Please use this spreadsheet to suggest resources that you think would be useful to help with research for the 3rd edition of the Digital Preservation Handbook. We'd love to hear about anything interesting you've read, heard, or watched about digital preservation. It doesn't need to be a formal publication or conference paper, if it's saying something useful, we want to hear it! Please do also feel free to add as many resources as you'd like.

We've included a "Suggested By" column so we can list everyone who has contributed on the credits page for the 3rd edition, but please leave this blank if you would rather remain anonymous. Or if you'd rather email your suggestions, please send them to handbook[at]dpconline.org with the subject "Reading for Handbook". Thank you for your help.
