ST&RS is notable in how it fell from grace in the magazine. Editorial pushed it hard for its first 11 chapters, giving it really healthy placement in the magazine and colour pages, and then they just gave up, and it spent the remaining 28 chapters dwelling in the basement. Cannot overstate how big a deal Coamix is. Several classic Jump authors taking their ball and going home after Shonen Jump's audience and style had left them behind. This was a huge break-up, and changed the landscape of manga FOREVER. They also run the Silent Manga Audition, one of the first global manga contests, a notable landmark in reaching outside of Japan for talent. To be a founder of this company would immortalise Hara alone, never mind his massively influential body of work.	(Takeki Ryuusei) Cannot overstate how big a deal Coamix is.
