Google Drive Foder IDs		
Folder for Source Files		
Subfolder for converted files	CONVERTED	**Processed Files**
Original Folder ID	#VALUE!	

Convert JSON Files

What will happen?

- Verify that the ORIGINAL folder in Google Drive is valid and accessible.
- Read every .JSON file in the ORIGINAL folder.
- Swap all occurences of the Original text for the Client text.
- Write the updated file to the 'CONVERTED' folder - overwriting if needed.
