An edited version leaked on August 30, 2019; the full thing leaked August 22, 2021. A better bounce leaked August 5, 2024, though Travis might be slightly off-beat. Rodeo	Joyride [Demo 1] [prod. Hit-Boy]	Long solo reference by Travis over the first part of the instrumental. Recorded on February 26, 2015, two months before Tinashe touched the song; comments from her in an interview with Billboard suggest that it wasn't originally intended for her. Leaked July 29, 2024.	Full - HQ (Unofficial) ☆ [5]	<a href="#">KrakenFiles</a>
Rodeo	Joyride [Demo 2] [prod. Hit-Boy]	Condensed version of the previous demo, creating a bit of a structure. Leaked July 29, 2024.	Full - HQ (Unofficial) ☆ [6]	<a href="#">KrakenFiles</a>

Rodeo	Wasted [Demo 9] (feat. Juicy J) [prod. Metro Boomin & Ging]	<b>OG Filename: TRAVIS SCOTT_WASTED_JUICY J_10_for mix</b> Pre-mix demo that is almost identical to the final release, just a bit sloppier and unpolished. Also has a strange piece of additional production near the end. Pimp C.'s sample was supposed to be included on this version, but it was missing from the files for some reason; it could be that the open sections were added in preparation before they had access to Pimp C's vocals. A bounce leaked October 9, 2023. A better bounce leaked July 18, 2024.	Full - HQ (Unofficial) ☆ [9]	<a href="#">KrakenFiles</a>

Owl Pharaoh	Victoria Monét - Let Her Go (feat. Travis Scott) [prod. TBHits]	<b>OG Filename: LET HER GO FEAT TRAVIS SCOTT</b> Shares some similar lyrics with the first demo of "Naked". Said to be from 2014 by the seller, but the evidence suggests that it was recorded in 2012, probably when Travis was staying at TBHits and Victoria's house after first moving to LA; may have been considered for a Victoria album in 2014. Leaked July 4, 2024.	Full - HQ	<a href="#">KrakenFiles</a>
Birds	Reflex [V1] [prod. TM88 & Wheezy]	<b>OG Filename: REFLEX 4</b> Demo that made its way to Young Thug. This early version has an extra verse that was cut to make "V2". Leaked June 30, 2024.	Full - HQ	<a href="#">KrakenFiles</a>

Metro Boomin]	Likely made during the 2014 Atlanta 'Rodeo' sessions, possibly recorded in the producer house studio; Travis can be seen working on his album at the house in a Vice Noisey documentary. Snippet leaked June 22, 2024.	Snippet - HQ	<a href="#">KrakenFiles</a>

Cubeatz, TyMaz & Ambezza]	<b>OG Filename: pbc x trav 2 8.17.23_1</b> Previewed by Carti at his birthday event in Atlanta on September 13, 2023; the filename comes from DJ Swamp Izzo, who revealed the existence of the song earlier that day and planned to play it on his radio show. Two HQ snippets leaked in June 2024, with the song itself following on June 15. The leaked version appears to be edited to remove an open verse.	Edit - HQ	<a href="#">Pillowcase</a>

Teased on Instagram in late 2018, and then played by Maxo on Instagram Live in February 2019, though it's unclear exactly which versions were previewed. Leaked June 12, 2024. The third freestyle from the session leaked June 28, 2019. The full bounce leaked May 26, 2024. Two files are linked; one file is muted in places and is technically the correct bounce, while the other is unmuted and has an extended freestyle as a result. Utopia	Southside & Future - Hold That Heat [Demo] (feat. Travis Scott) [prod. The leaked file begins with a slightly different version of the final release (extra adlibs, different mixing, no Mike Dean), and then has around 35 seconds of silence before the song resumes; the verses that follow are similar to the other verses, but with some alternate lines. While it sounds edited, it could potentially be a test-bounce of sorts where they tried to figure out what verses they wanted to use.	Full - HQ	<a href="#">OnlyFiles</a>

Rodeo	Up To Something [Demo 7] (with Young Thug) [prod. Metro Boomin, Allen Ritter & Southside] (AKA: Drown)	<b>OG Filename: TRVS SCTT x YNG THG - DROWN - RUFF_1_03</b> Better mix than the previous version, and Thug now says "ayy" on the hook. Leaked September 27, 2022.	Full - HQ	OnlyFiles
Birds	Wonderful [Media Mix 2] [prod. Boi-1da, Travis Scott & Mike Dean]	Another performance version with open sections for the Weekend; all of Travis's vocals are present. Has Travis's final verse and Mike Dean's additional production, so it isn't an early demo. Leaked September 27, 2022.	Full - HQ	OnlyFiles

Rodeo	Nightcrawler [Demo 6] (feat. Rae Sremmurd & Chief Keef) [prod. Southside, Metro Boomin, TM88, Travis Scott & Allen Ritter]	<b>OG Filename: Travis Scott - Nightcrawler_27</b> Essentially identical to the next demo, with a rougher mix. Leaked September 27, 2022.	Full - HQ	<a href="#">OnlyFiles</a>

Utopia	Too Much Power [Music Video]	Snippet for a supposed music video leaked September 26, 2022; apparently directed by Frank Ocean, though it appears instead to be a promotional video for Frank using the song. Regardless, it confirmed the real title for the track, so this will be updated when more details are known.	Snippet - HQ	<a href="#">KraakenFiles</a>
Utopia	Kanye West - Future Sounds [V9] (feat. Travis Scott) (AKA: Future Bounce)	Version once again known as "Future Bounce" made one week before the 'DONDA' Vegas listening party, per the Kanye tracker. Features new production elements. Leaked September 26, 2022.	Full - HQ	<a href="#">OnlyFiles</a>
Birds	Champions [Post-Release Mix] (with Kanye West & Co.)	<b>OG Filename: Champions_Drums_Vox_135 BPM</b> Version dated September 2, 2016, three months after release; possibly the version intended for 'Cruel Winter', per the Kanye tracker. Leaked with the multitracks on September 21, 2022.	Full Stem Bounce - HQ	<a href="#">OnlyFiles</a>
JackBoys	Kodak Black - Zeze [Demo] (feat. Travis Scott & Offset) [prod. d.a. got that dope]	Early version with a rough mix, slightly different structure, and open instrumental in place of Kodak's verse. Leaked September 19, 2022.	Full - HQ	<a href="#">OnlyFiles</a>
Utopia	Out of My Mind (with Kid Cudi)	Made-up title. Teased on Instagram on April 23, 2020 alongside "THE SCOTTIS", and remains the only other song known about from their shelved project. Later played at the Road to Utopia event on September 17, 2022.	Snippet - LQ	<a href="#">Latest Snippet (OnlyFiles)</a>
Utopia	Cinderella (with Future)	Made-up title. Previewed at the Road to Utopia event on September 17, 2022. Supposedly created during sessions for Future's "I Never Liked You".	Partial - LQ	<a href="#">OnlyFiles</a>
Utopia	God's Country [V3] [prod. 30 Roc & Dez Wright]	Solo version debuted at a show in London on August 6, 2022; later played almost in full at the Road to Utopia event on September 17, 2022.	Full (?) - LQ	<a href="#">Latest Snippet (OnlyFiles)</a>
Astroworld	Ragga	Possibly an alternate version of "Sicko Mode", with shared lyrics from the second part. Said to be a demo by Waterfalls, but CyHi's reference track might dispute that; will be better organised when more details are known. Snippet leaked September 8, 2022.	Snippet - HQ	<a href="#">KraakenFiles</a>
Rodeo	Wine and Hennessy [prod. Metro Boomin & Allen Ritter] (AKA: Wine and Hennessy)	<b>OG Filename: WINE AND HENNESSY IDEA</b> Features Travis laying down reference vocals for about ten minutes over an evolving beat produced by Metro Boomin and Allen Ritter. Privately sold by Music Mafia and then previewed via an edited snippet under the name "All The Time"; it was labelled as featuring The Weeknd, but this was an intentional false claim to catch scammers. Sometimes shortened to "Hennessy" before the title was confirmed; "WINE AND HENNESSY IDEA" was the original filename (with the misspelling). The song wasn't bounced, and Music Mafia didn't even attempt it, so it leaked without the vocal effects that it was intended to have on February 6, 2018. An inaccurate recreation surfaced in November 2020. A completely accurate bounce leaked September 7, 2022.	Full - HQ	<a href="#">KraakenFiles</a>
Utopia	Kanye West - Pablo [V1] (feat. Travis Scott & Future) [prod. Digital Nas, ATL Jacob & FnZ]	Earliest known version with production from Digital Nas. Snippet leaked September 7, 2022.	Snippet - HQ	<a href="#">KraakenFiles</a>

P'terre Bourne] (AKA: Look At My Rollie)	<b>OG Filename: Look At My Rollie Explicit Master m1t</b> Different mix, dated April 27, 2018; seemingly originally titled "Look At My Rollie". Leaked August 29, 2022.	Full - HQ	<a href="#">OnlyFiles</a>
Utopia	Big Sean - Lithuania [Demo] (feat. Travis Scott)	Early version teased on The Source, inbetween the .WAV Radio preview and its release. Probably nearly identical to what released, but it has different production leading into Sean's pre-hook.	Snippet - HQ	<a href="#">OnlyFiles</a>
Birds	Champions [Demo 4] (with Kanye West & Co.)	Later version; has slightly different production. Other differences and features are unknown.	Snippet - LQ	<a href="#">Vine</a>
Utopia	Metro Boomin - [Unknown] (feat. Future & Travis Scott)	Teased via a studio snippet on August 5, 2022. Unknown whose song it is. Travis's part seems to have a similar flow to "Niagara Falls".	Snippet - LQ	<a href="#">OnlyFiles</a>
Astroworld*	PARTYNEXTDOOR - Keeper	Previously available on LEAKED.CX, though no snippet was posted - one later leaked on August 3, 2022. Supposedly a reference for Travis.	Snippet - HQ	<a href="#">OnlyFiles</a>
Utopia	NAV & Lil Baby - Never Sleep [Demo] (feat. Travis Scott)	Collaboration made in 2021-22. A snippet leaked June 26, 2022; a second followed on July 17. NAV later posted a third snippet in his Discord server on July 20.	Snippet - HQ	<a href="#">Latest Snippet (OnlyFiles)</a>
Utopia	Kanye West - Pablo [V3] (feat. Travis Scott & Future)	<b>OG Filename: PABLO MIKE DEAN MIX 100 MIKE DEAN MIX</b> Per the Kanye tracker, this was found in a pack of supposed OG files for the version played at the 'Donda 2' Miami listening party. Essentially just another alternate mix. Leaked May 30, 2022.	Full - HQ	<a href="#">OnlyFiles</a>

