

## WRANGELL-ST ELIAS BASE CAMP | gear list

### ski equipment

- SKIS with TOURING BINDINGS** AT, tele, or splitboard.
- BOOTS** AT, tele or snowboard boots.
- POLES**
- WHIPPET (optional)** Self-arrest ski pole.
- SKINS**
- SKI CRAMPONS**

### avalanche gear

- TRANSCIVER** Modern, digital transceiver. If you have an older model, now is a good time to upgrade.
- SHOVEL** With a metal blade. An extendable handle is recommended.
- PROBE** Should be at least 240cm long.
- AIRBAG BACKPACK (optional)** Highly recommended.

### pack + duffel

- DAY TOURING PACK** 30+ liters with ski and ice axe attachments.
- DUFFEL**

### sleeping system

- SLEEPING BAG** Down or synthetic, rated between -25° and -10° F.
- COMPRESSION STUFF SACK**
- 2 SLEEPING PADS** Closed cell foam or inflatable.

### tech gear

- ICE AXE** Lightweight 50-60cm mountain axe.
- HARNESS** Lightweight alpine harness.
- 2 LOCKING CARABINERS** Triple-action locking carabiners recommended.
- BOOT CRAMPONS** Aluminum recommended. A metal toe bail tends to work best with ski boots.

**3 NON-LOCKING CARABINERS**

**CORDALETTE**

5-6 meters (~15-20') of 6-7mm nylon cord.

upper body

**BASELAYER TOP**

**INSULATING LAYER(S)**
