endo (Dr. King Sun Leong from Gendercare). The nurses especially are super super nice (Carolyn and Clare have always been amazing) <3 I think this GP has now merged with University Health Service (UHS), but they should still be okay.	This GP has referred to a GIC or onto an official pathway., This GP has prescribed HRT or another treatment without a recommendation from a GIC.

04/09/2024 21:50:12	Sarah Hall	Methil	Airie Medical Practice, Ajax Way, Methil, Leven KY8 3RS	No	Once	01333 426083	GP was very accepting from the moment I initially mentioned I was transgender. She was comfortable and understanding with me sharing experience of DIY HRT (even asking questions towards me as to how transfeminine HRT functioned). She also mentioned previous referrals to GICs (although this was for youth). She was understanding also towards mental health struggles related to being trans. She has since referred me promptly to the nearest adult GIC.	This GP has referred to a GIC or onto an official pathway.
05/09/2024 20:28:19	Dr. David Lant	Birkenhead	Cloughton Medical Centre, 161 Park Road North, Birkenhead, CH41 0DD	No	Once	0151 652 1688	I had an appointment with Dr. Lant after being recommended for an endocrine appointment with my CMAGIC assessment. He was generally well-mannered and seemed to be aware of CMAGIC and the referral pathway to the endocrine team. While only being there for this referral, he done what he could to change my name on the NHS system as much as possible (without deed poll so not much could change) on his own initiative which was appreciated.  I'd like to note that any trans people in the Merseyside area who are stuck on a GIC waiting list or struggle to get recommended by a doctor should explore accessing CMAGIC, with whom I was able to get on a vastly shorter waiting list for the local endocrinologist after 5 weekly sessions with a councillor who could provide a written recommendation for my referral and diagnosis with gender dysphoria. Particularly great for any Trans ppl with long term health issues or disabilities. His whole practice is pretty great but hes amazing. He is very trusting if you say you are experiencing something or need something. He will believe you. Hes a rare unicorn because hes a dr you dont need to play mind games with. He BELIEVES you. his admin team can get a bit mixed up with any type of referral so make sure you chase any of those and check it went through properly. He filled in my Gender recognition certificate document for me. I actually gave him all the info on post its which he happily wrote out and signed for. Hes been amazing in getting confusions sorted with my shared care hormone prescription i had privately. He even helped me and backed me up when i had to make a formal complaint against a transphobic nurse. Amazing. I'm leaving the area and so so sorry to leave him too.