Owl Pharaoh	Angels vs. Demons (prod. Travis Scott)	According to a tweet from Travis in September 2011, this song was to feature on a very early version of 'Owl Pharaoh'. Owl Pharaoh	12 Disciples (prod. FK1 & Travis Scott) (prod. Follow Me)	Leaked by Fitz on KTT on June 1, 2013, after he was sold a pack of early 'Owl Pharaoh' tracks by Pharaohxx. Presumably the song "Follow Me" from the August 2012 tracklist. According to Pharaohxx, Travis gave the song to Kendrick at SKSX 2013, but he never ended up using it. The instrumental appears to be a reworked version of the PC-produced beat used for "Conclusion" with Machine Gun Kelly and Travis Porter. Technically released on the Grand Hustle compilation tape "We Run This Vol. 10".	2:39		Jun 1, 2013	Full - HQ	<a href="#">Pharaohxx Kendrick Westpost (Screenshot)</a> <a href="#">August 2012 Tracklist (Screenshot)</a> <a href="#">Conclusion YouTube</a>	<a href="#">KlackedFile</a>
Owl Pharaoh	16 Chapels (Remix) (with OG Chess & Kanye West)	Never version with a "harder" beat intended for 'Owl Pharaoh', rumoured to be produced with Kanye. Mentioned on "Tumblr" by Travis, but the version on the project was unchanged.				N/A	<a href="#">Tumblr Post (Screenshot)</a>	
Owl Pharaoh	Animal (Remix) (feat. T.I.) (prod. TBHitts, Kanye West & Travis Scott)	Reworked version with new drums from Kanye, announced on Twitter on January 5, 2013. A snippet was possibly played the same day (and again the following day) on Power 106, but all links appear to be dead, and KTT users who heard it all seemed to think that it sounded identical to the released version.				N/A	<a href="#">Second Hand Religion (Screenshot)</a>	
Owl Pharaoh	Armageddon (prod. Travis Scott)	Initially made for an early version of 'Owl Pharaoh' likely in 2012, but Pharaohxx said it was being saved for an album that never materialized. An instrumental leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman. It was later used in 2016 by ASAP Twelvyy for "Lords Never Worry" with Nas and Rocky; no Travis vocals have ever surfaced.				Instrumental - HQ	<a href="#">Pharaoh Post (Screenshot)</a>	<a href="#">KlackedFile</a>
Owl Pharaoh	Back to Black (Cover) (prod. HXL1)	Cover of Amy Winehouse's "Back to Black" that appears to be performed by Travis. Snippet originally leaked quietly on December 19, 2022, before being reposted on August 8, 2023. Said to be a reference for Beyonce's version, but it's unclear why she would need a reference for a cover.				Snippet - HQ		<a href="#">tikowase</a>
Owl Pharaoh	Bad Mood [Demo] (prod. Emile Haynie)	OG Filename: Bad Mood Rougher Version 1 Early unfinished version disconnected from "Shit On You", with fewer verses and different lyrics. Owl Pharaoh	Bandz [Demo 1] (prod. The Dope Boyz & MIKE DEAN) (AKA: I Got Bandz)	Early version with a verse in place of Meek Mill played a couple of times in late 2012 and again at SKSX 2013. Leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman; Music Mafia later tried to auction it in 2018 as "I Got Bandz".	4:25		Jul 19, 2013	Full - HQ		<a href="#">KlackedFile</a>
Owl Pharaoh	Bandz [Demo 2] (feat. Meek Mill) (prod. The Dope Boyz & MIKE DEAN)	Appears on the May 2013 tracklist. 5:24 long, 53 seconds longer than release. Possibly adds Meek's verse to the above demo, before it was decided that one of Travis's verses should be cut.	5:24			N/A	<a href="#">May 2013 Tracklist (Screenshot)</a>	
Owl Pharaoh	Blame (feat. Mr Hudson) (prod. Travis Scott)	Different to the "Birds-era "Blame"; this is a new version of "Analogue" with Mr Hudson. Revealed by Pharaohxx on March 23, 2013; Travis confirmed its existence through a tweet three days later. Possibly intended for the scrapped iTunes deluxe version of 'Owl Pharaoh'. Owl Pharaoh	Blocka La Flame [Demo 1] (prod. Young Chop) (AKA: Flocks)	Early version with some differing lyrics from the final release across both verses and no Popcaan. Also features the "Jill America" tag and pre-dates Mike Dean's contributions. Leaked October 8, 2019. Was originally Travis's song before Pusha T heard it and reworked it as his own for "Wrath of Cain". Titled "Flocks" at this stage, so it's likely the version found on the August 2012 tracklist.	3:20		Oct 8, 2019	Full - HQ	<a href="#">August 2012 Tracklist (Screenshot)</a>	<a href="#">KlackedFile</a>

Owl Pharaoh	Blocka La Flame [Demo 3] (prod. Young Chop & MIKE DEAN) (AKA: Blocka)	Near-complete; some of the vocal effects in the background are less noticeable, and it doesn't feature the background vocals found on the final version at around 2:52. Leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman.	3:34		Jul 19, 2013	Full - HQ		<a href="#">KlackedFile</a>
Owl Pharaoh	Kid Cudi - Can't Look In My Eyes [V1] (prod. Kid Cudi & Dot da Genius)	Later version of "Fuck"; eventually became "The Bad I Have To Destroy You Now". A snippet circulated on KTT in April 2013, but it appears to be lost. At a 2014 meet-and-greet, according to a KTT user, Travis expressed mild annoyance when "TBHITDYN" was played over the speakers, stating, "Aye, turn this shit off. Me and 'Ye were supposed to be on this but Cudi took us off". According to another KTT user, Travis confirmed that Cudi had already reworked the beat by this point, likely bringing in the "Son of Flynn" sample.				N/A	<a href="#">KTT Posts (Screenshot)</a>	
Owl Pharaoh	Can't Look In My Eyes [V2] (feat. Kanye West & Kid Cudi) (prod. Kid Cudi & Dot da Genius)	Travis tweeted on March 26, 2013, that he wanted to drop "Can't Look In My Eyes" after Cudi cut it from his album, and he stated on Twitter that the original version was better after it released, which was probably in reference to "Fuck". This is likely the Kanye and Cudi song that Pharaohxx mentioned would appear on the iTunes deluxe version of 'Owl Pharaoh', but the project never released and Cudi took the song back anyway. Leaked audio clips from an unknown time show what sounds like will.i.am calling the song "Fresh" during a listening session of 'Owl Pharaoh'. Owl Pharaoh	Dance on the Moon [Demo 1] (feat. Theophilus London) (prod. J Gramm)	Early version that doesn't feature Paul Wall. Travis's verses, which are the opposite way around, use an earlier take and have a few different lyrics. Possibly titled "Dancing on the Moon" at this point, as it appears as such on the May 2013 tracklist. Owl Pharaoh	Drive [Demo 1] [prod. Owl Pharaoh	Fear [prod. Travis Scott]	According to LS and a tweet from Travis in September 2011, this song was to feature on a very early version of Owl Pharaoh. An instrumental supposedly produced by Travis leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman. LS stated that Travis called this song his favourite. Owl Pharaoh	Fuck (feat. Kid Cudi & Kanye West) [prod. Anthony Kilhoffer, Kanye West, MIKE DEAN & Travis Scott] (AKA: Can't Look In My Eyes)	Song that appears on the August 2012 tracklist; production credits confirmed through tweets from Travis (Mike Dean was mentioned in a separate tweet). Posts from some KTT users and GOODMUSICINSIDER indicate that it is an early version of Kid Cudi's "Too Bad I Have to Destroy You Now" (previously/alternatively known as "Can't Look In My Eyes"), before Travis and Kanye were cut. Pharaohx stated that "Fuck" was actually "Shit On You"; the evidence seems to suggest that he was wrong, but it's possible that both things are true, with "Fuck" developing into "Can't Look In My Eyes", and either the instrumental or Travis's vocals being used in some capacity on either "Bad Mood" (due to the heavy presence of the word "Fuck") or "Shit On You". Owl Pharaoh	God Level [Remaster] [prod. WondaGurl]	Posted on KTT by user YoungSho on the same day that the song dropped; contains a new, real intro, and some extra effects and never not found on the released version. YoungSho noted in several KTT posts that he was a friend of Travis and had leaked a couple of other things in the past, so it's possibly just a leak that he wanted some clout for; he claimed to have made it, but he would've needed access to the stems for it so it's likely legitimate. Travis himself tweeted that he was going to re-release the song after being unhappy with the mix that made the XXL Freshman tape, but he never did - this could be the version that he wanted to drop.	2:30		May 1, 2013	Full - HQ	Travis Tweet (Screenshot)   SoundCloud (Screenshot)	YouTube (Screenshot)
Owl Pharaoh	God Level [Uncut Version] [prod. WondaGurl]	OG Filename: XXL TRAVIS - ROUGHMIX NAB Uncut version; has the same intro as the remastered version, and the instrumental runs for two more minutes after the vocals end, developing into a drop towards the end of the track. Possibly the version that Travis intended to drop. Leaked April 6, 2024.	4:45		Apr 6, 2024	Full - HQ		YouTube (Screenshot)
Owl Pharaoh	Gold 88 [V1] [prod. THC & Travis Scott]	Unfinished scrap that eventually developed into "Old English". Leaked by Fitz on KTT on June 1, 2013, after he was sold a pack of early Owl Pharaoh tracks by Pharaohx.	2:48		Jun 1, 2013	Full - HQ		YouTube (Screenshot)
Owl Pharaoh	Gold 88 [V2] (feat. Pusha T) [prod. THC & Travis Scott]	Later version featuring Pusha T that appeared on the August 2012 tracklist. Owl Pharaoh	Hell of a Night [Demo 1] [prod. DJ Dahi & Rakhi]	In a now-deleted tweet (that is probably completely lost), Travis stated that he recorded a longer version of the first part of the song, but he wasn't confident that it was good.				N/A	Second Hand Memories (Screenshot)

