*boundary-errors	test	()					28	TRUE	2015-07-28T20:00:00.0000000+00:00	2015-07-28T20:00:00.0000000+00:00					Deleted min-max transgression errors				
*changed	datetime	"%datime%"	2015-07-19T16:48:32.542Z			24	24		28	TRUE	2015-07-28T20:00:00.0000000+00:00				At what moment this key was first found.				
*description	text	"%text%"	How many times a bookan-typeid value was found in this key						28	TRUE	2015-07-28T20:00:00.0000000+00:00				A description for this field				
*example-value	text	"%integer%"	6						28	TRUE	2015-07-28T20:00:00.0000000+00:00				A captured value example				
*format	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				— not used yet				
*reference-key	text	"%key%"	*key						28	TRUE	2015-07-28T20:00:00.0000000+00:00				The key of the field that is referenced (targeted) by this field				
*key	text	"%key%"	*count-by-type	boolean					28	TRUE	2015-07-28T20:00:00.0000000+00:00				The key of this field, the location (join-junction) in the data-structure where the info				
*max-len	integer	"%integer%"	28						28	TRUE	2015-07-28T20:00:00.0000000+00:00				Accepted maximum value of the field. Or the recorded maximum value for new fields.				
*min-value	text	"%datime%"	2015-07-17T07:55:18.147Z						28	TRUE	2015-07-28T20:00:00.0000000+00:00				Accepted maximum length of the field. Or the recorded maximum length for new fields.				
*min-len	integer	"%integer%"	24						28	TRUE	2015-07-28T20:00:00.0000000+00:00				Accepted minimum value of the field. Or the recorded minimum value for new fields.				
*min-value	text	"%bookan%"	0						28	TRUE	2015-07-28T20:00:00.0000000+00:00				Accepted minimum length of the field. Or the recorded minimum length for new fields.				
*missing-semantic	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Description of what it means if this field is not present				
*newvalue-errors	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Detected values that are not in its reference list				
*old-semantic	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Description of what it means if this field bears an empty value				
*oldvalue	boolean	"%boolean%"	TRUE						28	TRUE	2015-07-28T20:00:00.0000000+00:00				Indicates if empty-values for this key were found.				
*old	text	"%key%"							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Indication of how the field should be mapped in an RDF triple				
*recommended-use	text	"%key%"	Use this field to report boundary-value-errors						28	TRUE	2015-07-28T20:00:00.0000000+00:00				How the field and its values are intended for typical use				
*reference-errors	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Detected values that are not in the target key				
*remarks	text	"%key%"							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Other remarks about this field				
*test-errors	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Detected test-errors (non-semantic)				
*type	text	"%key%"	integer	boolean	text				28	TRUE	2015-07-28T20:00:00.0000000+00:00				The datatype of this field.				
*type-counts	text	"%key%"	"%integer%"	"%boolean%"	"%text%"				28	TRUE	2015-07-28T20:00:00.0000000+00:00				How many times each type was guessed as fitting the value				
*type-errors	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				Detected type-mismatch values				
*updated	datetime	"%datime%"	2015-07-19T16:48:32.542Z			24	24		28	TRUE	2015-07-28T20:00:00.0000000+00:00				At what moment this key was last detected and thus information about it updated.				
*use-count	integer	"%integer%"	13						28	TRUE	2015-07-28T20:00:00.0000000+00:00				How many times this key was used				
*user-reference	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				How do users' implementations of this data know about it? Where in the UR do they handle				
*value-list	text	"%key%"	boolean[datime][integer][number][text]						28	TRUE	2015-07-28T20:00:00.0000000+00:00				List of accepted values for this field.				
