

House Committee on Armed Services

Members of this House committee are involved in hammering out the final reconciled FY24 National Defense Authorization Act (NDAA).

The FY24 NDAA may or may not include the Senate's UAP Disclosure Act (UAPDA). Passage of the UAPDA is *critical* for the UAP transparency movement.

Constituents (people who live in these districts) have an outsized voice with their elected officials – phone lines *must* be open enough to allow their calls to get through!

US voters from across the country should be noisily and relentlessly tweeting at all of these members, asking them for a clear public yes or no on their support for the UAP Disclosure Act.

Let them know that the American people are watching closely!
