

[Hello, if you came looking for the 2018 NBA Draft Database, that has now been archived and is no longer available to the public. However, if you would like to view similar data for the 2019 Draft Class, I already have a 2019 NBA Draft Database created with even more players than the 2018 Database. For access to the 2019 database, visit \[patreon.com/HoyGribanov\]\(#\) and subscribe to the Database Access tier. This comes at a price of \\$3 a month, but I've been told that the birth dates alone are worth the price. If you have any questions reach out on Twitter \[@JHoyNBA\]\(#\) or via email \[jghoy19@gmail.com\]\(mailto:jghoy19@gmail.com\)](#)
