

Some Travel Banter are missable, however I haven't found any resource that specifies which ones are and which ones aren't missable, other than that the ones that aren't tied to any chapters can't be missed, and for the ones that are missable up to which point they can be viewed, meaning that if I were to include them in the main checklist I would have to include all of them and they would have to be done immediately, and though I can't do anything about having to do them immediately (at least for now), I can do something about not having to include them all in the main list (which would add about 160 more rows, as of now the main list is 59 rows, meaning it would almost quadruple the list's size), what I can do being pasting a link to the Octopath Traveler Wiki's "Travel Banter" page: [https://octopathtraveler.fandom.com/wiki/Travel\\_Banter?so=search](https://octopathtraveler.fandom.com/wiki/Travel_Banter?so=search)

If you're not that familiar with the cutscene names, you can go to your Journal, then select the Traveler whose chapter it is, and it will show the names of the cutscenes, every cutscene is added directly after watching it, so if you're unsure after which cutscene the Travel Banter happens, you can check after every cutscene.

I may make a version with all Travel Banter included but even if I do it won't be any time soon, if testing of which Banter are and which aren't missable it would hopefully save a lot of room, and I also see that not a lot of people care much for getting all of the Banter, I myself do because I like to get everything in games, and I would prefer to have a complete list but since I am unsure of which are and which aren't missable, this will do.