Owl Pharaoh	Hero [prod. Travis Scott]	According to info from LS and a tweet from Travis in September 2011, this song was to feature on a very early version of Owl Pharaoh. An instrumental supposedly produced by Travis leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman. LS stated that the song was supposed to sample "Maniac" by Kid Cudi; it's not known if a version with the sample exists. Owl Pharaoh	Home (feat. Roscoe Dash) [prod. Travis Scott]	Remake of an old OG Chesi song created in November 2011 that featured ASAP Ferg, produced by Travis; Travis was accused of stealing the instrumental by Shane Morris (his old manager) and a KTT member that knew Travis personally, with the possible intention of Kanye. Said by Travis to be for Owl Pharaoh during his 2013 SXSW set and XXL Freshman interview, and Pharaohx later implied that it would be on the iTunes deluxe edition, but it never saw a release, most likely due to the possible legal issues surrounding it. The instrumental leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman; the actual track leaked in a four-pack on May 16, 2016, which pissed Travis off.	3:31		May 16, 2016	Full - HQ	OG Chesi Tweet (Screenshot)   Song (YouTube)   Song Origin Breakdown (Screenshot)   OG Chesi & ASAP Ferg Version (YouTube)	YouTube (Screenshot)
Owl Pharaoh	ILlMericA [prod. Travis Scott] (AKA: ILlMericA)	Leaked by OG Dreble, an ex-friend of Travis, on March 25, 2013, after KTT users tricked him into thinking they were Travis and annoyed him enough to leak it.	4:54		Mar 25, 2013	Full - HQ	KTT Post (Screenshot)	YouTube (Screenshot)
Owl Pharaoh	L.O.V.E. Interlude [prod. Travis Scott] (AKA: Love)	According to info from LS and a tweet from Travis in September 2011, this song was to feature some early versions of Owl Pharaoh (likely the song "Love"). It leaked in 2012 on YouTube seemingly out of the blue, labeled as being track 6 with the original Owl Pharaoh cover art embedded. Samples "I Got a Woman" by Ray Charles. Teased in a (now-deleted) video posted to The Classmates' Facebook page in 2011.	1:02		2012	Full - HQ	September 2011 Tracklist (Screenshot)	YouTube (Screenshot)

Owl Pharaoh	Naked [Demo 2] (add. Rick Rubin) [prod. J. Owl Pharaoh	Naked [Demo 3] (feat. Justin Vernon) [prod. J. Gramm, Travis Scott & Rick Rubin]	Later version with a rough version of the final first verse, and extra autotune on Justin Vernon's vocals. A snippet recorded in the studio was leaked by KTT user Hzd on July 14, 2013, but was partially lost for over a decade; Justin's part was widely circulated as part of an edit, but Travis's vocals were always missing. Owl Pharaoh	Night [V1]	Supposedly from 2011, per Pharaohx, though KTT user Lord Elm, who owned the song prior to it leaking, claimed that it was from summer 2012. Travis said in a now-deleted tweet that it was intended as a reference for another artist, presumably Kanye. Owl Pharaoh	Old English [Mike Dean Rework] (feat. King Chip & Ashton Travis) [prod. THC, Travis Scott & MIKE DEAN]	Reworked version from Mike Dean intended for Owl Pharaoh in early 2013, but was left off in the end. Travis's verse is also the first verse now. Performed with Mike at some point, possibly in mid-February 2013, but all links to it appear to be dead. The real thing hasn't leaked, but a quite accurate fan-made recreation was posted to KTT on February 27, 2013. The only remaining snippets online were posted after the recreation, so it's unknown what audio the recreation was based on. Owl Pharaoh	Quintana (Remix) [Demo 1] (feat. Quavo & Takeoff) [prod. Sak Pase, Travis Scott & Anthony Kilhoffer]	Early version without Gunplay or Fredo Santana. Features a verse from Chuck Inglish that was cut, some different lines from Travis, and an open verse. Also lacks the "Been Tired" tags. Titled "Thank You For Changing My Life" on an early Owl Pharaoh tracklist, per Pharaohx (assuming it's the same version). Leaked as "Changed My Life" on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman.	4:31		Jul 19, 2013	Full - HQ	February 2013 Tracklist (Screenshot)   Second Hand Pharaoh Confirmation (Screenshot)	YouTube (Screenshot)

Owl Pharaoh	Sin City [Demo 1] [prod. TBHs & Travis Scott]	Very early version of "Sin City" with Diana Gordon (f.k.a. Wynter Gordon) on the chorus and an extra verse from Travis, originally intended for an earlier version of Owl Pharaoh before Kanye took it for "Cruel Summer" (it doesn't appear on any known tracklists, but non-deleted tweets from Travis essentially confirmed that it was intended for it at some stage). A low-quality version was leaked on KTT on June 1, 2013, by someone who worked with Tony Loney (and presumably Travis). Pharaohx claimed to have it in HQ, but he purposefully left it out of the pack of demos that he sold to KTT user Fitz, as he anticipated that it would leak.	2:43		Jun 1, 2013	Full - LQ		YouTube (Screenshot)
Owl Pharaoh	Smith & Western [prod. Portishead & Travis Scott]	Very early song from 2011 that appears on a few tracklists. An instrumental that it's essentially a loop of "Biscuit" by Portishead leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman. Part of this instrumental was previously used in an ILROOTS promotion and was known as "Lilwood" on KTT; the audio is gone, but the original artwork from January 25, 2013, can still be accessed, with Travis being credited for the music. Tossed by Travis on April 29, 2013, via Vine; another (deleted) Vine posted by Tony Loney showed that TNGHT were in the studio at the time, likely meaning they produced it. A Kanye West feature was rumored because of a tweet from Travis, but the tweet happened before the remix was rumored as Travis was at his house the night before the snippet was posted, but this was pure speculation, and Travis later said (possibly sometime in 2014) that they hadn't worked together. Owl Pharaoh	Untitled Album [Project   V1]	While it wasn't officially announced until later, Travis was openly working on a studio album alongside 'Owl Pharaoh'; Pharaohxx said that was originally meant to release in September 2013. Travis stated that the instrumental for Jay-Z's "Somewhereinamerica" was intended for the project, and he also said that he wanted to put "Can't Look In My Eyes" on it after Cudi initially scrapped it. According to Pharaohxx, "Armageddon" was also being saved for the album. The project became Travis's main focus after the iTunes deluxe edition of 'Owl Pharaoh' was scrapped (see "V2"). Owl Pharaoh	Kanye West - I'm In It (Demo) (feat. Travis Scott)	Rumoured early version of the "Yeetus" track. Travis might have at least partially reused his verse on "Inashe's "Vulnerable"; the subject matter matches with multiple references to Ye, and the vocal effects sound like he fit "I'm In It". Owl Pharaoh	Stadium Red [prod. Duke Dinero & The Superiors]	Song of unconfirmed nature recorded at Stadium Red in New York, supposedly labelled as being part of 'Owl Pharaoh' at some stage. KTT user William made a post on February 24, 2015, stating that they had found the session while at the studio, claiming that it was a mumble reference with a "hard" beat. William then bounced it, and the file he posted contained adlibs from Travis, over the instrumental for what became "No Way Out" by Chinx. It now appears to be lost so it's hard to confirm its legitimacy; William's original comments about it being a mumble demo conflicts with what he leaked, but he may have only bounced the adlibs on purpose. Another sk8pup claimed in the thread that William would be facing legal action as a result, so that might make it more likely to be real. (NOTE: if you know anything about this, please contact an editor.)				Unconfirmed	KTT Posts (Screenshot)	
Owl Pharaoh	Very Wild Night [prod. WondaGurl & xxman]]	Instrumental leaked by KTT user xxman on July 11, 2013; finished version of the "God Level" beat. Unconfirmed as it's a strange case; xxman did the production himself, but he is known to have worked with Travis to some (very minor) extent. xxman claimed that both LS and Travis himself confirmed that it's real, but the proof is lost. Pharaohxx also supposedly said that it was real, but this is according to Carlos who was quoting an email from him. It could simply be an idea that Travis liked and never used, or xxman may have overstated its importance. Apparently mentioned on Twitter by Travis in November 2012, according to a KTT user, but it remains unconfirmed since the tweet wasn't saved or transcribed. Days Before Rodeo	Untitled Album [Project   V2] (AKA: Fuego, Rodeo)	During an interview on HOT97 on July 16, 2013, Travis officially announced that he was working on an album, set to be released in 2014. At the time of the announcement, Travis said that he had recently been working with Ciara, so any songs made with him are likely in contention. Pharoahe also said that the Rick Rubin rework of "Naked" would make the album. On October 31, 2013, a Rolling Stone article said that Travis was considering "Fuego" as a title, but "Rodeo" was eventually settled on (in March 2014 at the latest). The project continued to evolve until eventually all songs from this time had been cut. Days Before Rodeo	Kanye West - I Been Trill [V3] (feat. Travis Scott) [prod. Rodeo	Joyride [Demo 4] [prod. Hi-Boy & Allen Ritter]	"Completed" solo version later shown to Tinashe; features a new verse over the beat-switch, as well as Travis performing both of Tinashe's verses and the hook. Leaked July 29, 2024.	3:17		Jul 29, 2024	Full - HQ (Unofficial) [39]		KrakenFile
Rodeo	Tinashe - Joyride [Demo 5] (feat. Travis Scott) [prod. Hi-Boy & Allen Ritter]	Essentially complete version of the song with two Tinashe verses; the final release is pretty much the same thing, minus Travis's parts. Tinashe's extra vocals were recorded in April 2015, but it's unclear exactly when this version was made; the filename for the following demo could imply that they were bounced at the same time. Like the version that Tinashe intended to release, but she lost the stems before the song was released on September 7, 2016.	3:26		Sep 7, 2016	Full - HQ		KrakenFile
Rodeo	Joyride [Demo 6] (feat. Tinashe) [prod. Hi-Boy & Allen Ritter]	OG Filename: TRAVIS AND TINASHE - JOYRIDE MIX 1 ALT FIRST VERSE Pretty much identical to the previous version, but Travis now performs the first verse (taken from previous demos). It seems that both artists at this point believed that the song belonged to them; Tinashe noted in an interview with Billboard that she had told Travis she wanted it to be the title track for her album, but Travis clearly thought it was his as he wanted a new hook for it, and ultimately sent it to Rihanna a couple of months later (see Demo 7). Leaked December 9, 2019.	3:24	Apr 17, 2015	Dec 9, 2019	Full - HQ	Billboard Interview (Screenshot)	KrakenFile
Rodeo	Joyride [Demo 7] (feat. Tinashe) [prod. Hi-Boy & Allen Ritter]	OG Filename: Joyride To Send Version sent to Rihanna. Rodeo	Loovee [Demo] [prod. Pharrell Williams & WondaGur] (AKA: Love)	OG Filename: LOVE rough Early version likely recorded not long after the release of "DBR". A LQ snippet was posted to the Tumblr page Vortex in early September 2014. It's not known where it originated (possibly SnapChat). Seemingly had to be AI isolated for the "Utopia" version as the session was likely lost; WondaGur had to send Travis the song in 2021, which is why it's thought that she may have produced on it. Leaked December 25, 2022.	3:18		Dec 25, 2022	Full - HQ	Tumblr Snippet (YouTube)	KrakenFile
Rodeo	Man of My City [Demo] (feat. K CAMP) [prod. Metro Boomin & Southside] (AKA: Carnage, Man in My City)	Unfinished throwaway considered for "Rodeo" at an early stage. One of a few songs played at a Chicago meet-and-greet in March 2015, but only a snippet of the instrumental was recorded. Later finished with French Montana and Big Sean (and given to the former) during late-stage "Rodeo" sessions and became "Man of My City". Leaked as "Man in My City"; the name "Carnage" comes from KTT insider skrbup. Rumors of a Kanye West version/feature are almost certainly false due to the timeline. Rodeo	Maria I'm Drunk [Demo 1] (feat. Young Thug) [prod. Ging, Maneesh & Allen Ritter]	<b>OG Filename?: Travis Scott - Maria I'm Drunk_03</b> Early version previewed by Travis on Snapchat alongside "I Can Tell" on April 22, 2015. "Maria" features a slightly different instrumental and the extra vocals from later versions. Possibly the version referenced on the April 2015 song progress sheet (see "Tracklists") since it's from April 23. Noted to have different hooks on "Maria", one of which is rough. Rodeo	Maria I'm Drunk [Demo 2] (feat. Young Thug) [prod. Rodeo	Maria I'm Drunk [Demo 3] (feat. Young Thug & Justin Bieber) [prod. Ging, Maneesh & Allen Ritter]	<b>OG Filename: Travis Scott - MARIA IM_DRUNK_10</b> Early version that lacks Travis's verse on "Drunk" and has a rougher mix; "Maria" is now shortened and appears to have some extra effects at the end. Possibly the version referenced on the July 2015 song progress sheet (see "Tracklists"). Leaked July 11, 2022.	5:14		Jul 11, 2022	Full - HQ		<a href="#">KvakezFile</a>
Rodeo	Maria I'm Drunk [Demo 4] (feat. Young Thug & Justin Bieber) [prod. Ging, Maneesh & Allen Ritter]	<b>OG Filename: Travis Scott - Maria I'm Drunk_11</b> Near-complete version, but still quite rough. Travis still has rough autotune and a bit of his verse is missing, Bieber's verse is mixed poorly and has a different line, and some of Thug's background vocals sound like they might be a different take. Rodeo	My Ex Best Friend (feat. James Fauntleroy) [prod. Bo-i-da & Travis Scott] (AKA: 411, 713 / 411, 911 / 411) (My Ex Best Friend)	<b>OG Filename: Travis Scott - 411</b> Can be seen crossed out of a late-stage tracklist for "Rodeo"; it was prokilly cut due to the way that the beat was made, which made it near-impossible to get the multitracks for mixing (Travis chopped up a bounce of the original instrumental to create it). Originally titled "411", with a few other titles being in contention (see "Tracklists"), before "My Ex Best Friend" was presumably settled on. Travis posted a snippet on Snapchat on June 13, 2015. Rodeo	Never Catch Me [Demo 1] [prod. Sonny Digital, Allen Ritter & WondaGurl]	Presumably solo version previewed in the studio with Fredo. Rodeo	Never Catch Me [Demo 2] (feat. Tinashe) [prod. Sonny Digital, Allen Ritter & WondaGurl]	Early version with an unfinished second verse, an altered instrumental, and an extra chorus with Tinashe. Debuted on the "Rodeo" tour on March 12, 2015, prompting insider skrips to later state that it was intended to be the intro; this was no longer the case by May 2015 (at the latest), however. Rodeo	Never Catch Me [Demo 3] (feat. Tinashe) [prod. Rodeo	Never Catch Me [Demo 4] (feat. Tinashe) [prod. Sonny Digital, Allen Ritter, WondaGurl & Jordan Lewis]	<b>OG Filename: Never Catch Me_07_NEWEST</b> Later version that fills the open instrumental before the last hook with a rough verse. Rodeo	Never Catch Me [Demo 5] (feat. T.I. & Tinashe) [prod. Sonny Digital, Allen Ritter, WondaGurl & Jordan Lewis]	T.I. recorded two verses for the song (unclear if some narration was involved), but both went unused and they were probably never bounced. Referenced on the July 2015 song progress sheet (see "Tracklists").				N/A		
Rodeo	New Idea 1 (feat. Metro Boomin, Allen Ritter & Travis Scott)	<b>OG Filename?: METRO ALLEN TRAVIS NEW IDEA 1</b> Throwaway idea from the same session as "Wine and Hennessy", produced by Metro Boomin and Allen Ritter. Referred to as "Marletta" in the community but never actually given an official title, with the session files being titled "METRO ALLEN TRAVIS NEW IDEA 1". The full bounce is an hour long, and contains three separate freestyles from Travis; time inbetween these freestyles is spent working on the instrumental. The third freestyle from the session leaked June 28, 2015, with the other two remaining unreleased, revealing extra freestyle vocals. The unreleased version features Travis and Metro talking about Justin Bieber recording for "Drunk", Metro talking about working with 21 Savage, and Travis criticizing the sequencing of Meek Mill's "Dreams Worth More Than Money", among many other things.	59:12	Jun 30, 2015	May 26, 2024	Full - HQ (Unofficial) [42]	<a href="#">Unleashed Version (Discogs)</a> <a href="#">Unleashed Version (Discogs)</a>	<a href="#">KvakezFile</a>

