Grade Boundaries - each grade shows the minimum number of marks required to achieve the grade

If you are very close to the next grade up you may wish to consider a Review of Marking of one or more of your exam papers. This is your decision only.

You must be aware that a Review of Marking may result in either your marks going up, going down or remaining the same, therefore your grade can change.

In order to decide on a Review of Marking you may wish to see copies of your exam papers first which you must request via your school email account to Mrs Evans, Exams Officer (jevans@sandhurstschool.org.uk)

A Review of Marking form for completion can be found within this section of the school website. The cost PER PAPER can be found on the reverse of the form.
