

# TOP10VPN

We tested the availability of the most popular VPN iOS apps in the Brazil App Store on **August 19, 2024** and found the following were not available for download and instead were marked as "purchased" when an install was attempted. By August 20, **all apps were once again available to download.**

The list of available VPN apps was not exhaustive, as many low-quality free VPN services remained available beyond this list of reputable VPN service providers.
