

OLD FP2 taster demo speedrun Leaderboard [PATCH 1.0.0 TO 1.0.4]

Disclaimer: Due to constant patches, some speed tech may become obsolete. Also, some new moves and physics changes may be added. This is why the patch version is stated.

Rules and guidelines:

- 1. Inexpensive times (i.e. first place) will likely require video proof.
- 2. Video records are recommended for referencing and competition, if not, at least screenshot an end time instead.
- 3. It's a given, but no using mod/hack programs which give an unfair advantage. Abusing glitches does in fact - not count.
- 4. A refresh rate of 60Hz is highly recommended, and may be enforced if a record outside this setting is found to give a shorter time. Different refresh rates change the boss pattern, timer speed and possibly even player movement.