Rodeo	Nightcrawler [Demo 4] (feat. Chief Keef) [prod. Rodeo	Wasted [Demo 10] (feat. King Krulle & Juicy J) [prod. Metro Boomin & Q-Tip]	Version featuring King Krulle; appeared on a late-stage tracklist for <i>Rodeo</i> . Likely conceived and scrapped very late, as the song was near completion with Juicy J and the Pimp C. sample before Krulle touched the song, and Travis confirmed to a fan sometime around July 3, 2015, that Krulle was on the album. It's likely that Juicy is still on this version, with Travis wanting Krulle to do a hook that was scrapped in favour of Pimp C. for whatever reason, but this is pure speculation. It's also possible that nothing was ever recorded by Krulle.				N/A	<a href="#">Tracklist (Screenshots)</a> <a href="#">KTT Post (Screenshots)</a>	
Rodeo*	What's Next (feat. Quentin Miller)	Supposedly recorded in 2014 (likely post-20B7), but has never been confirmed. Unfinished, with Travis mumbling in some places; speculation that Quentin's verse is a reference for Drake is likely untrue based on the lyrics. Rodeo	Whole Lots Changed [Demo 1] (feat. Yung Mazi) [prod. Hit-Boy]	Appears on the April 2015 tracklist; the notes seem to suggest that they were considering cutting Mazi's part to make room for a third verse.				N/A		
Rodeo	Whole Lots Changed [Demo 2] [prod. Hit-Boy]	Mazi was seemingly cut from the song shortly after; his name doesn't appear as a feature on the April 23, 2015 considerations sheet (see "Tracklists").				N/A		
Rodeo	Whole Lots Changed [Demo 3] (feat. Fredo Santana) [prod. Hit-Boy]	Fredo got on the song in May 2015; it was then in consideration for <i>Rodeo</i> until mid-July 2015. Probably identical to the released version.				N/A		
Rodeo	Wine and Hennessy (prod. Metro Boomin & Allen Ritter)	<b>OG Filename: WINE AND HENNESSY IDEA</b> Features Travis laying down reference vocals for about ten minutes over an evolving beat produced by Metro Boomin and Allen Ritter. Privately sold by Music Mafia and then previewed via an edited snippet under the name "All The Time"; it was labelled as featuring The Weeknd, but this was an intentional false claim to catch scammers. Sometimes shortened to "Hennessy" before the title was confirmed as "WINE AND HENNESSY IDEA" (with the misspelling). The song wasn't bounced, and Music Mafia didn't even attempt it, so it leaked without the vocal effects that it was intended to have on February 6, 2018. An inaccurate recreation surfaced in November 2020. Rodeo	Diddy - Best Friend [V1] (ref. Kevin Cossom) [prod. Boi-1da]	"My Ex Best Friend" was originally a Diddy song before it made its way to Travis. The first version was a reference track by Kevin Cossom, featuring him laying down the melody that James Fauntleroy later used.				N/A

Rodeo	Kanye West - All Your Fault [Demo] (feat. Travis Scott) [prod. Kanye West, OGWebbie, Nashtiem Myrick, Mano & Noah Gozales] (AKA: Tom Cruise)	Supposed early version of Big Sean's "All Your Fault" that was made for "Yeetus II", possibly during sessions in Mexico in 2014. Apparently features "half a verse and a hook" from Travis; a solo Kanye version has leaked, but this version currently remains a rumour pushed by insider skrbup.				Unconfirmed	<a href="#">4kBoo Post (Screenshot)</a>	
Rodeo	Apple Pie [Demo] (ref. Wale) [prod. Terrace Martin, 1500 or Nothin', Travis Scott & MIKE DEAN]	Every other writer for "Rodeo" is confirmed to have recorded a reference track, so it's safe to assume that Wale recorded one for 'Apple Pie', though currently unconfirmed.				Unconfirmed		
Rodeo	Peewee Longway - First Quarter (feat. Travis Scott)	Snippet posted on or around May 27, 2015, supposedly by Travis, though he might not even be on the song. The title "First Quarter '15" came from a misunderstanding in a KTT thread collating all of GOODMUSICINSIDER's claims; he never actually called it his favourite song off "Rodeo", but was instead referencing when "Rodeo" was supposed to drop.				Unconfirmed (Snippet - LQ)	<a href="#">YouTube</a>	
Rodeo	Flicka Da Wrist (Remix) (with Chedda Da Connect) [prod. Fredo[em]]	Announced by Travis in a now-deleted tweet in early 2015. Unconfirmed if it was ever recorded.				Unconfirmed	<a href="#">Tweet Transcription (Screenshot)</a>	
Rodeo	Fuego [prod. Metro Boomin & G Koop]	In October 2014, a snippet of Metro and Travis listening to a beat surfaced. This beat would later become the intro to Pusha T's "King Push - Darkest Before Dawn: The Prelude", but it was originally intended for Travis, titled "Fuego". It's thought, however, that Travis didn't record any vocals.				Unrecorded (Snippet - HQ)	<a href="#">Original Instagram Post (Archive)</a>	Pending
Rodeo	Kanye West - Grave (feat. Travis Scott)	Appears on The Weeknd's playlist in a Beats 1 collaborative commercial debuted at the MTV VMAs on August 30, 2015. Realistically, this makes no sense; the Kanye tracker previously speculated that this was the last version before it was given to Travis, but he clearly had the song long before then. Even if we assume it was made much earlier, it's still much longer than any other version, which only adds to the confusion. Kanye also didn't finish his vocals until very late in the "Rodeo" sessions, so it probably can't be from earlier. A censored snippet can be heard in the commercial, but it essentially sounds like the released version.				Unconfirmed (Snippet - HQ)	<a href="#">Fileshare (Screenshot)</a>	<a href="#">Comment (YouTube)</a>
Rodeo	Migo Gang (with OG Maco & Migos)	Made-up title; snippet posted by Quavo to Instagram on December 28, 2014. The snippet doesn't actually feature any vocals from Travis so it's unconfirmed, but he's tagged in the post.				Unconfirmed (Snippet - LQ)	<a href="#">Instagram Post</a>	
Rodeo	French Montana - Moses [Demo] (feat. Chris Brown, Quavo & Travis Scott) [prod. Southside, TMS, DJ Spinz & K-Major]	Supposed early version with a full verse from Travis. Mentioned by the seller of the Victoria Monet collaboration from 2012, but no evidence has surfaced as of yet.				Rumoured / Unconfirmed		
Rodeo	Pray 4 Love [Demo 3] (feat. Yung Lean & The Weeknd) [prod. Illangelo, The Weeknd & Ben Billions]	It's possible that a verse was made out of Lean's vocals from Demo 2 before he was cut, but it's unconfirmed. It's still unclear if "Pray 4 Love" is even the song that Lean was referring to, but it's the best guess currently.				Unconfirmed	<a href="#">Seattle Times Article (Screenshot)</a>	
Rodeo	Quintana, Pt. 3	Referenced by KTT insider skrbup in early 2015 as being turned on "Rodeo". Though skrbup was proven to be a part of Travis's crew at the time and some of the info he gave turned out to be true, we've seen no further evidence of the existence of a Pt. 3, so it could easily have been a joke. Having said that, Travis doesn't say "quintana" at all during Pt. 2, so it could be a song that we know about with its original title.				Rumoured	<a href="#">Second Hand Music (Screenshot)</a>	
<b>Birds In The Trap Sing McKnight (2015 - 2016)</b>								
Era begins after the release of "Rodeo", and ends when the project was released on September 2, 2016. Seen by Travis as a stepping-stone between "Rodeo" and "Astroworld", the latter of which he announced before this project had even been released. Tentatively titled "Tina" for a little while.

