How to Insert More Pokemon	How to Change Sprites	How to Change the Ball Type	
<p>Click on any cell in the row above/below you wish to insert a row into. Click Insert > Row Above / Row Below. A new row will then be entered. To save time entering the new Pokemon's data, simply copy the columns "No." through "Notes" (or OT/ID if you're adding a shiny) and paste it into the "No." column in your new row.</p>	<p>Click on the sprite you wish to change. In the URL under the "fx" bar above, you will see a series of 3 numbers. The numbers refer to the Pokemon's National Pokedex ID No. Simply change that number to your desire Pokemon's 3 digit number, and the sprite will change.</p>	<p>Just copy and paste the ball from this page!</p>
