Roadmap for Community Lens

New Datasets	New Features
Get active survey	Analysing data from postcode sectors
British Red Cross Vulnerability index	Comparing two sets of data
Digital access	Expanding the IMD to cover all 4 countries.
CRDC data	Clustering pins so more than a 1000 postcodes can be processed at a time.
IMD subdomains	Compare against local authorities that postcodes are situated in.
Population density	Connect to additional administration areas for download.
Age profiles	Better postcode cleaning.
Disabilities	
Ethnicity	
Life expectancy	
Transport and connectivity datasets	
MOPAC data for crime (CVA)	
Census data (CVA)
