Einstein in Philadelphia (prelim)	really crappy hospital and bad schedule. The tour guided complained about the program the entire time, it was actually quite shocking. The residents also don't get food money can you imaginee slaving away all day at the hospital and having to pay for food? Anyway, seems like they just starve because at the end of the tour we made it over to our interview meal and the residents were sitting and EATING our food!! WTF! They didn't even get up when they saw us! We were standing around and there wasn't enough food left for us. Absolutely bizarre. Didn't rank.
