High School Fee Schedule & Spend Plans	District approved maximum fees	\$ 7,500.00
Middle School Fee Schedule & Spend Plans	District approved maximum fees	\$ 1,000.00

Iron County School District - High School Fee Schedule

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.

Iron County School District - Middle School Fee Schedule

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.

Sample Spend Plan/Activity Disclosure for Classes, Activities, Groups, Organizations and Sports

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.

Sample Spend Plan/Activity Disclosure for Classes, Activities, Groups, Organizations and Sports

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.

Sample Spend Plan/Activity Disclosure for Classes, Activities, Groups, Organizations and Sports

Beginning with the 2020-21 school year, every LEA (Local Education Agency) fee schedule must include a spend plan that lists the anticipated types of expenditures for each fee that the LEA charges. A spend plan provides students, parents, and employees transparency by identifying a fee's funding use. An LEA or school's spend plan shall identify the needs justifying the fee being charged. In limited circumstances when fees will be used to purchase items used for more than one year, fees may be carried over from one year to the next. Otherwise, the fees must be used for current fiscal year expenditures. **The following fees represent the maximum fee that a school may charge. See the individual school's fee schedule for actual fees charged.** Please refer to the District School Fee Policy for more information regarding maximum school fees and fee waivers.
