

2023 NA EVENT SHOP MATERIALS + MORE!

This guide was made with a lot of hard work and love by many individuals, with the goal being to give an accurate account of the upcoming event materials for account planning needs. It's maintained primarily by Khadroth and Torak. If you spot any errors you can contact me [@khadroth](#) on twitter or [khadroth#0001](#) on discord.

FAQ

Why doesn't the sheet have all campaigns?

-It focuses primarily on a mobile-friendly format, so cutting down on lateral clutter is ideal. There's also the problem of campaign rewards changing from JP to NA (global) server or not even being run at all, so we stick primarily to Events who's rewards do not change. We have considered how to add them though.

I just got a drop from the event node that isn't on the sheet. Why is that?

-We only denote guaranteed items and where possible, repeatable nodes. Items that have a chance to drop are never included since you can't count on them unless doing multiple runs.

How far ahead is the JP server?

-Two years ahead of the NA (global) server. As such this sheet will always have a two year lead by which you can plan your material needs around.

I've seen another spreadsheet that looked just like this?

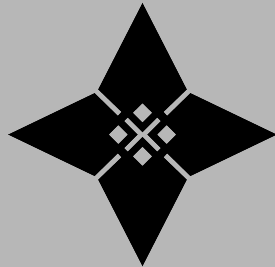

-Copies have been made by people over the years. This is the only routinely maintained version. Odds are if you see another sheet with this same format, its one of those and should be avoided.

Your sheet seems to disagree with other sources of data, why is that?

-Odds are they're wrong. Between this and my other guides I can tell you that other data crunchers have a tendency to copy each other's homework and not actually verify things for themselves. We hand input and verify the data from multiple sources, checking for any conflicts when possible. There can also be confusion as to whether a drop is guaranteed or not at times.

For the lores and grails, (B) is the amount you will get if you had done the event previously.

Can only get RP for both Mecha Elis if Hallow 3 was done at least once.

Repeatable nodes here are from random repeatable detective missions

* Denotes Lotto Materials (Number Per Box) **Ticket mats
