The Delani emperors believed that they should ride into battle with their men rather than hide like a coward. Hence their typically short periods of rule.  The Golden Age occurred after a brief period of rule by local governors from 2396 - 2400. It is the only lengthy period of time in which an elected senate ruled with absolute power.  The Helana Dynasty was instituted by the new senate and was named such as to give it credibility as many still respected the first empress, Helana.  Usurped his father, Helani I and took power for himself. Sined three daughters: Helani II, and Helani IV. Froze their souls and their bodies so he could control them later after his death.  The gods created a lesser god, Gildagod, to oversee the plane of Tom in hopes of preventing further future conflict.  The Theird Feni Dynasty was put into power by the senate as a replacement for the Helana Dynasty. The actions of Fengrono II had sown great mistruat of the dynasty throughout the people and thus it had to be replaced.  The gods, seeing what damage magic had caused, made the descision to permenently remove magic from the reatim of motals. As a result, they also permanently cut themselves off from the mortal realm, removing <u>their abilities to interact with mortals. </u>