Birds	All I Know [Demo] (feat. Kamalyah) [prod. Mustard] (AKA: All I Know Is This)	Leftover from "Birds" according to a tentative tracklist; it was indirectly mentioned in an early July 2016 interview by Kamalyah. Seemingly scrapped very late as Travis said on July 18 and August 12 that Kamalyah was meant to be on the album. Sold by Music Mafia and leaked October 8, 2016; Kamalyah then dropped a different version (new verse and no Mustard tag) two days later in response to the leak.	2:45		Oct 8, 2018	Full - HQ	<a href="#">Kamalyah Tweet (Screenshot)</a> <a href="#">JOK KPHL Interview (Vina)</a>	<a href="#">KanyeFile</a>
Birds	Belbs In The Trap [Demo] (feat. NAV) [prod. NAV] (AKA: She Wants More)	Version teased on June 22, 2016, the day that Travis recorded on it. Birds	Easy [V1]	Very rough version previewed sometime in late 2015 (December 30 is the furthest I can trace it (and that source is now gone), but it was most likely posted a few days earlier).				Snippet - LQ	<a href="#">Vina</a>	
Birds	Easy [V2] (ref. feat. Rook Monroe)	Previewed by James Harden on January 16, 2017, and Travis later played it on Snapchat in May 2017, though it was likely recorded around "ANTI" sessions sometime in late 2015 to early 2016 based on the Rook Monroe feature. Multiple high-quality snippets leaked over the course of 2017, until an edited version with an extra chorus (~3:20) was eventually leaked by Music Mafia on December 25, 2017 (the real, unedited version (~2:49) has since been made available). Rook Monroe is primarily a writer and was possibly laying down a reference verse. Birds*	Ecstasy (with The-Dream)	OG File Name: <b>[?] ECSTASY super ruff</b> Rough demo; The-Dream said on Instagram that he forgot that it even existed so it could be very old, but it sounds post-"Rodeo"; it was likely made around the same "ANTI" sessions that produced "Woo", but it doesn't appear to be a reference for Rihanna. Birds	Left Cheek Right Cheek [V1] (feat. Quentin Miller; add. Jeremiah) [prod. Vinytz & Allen Ritter] (AKA: LCRK)	Throwaway that was worked on for several years. First previewed in November 2015, it later got played alongside "Forgive Me" and "Rata" in a club in February 2016. The track was temporarily given to DJ Spunking and reworked, before Travis took it back and performed it live for the final time in January 2017. Vinytz later said in 2018 that he planned to "finish" it (see "V2"). Has a short instrumental bridge from Jeremiah, who may have originally had his own version of the track before Travis created this one (see "Try Me"). Birds	Pipeline Good [V1] (feat. Quentin Miller)	First mentioned in an interview by Travis with Clipse in October 2015. Travis stated that he'd just given it a new instrumental, which could be the instrumental used for 'V2'. Another version had a snippet leak through Music Mafia in mid-2017. This version was teased on Instagram Live by Che Pope, on October 22, 2020. Birds*	Kanye West - Champions [Demo 2] (feat. Travis Scott & Co.) [prod. Low Pros & Menace]	Solo version previewed by Menace on November 15, 2017; snippets are lost. Exact year is unclear but it was likely Kanye's song at this point. A fake version was leaked January 30, 2018, by a suspected Logan Smitherman (RP) alt. He said via DM that it was produced by Mike Dean, Mendacio, Diplo, and Charlie Heat; he also stated that it started out as a Travis + Dido song, which is definitely false. Seems to be real to some degree, as it has a realistic beat similar to Demo 1 and has the full hook vocals without sounding like it was a DIY acapella, but the quality and cuts make it sound fake, and he was known to have the stems/potentially the project files. He also claimed to have "cleaned it up" so, even if this is real, it's still edited. Birds	CyHi The Prynce - I'm Fine [Demo 2] (ref. Travis Scott)	<b>OG Filename: im fine chy hi</b> 'Completed' version with Travis's hook and some harmonising, as well as excessive reverb. Leaked May 22, 2019. A version without autotune leaked first, but it was simply bounced incorrectly and isn't an intended/separate version of the song, a fully accurate version leaked January 24, 2023.	3:44	Aug 7, 2016	O: May 22, 2019 C: Jan 24, 2023	Full - HQ (Unofficial)	<a href="#">Recording Date Confirmation: KanyeFile</a>	<a href="#">Flowbase</a>
Birds*	CyHi The Prynce - I'm Fine [Demo 3] (ref. Travis Scott)	Alternate version that Music Mafia attempted to auction. Uses a different instrumental that sounds closer to the final release, and contains Travis's outro vocals; the rest of his vocals are the same. A second snippet, presumably of this version, was posted on UnreleasedSounds in 2022. Birds	Alicia Keys - In Common (Remix) [Demo] (ref. Travis Scott) [prod. Illangelo, Travis Scott & MIKE DEAN]	Dubbed "Birdflu" by some fans, this snippet from the "La Flame" mini documentary features Travis recording rough reference vocals over the instrumental from his part Alicia Keys' "In Common" remix.				Snippet - LQ	<a href="#">La Flame Documentary: YouTube</a>	<a href="#">KanyeFile</a>
Birds	Rihanna - Joyride [Demo 8] (ref. Travis Scott & Tinashe) [prod. Hi-Boy & Allen Ritter]	Appeared on a 2015 whiteboard tracklist for ANTI. Tinashe lost the song to Rihanna for a few years before she was able to buy it back, after Travis gave it to Rihanna, but it seems that she never actually recorded for it. The version shown to her as a reference is similar to previous demos, but has different effects on the background vocals before the beat-swaps, and the mixing makes Travis's backing vocals more pronounced.	3:22	Oct 13, 2015		N/A	<a href="#">ANTI Whiteboard (Screenshots)</a>	<a href="#">KanyeFile</a>
Birds	Disclosure - Magnets (Remix) (feat. Lorde & Travis Scott) [prod. Disclosure & WondaGurl]	Scrapped remix with an unfinished verse from Travis and new production from WondaGurl. Played on the Beats 1 show "Souljection" in February 2016, where WondaGurl was a guest for a short interview (Travis's verse wasn't played). The song was dropped on (and soon deleted from) WondaGurl's SoundCloud sometime later without Travis's verse, as he never finished it. Sold on The Source and leaked July 5, 2021.	2:20		Jul 5, 2021	Full - HQ	<a href="#">Souljection Segment (Screenshots)</a> <a href="#">SoundCloud Release (YouTube)</a>	<a href="#">KanyeFile</a>
Birds	Juicy J - No English [Demo 2] (feat. Travis Scott) [prod. Lex Luger, TM88 & DJ Spinz]	<b>OG Filename: No English NEW VOICES 4</b> Seems to have a slower instrumental that's similar to the earlier demo, with a completely new first verse and altered second verse from Juicy J. Birds	DJ Snake - Oh Me Oh My [Demo 1] (feat. Travis Scott) [prod. DJ Snake] (AKA: Oh Me)	<b>OG Filename: Travis Scott - Oh Me</b> Early solo version, originally titled "Oh Me", from January 2016. Features some different production, particularly towards the end, and Travis performs the chorus. A fake version with an edited bridge leaked July 20, 2019; the original, undated file leaked February 21, 2023. Was likely always DJ Snake's song, as he doesn't seem to produce for other artists' albums.	4:24	Jan 7, 2016	O: Jul 30, 2019 C: Feb 21, 2023	Full - HQ	<a href="#">KanyeFile</a>	<a href="#">KanyeFile</a>
Birds	DJ Snake - Oh Me Oh My [Demo 2] (feat. Travis Scott, Quavo & GASHI) [prod. DJ Snake, MIKE DEAN & Louis Bell]	Early version heard in the background of an Instagram post from Snop Dogg. Birds	Mustard - Party Till [Demo] (prod. DJ Snake)	Throwaway that leaked in a four-pack on May 16, 2016. Mustard said in a tweet that he wished it didn't leak as he "didn't want people to know [he] could sing". Likely the same version as the "Whole Lotta Lovin'", but Travis kept recording and released by August Alsina in 2020, with the same instrumental and hook.	3:35		May 16, 2016	Full - HQ	<a href="#">Mustard Tweet (Screenshots)</a>	<a href="#">KanyeFile</a>

