Hello!	
I'm glad that you're here! It means that - like me - you're probably interested in a couple of things: the tabletop roleplaying game Delta Green published by Arc Dream, and listening to other people play Delta Green adventures.	
While another, more famous and very well maintained list exists for Pathfinder, as far as I know there was no centralized repository for Delta Green Podcasts. While I had made some lists in various discord channels and reddit, I thought it may be nice to put that into a widely accessible place.	
I'm indebted to friends on Twitter, Reddit, and various Discord servers for helping me track down many of these podcasts, and also to Jason (https://twitter.com/whatdoyoudopods) for his work and inspiring me to translate his work to Delta Green

Thanks for your notes and comments!
