the idea was fun, but to buggy and repetitive. The graphics have potential, but here the same goes (buggy)  
the life unfortunately (for me) hits my experience, too chaotic, wasn't triggered to wanting to play more  
cool game, works additive for me, the simplicity in graphics is a strength consistent art direction  
I got the idea, but needed lots of time to find out how to do level 2, nice idea, but needs more refinement to improve user experience  
Game feels really fun and smooth, on my PC the graphics were black/blue, not like they should have been. This was too bad, because it just felt good on several aspects.  
The game sets a mood and brings the theme 'too life', fun to play and wanting more levels :)  
Good solid game for a jam. Maybe a bit difficult to get the hang of  
Fun, nice twist with the cows. Theme not really exploited, never the less had a bit of fun with it.  
I can see the effort that's gone into it, but the gameplay just didn't work for me. I have no idea why I'm winning what I'm doing  
Equally nice put together as confusing when you play it at first. A bit too complex maybe, but good result for a week jam.  
Points mostly for the mood setting, nice art style and music - story for a 1 week jam. But gameplay made me stop playing  
Good to see the simplicity of a text adventure in the WGA, not very spectacular but nice  
Feels like a potential for a bigger full game, the sounds/mood scared the s\*\*t out of me first time  
Complete game, feels robust, not spectacular but very solid, especially for a one week 'jam'