Birds	Ty Dolla Sign - Regular [V1] (feat. MadeinTYO & Travis Scott)	<b>OG Filename: Regular TS_Ruff 1</b> Rough and unfinished throwaway. A version without Travis leaked on September 19, 2018; he recorded his vocals in February 2016 and appears to be trying to create a hook. This early version with no reverb was sold by Music Mafia, and was known about before the Travis version. Birds	Jeremih - Try Me (feat. Travis Scott) [prod. Vinyz, Allen Ritter & Hitmaka] (AKA: Left Cheek)	<b>OG Filename: TRY ME 9.8.16 - HITMAKA JEREMIH</b> Supposedly first previewed by Jeremih in April 2015, before it became "Left Cheek Right Cheek" (I can't find confirmation of this; the info comes from someone who nearly bought both versions that Music Mafia in 2017, but their credibility is questionable); this version of the track was put together later and dated September 8, 2016. Given to DJ Spinz, who was meant to drop it on "For The Culture" under the name "Left Cheek", but Travis kept delaying it to continue working on it. It was then meant to be dropped on iVAW Radio, but Travis delayed it again and eventually took the song back. Samples a scene from the 1998 film "Playa Club", presumably added by Hitmaka. Picture-evidence suggests it was made for a Thugger project, but the leak likely caused it to be scrapped. Unconfirmed / Unrecorded / Rumoured	(Things that might not exist for one reason or another)							
Birds	Kanye West - Face Down (feat. Travis Scott) [prod. Keyon Christ & Metro Boomin]	Keyon Christ released an extended version of the instrumental on August 12, 2019; that featured an adlib from Travis, which could imply that he was on a version of it. Unconfirmed, but he was present for "Cruel Winter" sessions around the time that the song was created.				Rumoured	<a href="#">"Kanye West" (Kevin Behar, "SoundCloud")</a>	
Birds	Goosebumps (Demo) (ref. Sauce Walka) [prod. Carlo, Cubeatz & Yex]	In a 2018 rant directed at Travis, Sauce Walka claimed to have written the verse for "Goosebumps" and that Travis "stole" it, so a reference track might exist, or at least a Sauce Walka version of the song. It's unconfirmed, however, as it feels like a Travis-esque verse, and Travis said that he wrote the song in his bedroom during "one of the darkest times in [his] life".				Unconfirmed	<a href="#">Gothic Article</a> <a href="#">Sauce Walka Video (Instagram)</a>	
Birds	Outside [Demo] [prod. Murda Beatz, Cubeatz, OZ & MIKE DEAN]	Presumably exists, as Travis didn't announce 21 Savage to be a feature on the album on WAV Radio on August 12, 2016, yet the song featured on an early tracklist, so it may have been solo at the time. 21 Savage may have been added to the song in late August, during the session in which "Myles" was teased. It's also possible, albeit unlikely, that this is where the "special verse" from the announced remix originated from.				Unconfirmed		
Birds	Lotto Savage - Trapped It Out (Remix) (feat. Travis Scott) [prod. Sonny Digital]	The idea of a remix was teased on Twitter on March 23, 2016, but it's not known if Travis ever recorded anything.				Unconfirmed / Unrecorded	<a href="#">Tweet (Screenshot)</a>

Birds	PARTYNEXTDOOR - [Unknown] (feat. Travis Scott & Jeremih)	Snippet that surfaced in 2016. It was never confirmed if Travis is on the track or if he was just in the studio at the time; it sounds like it could be him shouting "yeah" at the end, but it cuts off too soon to tell for certain. May also feature Jeremih, but that's speculative too.				Unconfirmed (Snippet - LQ)	<a href="#">Vln</a>

Travis and Quavo can also be seen listening to the song in some promotional material for <i>"The Adventures of Huncho Jack"</i> . Murda suggested in early 2018 that it could appear on "Keep God First 2", but the project appears to have been shelved. Huncho Jack, Jack Huncho	<b>Smell of Money</b> (with Quavo) [prod. Cardo] (AKA: Smell of Mula)	Unfinished collaboration produced by Cards. First heard via a snippet leaked in August 2017. An edit missing a few seconds off the intro leaked April 7, 2018; it leaked unedited a few months later. Recorded in late 2016, possibly around the same time as "RERUN". Sold by Music Mafia as Quavo featuring Travis. Title unconfirmed; it was advertised by a pre-TR mix as "Smell of Mula" before circulating as "Smell of Money".	4:35		O: Apr 7, 2018 C: Jul 7, 2018	Full - HQ		<a href="#">KvakeFiles</a>

Huncho Jack, Jack Huncho	<b>For / Pre-Travis</b> Yung Lean song, presumably produced by Gud based on his credit, that was sampled into the intro of "Dubai Shit". The pair weren't initially credited and Gud implied on Twitter that they weren't paid either; Gud put the blame on the labels rather than Travis or Quavo. 2/3 of the relevant tweets have since been deleted. <b>Astroworld (2016 - 2018)</b>								
Era would begin when it was announced in May 2016; however, it begins after the release of "Birds In The Trap Sing Sick" on the track for the sake of convenience (we don't know of any definite 2016 Astroworld songs), and ends after the project was released on August 3, 2018.								
Astroworld	<b>5% Tint [Demo 1]</b> [prod. FK1 1st]	In an interview with DJBooth, producer FK1 1st said that "5% Tint" was started on January 4 or 5, 2016, in the same session that "RIP Screw" was created. It's unclear exactly what was done.		Jan 4/5, 2016		N/A		
Astroworld	<b>5% Tint [Demo 2]</b> [prod. FK1 1st]	In an interview with The FADER, Mike Dean stated that "5% Tint" was basically finished before he added the outro, which was his first production contribution to the album.				N/A		<a href="#">The FADER Interview (Screenshots)</a>
Astroworld	<b>5% Tint [Demo 3]</b> [prod. FK1 1st] (AKA: Thru My Window)	Early version, titled "Thru My Window", that is missing a verse according to a scene from "Look Mom I Can Fly".				N/A		<a href="#">Look Mom I Can Fly Scene (Screenshots)</a>
Astroworld	<b>5% Tint [Demo 4]</b> [prod. FK1 1st & MIKE DEAN]	Snippet that leaked not long before the album dropped; said to have originated from a relative of someone who was given the song for sample clearance reasons, as they were involved in the creation of the Goodie Mob song that it samples. Most likely identical to the final release, but unlikely to be the final mix.				Snippet - LQ		<a href="#">KvakeFiles</a>
Astroworld	<b>A Man [Demo]</b> [prod. Southside, Max Levin & Jake One] (AKA: Amen)	Early version previewed at the same time as "Laptop" on March 13, 2017. Lacks adlibs; other differences are unknown.				Snippet - LQ		<a href="#">Snippet (Instagram)</a> <a href="#">KvakeFiles</a>
Astroworld	<b>After Party [Demo 1]</b> (ref. Don Toliver) (ref. Sonny Digital, Cubeatz & Nils)	In a deconstruction video with Mix with the Masters, Sonny Digital said that "After Party" was the first song that he and Don recorded together on Day 4 of the Hawaii sessions; he also said that since the Hawaii sessions were for Travis, the song was initially created with him in mind, meaning this version may have unused ideas that were scrapped, and can be considered a reference. Sonny hesitated to call Travis's version of the song the original, further suggesting that this version may be quite different.				N/A		<a href="#">Sonny Digital Deconstructed (Screenshots)</a>
Astroworld	<b>After Party [Demo 2]</b> (feat. Don Toliver) (ref. Sonny Digital, Cubeatz, Nils & Travis Scott)	Recorded at some point during or after Day 4 of the Hawaii sessions. Astroworld	<b>Houstonification [Demo 1]</b> [prod. Sevvn Thomas & Wallis Lane] (AKA: Vacation)	Early version that leaked under the name "Vacation" on June 25, 2018. Features a minor lyric difference in the form of "Californication" rather than "Houstonification" and has a longer chorus (ends with "We gon' go NFL, we gon' interupt"). Judging from the Hawaii scenes in "Look Mom I Can Fly", it's likely that the track had an open verse which was possibly edited out of the leaked audio. Astroworld	<b>Houstonification [Demo 2]</b> [prod. Sevvn Thomas & Wallis Lane]	Near-complete with a different mix, some missing adlibs, and no effects when the verses transition. Music Mafia tried to sell it shortly before the release of the album. Leaked August 22, 2019.	3:39		Aug 22, 2019	Full - HQ		<a href="#">KvakeFiles</a>
Astroworld	<b>In My Head [V1]</b> (with Swae Lee & Justice) [prod. Justice]	Throwaway that was cut from the "Spider-Man: Into the Spider-Verse" OST, possibly due to how explicit it is. CyHi's reference verse from "V2" was clearly based on Travis's mumble verse from "V3", so there is almost certainly an early version of the song with Travis freestyling; might also feature his finished vocals from "V2".				N/A		
Astroworld	<b>In My Head [V2]</b> (ref. CyHi The Prynce, with Swae Lee & Justice) [prod. Justice]	Version with reference vocals from CyHi, attempting to help Travis create a verse and finish another. The beat is much more minimalist on this version; also doesn't feature Swae's verse. Leaked August 13, 2019.	1:30		Aug 13, 2019	Full - HQ		<a href="#">KvakeFiles</a>
Astroworld	<b>In My Head [V3]</b> (with Swae Lee & Justice) [prod. Justice]	<b>Partial OG Filename: INMYHEAD030</b> Later version with more developed production and more vocals. Travis's first verse is unfinished, but the song is otherwise complete; it's likely that the verse was left in as a placeholder, as his second verse uses the same flow and is clearly based on Travis's mumble verse. Credited as "Travis Scott, Justice, Swae Lee".	3:15	Mar 30, 2018	Aug 9, 2019	Full - HQ		<a href="#">KvakeFiles</a>
Astroworld	<b>In My Head [V4]</b> (with Swae Lee & Justice) [prod. Justice]	<b>OG Filename: 14 In My Head Rough Mix - Travis Scott Justice Swae Lee</b> Track 14 from a rough copy of the "Spider-Man: Into the Spider-Verse" OST. Has a better mix, extra adlibs on Swae's part, and is missing Travis's mumble verse. Credited as "Travis Scott, Justice, Swae Lee".	2:48			N/A		
Astroworld	<b>Laptop</b> [prod. Ging]	Previewed once by Travis, alongside "A Man", on March 13, 2017. Unofficially referred to as "Laptop" since it initially appeared to be a remix of the Johnny Yukon song released roughly a month earlier on February 17, but Travis's version appears to use the original instrumental. If the song is a remix then it's strange that it uses the original beat; it's more likely to be a track completely unrelated to "Laptop" that Travis made and previewed without knowing that "Laptop" had released.				Snippet - LQ		<a href="#">Snippet (Instagram)</a> <a href="#">KvakeFiles</a>
Astroworld	<b>Last Day</b> [prod. Murda Beatz & Cubeatz]	Rough snippet previewed in early 2017; the beat was later used by Bebe Rexha for "That's It".				Snippet - LQ		<a href="#">Snippet (Instagram)</a> <a href="#">KvakeFiles</a>
Astroworld	<b>Left Cheek Right Cheek [V2]</b> (feat. Quentin Miller, add. Jeremiah) [prod. Vinnz & Allen Ritter] (AKA: LCRRC)	Reworked version teased by Vinnz in February 2018; he posted on his Instagram story that he wanted to finish it. Later tweeted about by Vinnz in May, but nothing else came of it. Likely to only have a different mix, but Quentin Miller may also have been cut; it's unclear if Travis worked on it further around the time that Vinnz tweeted, but it's unlikely that he had any additional vocals on the version that was previewed.				Snippet - LQ		<a href="#">Vinnz Tweet (Screenshots)</a> <a href="#">YouTube</a>
Astroworld	<b>License</b> (add. Toro y Moi) [prod. Buddah Bless]	Unfinished throwaway from 2017; the same lyrics loop throughout. Unconfirmed, but it sounds as though Toro y Moi is the one saying "9999" and "how is not this time". Said by the seller to be produced by Southside, but this is unconfirmed and seems unlikely; if it was, it was almost certainly not solo-produced. Astroworld	<b>Love It Mane</b> [prod. Charlie Heat]	Throwaway from 2017 sold by Private. Has finished lyrics but also an open verse. Astroworld	<b>Might Go</b> [prod. OZ & Foreign Teck]	Previewed by Travis on Snapchat on January 9, 2017. Producer OZ has mentioned a few times on Instagram Live that he wants it to release.				Snippet - LQ		<a href="#">Snippet (Instagram)</a> <a href="#">KvakeFiles</a>
Astroworld	<b>NC-17 [Demo 1]</b> (feat. 21 Savage) [prod. Bol-1da, Cubeatz & Allen Ritter] (AKA: Same Sex)	Early version played on Instagram Live by Ogilzory Los, and later at a club. Astroworld	<b>NC-17 [Demo 2]</b> (feat. 21 Savage) [prod. Bol-1da, Cubeatz & Allen Ritter] (AKA: Same Sex)	Near-complete version. Acapella leaked June 28, 2024. Has extra autotune on 21's verse, and might be missing the final chorus (unclear if this is intentional or just missing from the acapella).				Acapella - HQ		<a href="#">TikTok</a>
Astroworld	<b>Need the Gas</b> [prod. Murda Beatz]	Very rough demo; title is made up. Previewed once (seemingly on Snapchat by Murda Beatz) in late 2016, but was presumably never finished.				Snippet - LQ		<a href="#">Snippet (Instagram)</a> <a href="#">KvakeFiles</a>

