Disclaimer	All the percentages for electoral demographics are calculated by Tincan Malaysia. Due to severe data deficiency and quality issues in certain public sources (i.e. Elections Lab), all ethnic proportions for every constituency was compared against 2016 Sarawak State Electoral Composition. If source data for a particular ethnic group (i.e. Iban) has percentage difference greater than 5% when compared to 2016 Sarawak State Electoral Composition, NA is returned for the said ethnic group. The exception is given for the following constituencies: Sibu (Orang), Seremban, Tangi, Mentembah, Gadong, Bako, Lundu, Marau, Tawing Juar and Malak. For constituencies that have not been given an exception, NA is returned for other for other constituencies in 2021 that had positive difference of Others greater than 1% when compared to 2016 Sarawak State Electoral Composition. For cells under the column Orang Ulu that is left blank, it amounts to negligible amount of Orang Ulu voters for the given constituency
