

## Start here

Instructions: 1. Make a copy of the calculator to score your freestyle. Click File > Make a copy. Do NOT "Save" a copy this will save it in the wrong format (.xlsx) and will make the calculator incompatible with our systems

2. Select each attempted trick from the drop down list

If you can't find a trick, please search for it on our Tricktionary on ProWhooper.com or use the search functionality to the right of the calculator For KWAD tricks, select the trick by name

3. Select the appropriate trick execution for each respective trick

Trick Execution Point adjustment Explanation
CLEAN 100% Complete trick as described

SLOPPY 65% Completed the trick without bumps, ground taps, or crashes, but lacks constant loop motion, execution is too segmented or sloppy, etc.

0% Incomplete trick that does not result in contact or accidental completion of another trick (Example: missed gate, missed target, or step required to complete trick)
50% Complete trick with contact, but without disarming. (If contact without disarm occurs while failing to complete a trick, input as "Trick: Between tricks", "Execution: Bump") MISSED

CRASH 0% Incomplete trick with contact and disarm