Astroworld	<b>No Bystanders [Demo 1]</b> (feat. Juice WRLD & Sheek Wes) [prod. WondaGurl, Gezlin & MIKE DEAN]	Heard in the "Look Mom I Can Fly" documentary. Astroworld	<b>No Bystanders [Demo 2]</b> (feat. Juice WRLD & Sheek Wes) [prod. WondaGurl, Gezlin & MIKE DEAN]	Slightly more complete version of the above demo. Astroworld	Sicko Mode [Demo 4 - Clearance] (feat. Drake) [prod. Hit-Boy, Rogét Chahayed & OZ]	Sample clearance demo. Astroworld	Stargazing [Demo 1] [prod. Sonny Digital, B. Wheezy & B Korn]	Early version previewed by Travis multiple times before release, more or less in full. Lacks the echos and effects found on the final and has an early mix with the popping sound. On WAV Radio the day after "Astroworld" dropped, Travis and Chase B said that the second part of the song had always existed and they had to cut the song off to not spoil it. Astroworld	Stop Trying To Be God [Video Mix] [Demo] (feat. James Blake, Philip Bailey & Stevie Wonder) (prod. Travis Scott, 3 Beatz, MIKE DEAN & Cubeatz)	Version that lacks Kid Cudi, with extra vocals from Philip Bailey in his place. Previously went up for groupbuy alongside a storyboard for the music video in September 2019. It's an early version of the audio used for the music video, so, like the final version, James Blake's part is cut short and it ends differently.				Snippet - HQ		KrakonFile

Astroworld	Juice WRLD - Abyss (prod. WondCuri & Gezin)	<b>OG Filename: Juice wrld - Abyss v1.3 (joga ast 1)</b> Open-verse Juice WRLD throwaway that was turned into "No Dystanders"; Travis was apparently played the song by an engineer and decided to use it. The beat was kept and tweaked, and its chorus was turned into the bridge. Recorded on June 6, 2018, not long before the Hawaii sessions. Astroworld	Don Toliver - Can't Say [Demo] [prod. WondaGur & London Cyr]	Don noted in an interview that "Can't Say" was his track first. Probably doesn't have any additional vocals.				N/A	<a href="#">Complex Interview (Screenshots)</a>	
Astroworld	Schoolboy Q - Choptix [Demo 1] (feat. Kendrick Lamar) [prod. DJ Dahi] (AKA: Chop Stix)	OG Filename: <b>Chop Stix ROUGH - Kendrick schoolboy version 2</b> Early version with a different second verse and a hook performed by Kendrick. This might not necessarily have been a reference intended for Travis, but it's included here since he used it. Astroworld	Schoolboy Q - Choptix [Demo 2] (feat. Kendrick Lamar & DJ Dahi) [prod. Astroworld*	777 - Gone Girl	OG Filename: <b>GONE GIRL-TRAVIS SCOTT FT. JUICE WRLD</b> Reference track performed by an unknown artist; intended for Travis, with an open intended for Juice WRLD. Nothing is known about this song other than that it was recorded at Electric Feel. It's not known if Travis ever even heard it, but it's very unlikely that he was interested in using it, if so. Astroworld*	PARTYNEXTDOOR - Keeper	Previously available on LEAKED.CX, though no snippet was posted - one later leaked on August 3, 2022. Supposedly a reference for Travis, but it's unconfirmed.				Snippet - HQ	<a href="#">KwakenFile</a>	
Astroworld	Baby Keem - Nighmares (prod. Nik Dean & Baby Keem)	OG Filename: <b>01 NIGHTMARES TRAVIS 1</b> Made sometime in 2018, possibly during sessions for "The Sound of Bad Habits". Advertised as being produced by Travis, but he didn't touch the beat; it could be an unused reference track or (more likely) a song that Keem wanted Travis on. Astroworld	SwaVay - Till Further Notice [Demo] (feat. James Blake) [prod. Metro Boomin & James Blake]	Early version from 2018, before Travis worked on it. Astroworld	The Weeknd - Wake Up [Demo] [prod. Ging, Sevn Thomas & Wallis Lane] (AKA: Don't Wanna Wake Up)	Producer Sevn Thomas noted in an interview that the track belonged to The Weeknd first.				N/A	<a href="#">Complex Article (Screenshots)</a>

Astroworld	Drugs You Should Try It, Pt. 2 (ref. FK1 1st)	During the Hawaii sessions, FK1 1st was on Instagram Live and, in response to a comment, said "Drugs You Should Try It"; yeah, we making part 2 of that song". It's possible that 1st was simply referring to what they were making at the time as being a spiritual successor to "DYSTI", but in an interview with Complex, he doubled down and said "it's coming". Remains unconfirmed unless more information surfaces.				Unconfirmed	<a href="#">Complex Article (Screenshots)</a>	
Astroworld	Major Lazer - Know No Better [Demo 1] (ref. Starrah) [prod. Diplo]	Version that presumably exists, as the second and third references were leaked as "V2" and "V3" respectively, but it's unconfirmed.				Unconfirmed		
Astroworld	Rich The Kid - Know That You Watching	Previewed in early 2017, with Rich and Travis being mentioned in the caption. Sounds like Travis can be heard in the snippet, but the quality is too poor to definitively say.				Unconfirmed (Snippet - LQ)	<a href="#">Viva</a>	
Astroworld	Wiz Khalifa - Pack Loud (feat. Travis Scott) [prod. Hitmaka & Murda Beatz]	Previewed in late 2017 and through 2018; features an extra verse from Wiz. It's not known if Travis was actually on this version; the verse might have been cut after Travis got on it.				Unconfirmed (Snippet - LQ)	<a href="#">KwakenFile</a> (Two snippets put together)	
Astroworld	GASHI - Pop Up (feat. Travis Scott)	Teased in Spring 2018 via a video captioned "Pop Up feat Travis"; but he isn't actually on the song. Astroworld	Wake Up [Demo] (feat. The Weeknd) [prod. Ging, Sevn Thomas & Wallis Lane] (AKA: Don't Wanna Wake Up)	Early version that likely exists judging by a scene from "Look Mom I Can Fly". The track was originally made by The Weeknd during sessions for "My Dear Melancholy"; Travis might not have recorded anything yet.				Unconfirmed	<a href="#">Look Mom I Can Fly (Screenshots)</a>

Astroworld	Yosemite [Demo] (feat. Gunna & NAV) [prod. <b>JackBoys (2018 - 2019)</b> <span style="float: right;"></span>								
Era begins after the release of 'Astroworld', and ends when the project was released on December 26, 2019. Only contains 'JackBoys' songs and 'Astroworld'-related things; anything else from this time can be found under 'Upops' (Phase 3).								
JackBoys	Gang Gang [Demo] (with Sheek Wes, Don Toliver & Luxury Tax 50) [prod. WondaGur & VOJ] (AKA: Gang Moves)	Early version titled "Gang Moves". No information is available, including the present artists, but Don and Sheek are safe guesses; Luxury Tax 50 might not have been on it at the time.				N/A		
JackBoys	Gatt [Demo] (with Pop Smoke) [prod. 808Melo & Axi]	Early version that appears unfinished. Has the different line on the hook that can be heard on all of the "Bugatti Baby" demos.				Snippet - LQ	<a href="#">Snippet (Instagram)</a>	
JackBoys	Gold BlackBerry [V1] (feat. Lil Baby) [prod. OZ & Nik D]	Completed song teased indirectly by Travis on two occasions in 2022 (see "V2"). This early version was made in 2019 and was intended for 'JackBoys'. Leaked May 10, 2023.	2:37		May 10, 2023	Full - HQ	<a href="#">KwakenFile</a>	
JackBoys	Highest in the Room [Demo 1] (feat. Lil Baby) [prod. OZ & Nik D]	Early version with a few extra words at the start as well as OZ's producer tag, fewer adlibs and a rough mix. Lil Baby also has an outro that was cut from the released remix. Leaked December 24, 2019.	3:22		Dec 24, 2019	Full - HQ	<a href="#">KwakenFile</a>	
JackBoys	Highest in the Room [Demo 2] (feat. Lil Baby) [prod. OZ & Nik D]	Similar to the above demo, but Travis's parts are closer to how they sound on the final release; his final line before Baby's verse is also different ("I'm the highest in the room" instead of "hope we make it out of here"). This was the version played at shows prior to release; available in full, minus Baby's verse.				Partial - LQ	<a href="#">YouTube</a>	
JackBoys	Highest in the Room [Demo 3] [prod. OZ, Nik D & MIKE DEAN]	Version seen in a screenshot of unconfirmed origin, though it was probably posted by Mike Dean.				N/A	<a href="#">Filename (Screenshots)</a>

