

AVANT GUARD

PATH SUMMARY

In this path, **everyone** has a bodyguard. You get a bodyguard, and you get a bodyguard, and you get a bodyguard...

MAJOR DIVERSIONS & DETAILS

You start out in an adventure where you are given your own burly baby bodyguard, a familiar.

You cannot use any other familiars in adventure.php zones.

Every 50 combats the familiar lets you fight a specific bodyguard monster during your next fight.

Monster Bodyguards

Monsters

Copiable monsters only (no URs or bosses)

Not phylum related

Have their own drops!

Run the gamut from bugbears to dinos

Cannot be freekilled! Oh no!

Multi-stage fights have one bodyguard

Zone-specific: bats in the Bat Hole all have beefy bodyguard bats as their bodyguards

Seem pretty normal, once you beat the bodyguard

... except they are an inherently free fight! Woah!

Also, don't give any Meat... womp womp

So as an example, you may get a mer-kin healer guarding an imp in the Deep Fat Friars.

At Levels 1-5:

Bodyguards act as scalers and gain bonus stats based on your level.

ATK = buffed moxie + L*3

DEF = buffed muscle + L*3

HP = 75% of DEF

At Levels 6 and up:

Bodyguards have their normal monster stats except for HP, which is 2 times the HP of the monster they're guarding

RANDOM IOTM INTERACTIONS

BOFA: Procs on both monsters.

MODEL TRAIN: Advances with both fights.

PAYPHONE, TRICK OR TREAT: Bodyguards can't be made free, so these cost turns.

DARTS: Can't freekill anything! Guardees are free and bodyguards won't go down that easy.

For more, please see the other sheets!

Bodyguard monsters can't be nocopy, nowish, or inherently free