*value-list-semantic	text	()							28	TRUE	2015-07-28T20:00:00.0000000+00:00				How the various different values for this field should be interpreted

*count by type boolean	integer	"count"	4	0				15		2015-07-19T18:20:15-07:20:40:15.544Z																How many times a boolean-typed value was found in this key	
*count by type date	integer	"count"	56	0				11		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times a date-typed value was found in this key
*count by type datetime	integer	"count"	56	0				11		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times a datetime-typed value was found in this key
*count by type integer	integer	"count"	13	0				7		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times an integer-typed value was found in this key
*count by type number	integer	"count"	56	0				24		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times a number-typed value was found in this key
*count by type text	integer	"count"	56	0				24		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times a text-typed value was found in this key
*count by type time	integer	"count"	56	0				24		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times a time-typed value was found in this key
*count empty	integer	"count"	56	0				50		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times an empty value was found in this key
*count used	integer	"count"	56	0				50		2015-07-19T18:20:15-07:20:40:15.544Z																	How many times this key was used
*created	datetime	"datetime"	2015-07-20T20:02:06.771Z				24	28	57	2015-07-19T18:20:15-07:20:40:15.544Z																	At what moment this key was first found
*errors boundary*	text	"errors"	2015-07-20T20:02:06.771Z						6	2015-07-19T18:20:15-07:20:40:15.544Z																	Detected min-max transgression errors
*errors key*	text	"errors"							63	2015-07-19T18:20:15-07:20:40:15.544Z																	Detected key-typed errors (non-strings)
*errors type*	text	"errors"							63	2015-07-19T18:20:15-07:20:40:15.544Z																	Detected type-mismatch values
*errors normal*	text	"errors"							63	2015-07-19T18:20:15-07:20:40:15.544Z																	Detected values that are not in the reference list
*errors reference*	text	"errors"							63	2015-07-19T18:20:15-07:20:40:15.544Z																	Detected values that are not in the target key
*example	text	"example"	2015-07-20T20:02:06.771Z						38	2015-07-19T18:20:15-07:20:40:15.544Z																	A captured value example
*format	text	"format"							38	2015-07-19T18:20:15-07:20:40:15.544Z																	- not used yet
*isReferenceable	boolean	"isReferenceable"	TRUE						57	2015-07-19T18:20:15-07:20:40:15.544Z																	Indicates that this field is used as a target referenced by an other field
*isReferenceableKey	text	"isReferenceableKey"	*key						1	2015-07-19T18:20:15-07:20:40:15.544Z								*key									The key of the field that is referenced (templated) by this field
*key	text	"key"	*boundary-errors						57	2015-07-19T18:20:15-07:20:40:15.544Z																	The key of the field (the location (row-path-relation) in the data samples where the info
*list	text	"list"	boolean						14	2015-07-19T18:20:15-07:20:40:15.544Z																	List of accepted values for this field
*max	text	"max"	"count"						18	2015-07-19T18:20:15-07:20:40:15.544Z																	Accepted maximum Use this field to report boundary-value-errors
*maxlen	integer	"maxlen"	24						5	2015-07-19T18:20:15-07:20:40:15.544Z																	Accepted maximum Use this field to report boundary-value-errors
*min	text	"min"	"count"						17	2015-07-19T18:20:15-07:20:40:15.544Z																	Accepted minimum Use this field to report boundary-value-errors
*minlen	integer	"minlen"	24						5	2015-07-19T18:20:15-07:20:40:15.544Z																	Accepted minimum Use this field to report boundary-value-errors
*mutable	boolean	"mutable"	TRUE						28	2015-07-19T18:20:15-07:20:40:15.544Z																	Indicates if empty values for this key were found
*type	text	"type"	boolean						55	2015-07-19T18:20:15-07:20:40:15.544Z																	Indicates if empty values for this key were found
*unique	boolean	"unique"	boolean						2	2015-07-19T18:20:15-07:20:40:15.544Z																	Indicates if this reference field contains all unique values.
*updated	datetime	"datetime"	2015-07-20T20:04:14.764Z				24	28	57	2015-07-19T18:20:15-07:20:40:15.544Z																	At what moment this key was last detected and thus information about it updated