JackBoys	Highest in the Room (Remix) [Demo] (feat. Lil Baby) [prod. OZ, Nik D & MIKE DEAN]	Referenced on the early tracklist. Featured artists are unknown, but Rosalia was likely added in December, which may have happened after this list was written. Strangely doesn't mention Mike Dean as being a producer, which is likely either a mistake or means that it ends like Demo 1 without a Mike Dean outro.				N/A		
JackBoys	OMD [V1] (feat. Roddy Ricch) [prod. T-Minus]	Made in 2019 and was intended for 'JackBoys'.				N/A		
JackBoys*	Pull Up [V1]	Demo from 2019, with a bit of mumbling and a small instrumental gap at the start. Leaked October 6, 2019. Chase B teased a version with Rick Ross in March 2020; however, it was listed on The Source as a solo Ross song, meaning it could just be a different song with the same beat. A Luxury Tax verse has also been teased (see "V2"). Was supposedly slated for release just before it leaked, but it was cut from the features (this information is unconfirmed, however, and comes from an unreliable source).	2:30		Oct 6, 2019	Full - HQ	<a href="#">Rick Ross Snippet (YouTube)</a> <a href="#">KwakenFile</a>	
JackBoys	Sicko Mode (Skirrell Remix) [Demo 1] (with Skirrell) [prod. Skirrell] (AKA: Ragga)	Said to be a demo by Waterfalls, but it's clearly an early concept for a remix. Has a reggae dub vibe, which is likely where the title of "RAGGA" comes from. The beat was reprocessed for the outro of "Hydrate", from Skirrell's "Quest For Fire". Snippet leaked September 8, 2022. Unsure exactly where this version fits.				Snippet - HQ	<a href="#">Pillowcase</a>	
JackBoys	Sicko Mode (Skirrell Remix) [Demo 2] (with Skirrell) [prod. Skirrell & Co.]	Version previewed on September 22, 2018, and then played at "Listen Out" the following day. Features different production.				Snippet - LQ	<a href="#">Snippet 1 (YouTube)</a> <a href="#">Snippet 2 (YouTube)</a>	
JackBoys	Sicko Mode (Skirrell Remix) [Demos 3-7] (with Skirrell) [prod. Skirrell & Co.]	The Genius bio for the song mentions that there are eight demos of it; it's unknown exactly where this information came from, but Skirrell probably posted an Instagram story showing the demos which wasn't screenshotted. Presumably all earlier than Demo 8 due to how similar it is to the final version.				N/A		
JackBoys	Sicko Mode (Skirrell Remix) [Demo 8] (with Skirrell) [prod. Skirrell & Co.]	OG Filename [?]: <b>SICKO FULL v2 [SICKO MODE REMIX]</b> Version previewed on November 22, 2018. Sounds pretty much like the final version.			Nov 22, 2018	Snippet - LQ	<a href="#">YouTube</a>

(Songs without Travis intended for 'JackBoys' at some stage)								
JackBoys	JACKBOYS - Classy (feat. Don Toliver & Sheek Wes) [prod. BRYWN & CHASE B]	Made during the Don Toliver x Sheek Wes sessions. Was included in a three-pack of JackBoys' considerations, but it didn't make the early tracklist. First previewed on May 31, 2020, by Sheek Wes.			Oct 3, 2019	Snippet - LQ	<a href="#">YouTube</a>	
JackBoys	JACKBOYS - Da Baby (prod. T-Minus)	Not known who is on the song, though DaBaby is a fair guess. Appears on the early tracklist.				N/A		
JackBoys	JACKBOYS & Sheek Wes - Glock on Ice [prod. Digital Nas] (AKA: Glock)	OG Filename: <b>Sheek-Glock Ruff Bounce</b> Teased in early 2019 and was later intended for 'JackBoys'. JackBoys	JACKBOYS - Wait (feat. Don Toliver & Sheek Wes) [prod. WondaGur]	Unconfirmed, but was likely made during the early Don Toliver x Sheek Wes sessions for 'JackBoys'. Snippet leaked October 30, 2021.			Sep 28, 2019	Snippet - HQ	<a href="#">KwakenFile</a>	
JackBoys	JACKBOYS - What To Do? [Demo] (feat. Don Toliver & Sheek Wes) [prod. London Cyr, Jenius & EarlyYellow00]	Early version from the Don Toliver x Sheek Wes sessions, before Travis jumped on. Don performs Travis's hook, Sheek has a full verse, and it has more simplistic production. Snippet leaked June 11, 2023. Was definitely a JackBoys song at this time, so it's not included in the 'For / Pre-Travis' section.			Sep 30, 2019	Snippet - LQ	<a href="#">Instagram</a>	
(Promotional demos, music videos, tour versions, etc.)								
JackBoys	Highest in the Room (Promotional Demo) (feat. Lil Baby) [prod. OZ & Nik D]	Early, possibly solo, version teased by Kylie Jenner on April 22, 2019. Presumably nearly the same as Demo 1 with Baby, but has no producer tag; other differences are unknown. It's not known if this is actually a different version of the song or merely an altered snippet for the purpose of the promotion.				Snippet - HQ	<a href="#">KwakenFile</a>

Later performed Rolling Loud and many more events and shows across 2021 and 2022. Utopia [P1]	My Eyes [Demo 1] (feat. Justin Vernon) [prod. Justin Vernon]	The 2023 GQ Cover "The Reemergence of Travis Scott" mentions that the first part of "My Eyes" was one of the first songs made for "Utopia". This would date it at 2019-20, but Justin Vernon played a snippet of his demo on Instagram Live in May 2021, which would be a strange thing to do for a releasing song. This earliest version likely uses the more simplistic production found in Justin's demo.				N/A	<a href="#">GQ Cover</a>	
Utopia [P1]	Never Sleep [Demo 1] [prod. Tay Keith & Grayson Beats]	On the "Boardroom" podcast with Chase B, Tay Keith said that he made the "Never Sleep" instrumental in New York, while Travis and his crew were staying in a hotel, around the same July 2020 sessions that produced "Franchise". Last Updated: August 8, 2024   Primarily intended to display the best of Travis, and not just good songs that he touched slightly; relative to each era							
Owl Pharaoh	12 Disciples [prod. Amfave & Travis Scott] (AKA: Follow Me)	Leaked by Fitz on KTT on June 1, 2013, after he was sold a pack of early 'Owl Pharaoh' tracks by Pharaohx. Presumably the song "Follow Me" from the August 2012 tracklist. According to Pharaohx, Travis gave the song to Kendrick at SXSW 2013, but he never used it. The instrumental seems to be a reworked version of the PK- produced beat used for "Conclusion" with Machine Gun Kelly and Travis Porter. Technically released on the Grand Hustle compilation tape "We Run This Vol. 10".	2:39	Jun 1, 2013	HQ	Pharaohx Kendrick Mentions (Screenshots)	KrakenFiles
Owl Pharaoh	Dust [V2] [prod. MIKE DEAN & Travis Scott]	Leaked by Fitz on KTT on June 1, 2013 after he was sold a pack of early 'Owl Pharaoh' tracks by Pharaohx; Travis repeatedly teased its release around August 2012 and beyond. Can be seen on the August 2012 tracklist, and Travis teased a music video through now-deleted Facebook and Tumblr posts.	4:21	Jun 1, 2013	HQ	Tumblr Post (Screenshots) Video Mentions (Screenshots)	KrakenFiles
Owl Pharaoh	Momma Be Trippin [prod. Amfave & Travis Scott] (AKA: Last Night)	Throwaway from early versions of 'Owl Pharaoh', likely to be the song "Last Night" from the August 2012 tracklist. OG Drewble, an ex-friend of Travis, threatened to leak it on March 25, 2013; it leaked independently of him the same night. Technically released on the Grand Hustle compilation tape "We Run This Vol. 10".	3:32	Mar 25, 2013	HQ	Leak Explanation (Screenshots) Leak Threat (Screenshots)	KrakenFiles
Owl Pharaoh	Naked (Rick Rubin Rework) (feat. Justin Vernon) [prod. J. Gramm, Travis Scott & Rick Rubin]	OG Filename: Travis_Scott_Bon_Iver_Naked_Final_Verses_2 Reworked version intended for the iTunes deluxe version of 'Owl Pharaoh' that never came out, and later intended for an album set to release in 2014 that was ultimately scrapped. Features an additional verse from Travis, and vocals from Justin Vernon of Bon Iver. Leaked May 10, 2023.	5:05	May 10, 2023	HQ	Pharaohx Posts (Screenshots)	KrakenFiles
Owl Pharaoh	Night [V4]	OG Filename: Night Supposedly from 2011, per Pharaohx, though KTT user Lord Elm, who owned the song prior to it leaking, claimed that it was from summer 2012. Travis said in a now-deleted tweet that it was intended as a reference for another artist, presumably Kanye. 'V2-4' are essentially identical, but 'V4' is a verifiable OG file.	3:41	Oct 19, 2022	HQ	KTT Mentions (Screenshots)	KrakenFiles
Owl Pharaoh	Sin City [Demo 1] (feat. Diana Gordon) [prod. TBHs & Travis Scott]	Very early version of "Sin City" with Diana Gordon (f.k.a. Wynne Gordon) on the chorus and an extra verse from Travis, originally intended for an earlier version of 'Owl Pharaoh' before Kanye took it for 'Cruel Summer'. It doesn't appear on any known tracklists, but now-deleted tweets from Travis essentially confirmed that it was intended for it at some stage). A low-quality version was leaked on KTT on June 1, 2013, by someone who worked with Tony Loney (and presumably Travis). Pharaohx claimed to have it in HQ, but he purposefully left it out of the pack of demos that he sold to KTT user Fitz, as he anticipated that it would leak.	2:43	Jun 1, 2013	LQ		KrakenFiles
Owl Pharaoh	Time Machine [prod. MIKE DEAN & Travis Scott]	Leaked by Fitz on KTT on June 1, 2013, after he was sold a pack of early 'Owl Pharaoh' tracks by Pharaohx; can be seen on the August 2012 tracklist.	4:29	Jun 1, 2013	HQ		KrakenFiles
Days Before Rodeo	Meek Mill - 1 Thing About Me (feat. Travis Scott) [prod. Foreign Mob]	OG Filename: 1 THING ABOUT ME (RUFF BOUNCE) Fully finished collaboration from September 2013. Tweeted about on September 9, 2013, before being previewed by Meek on October 12. Leaked May 10, 2023.	3:18	May 10, 2023	HQ	Instagram Snippet (YouTube)	KrakenFiles
Days Before Rodeo*	All Year	Open-verse throwaway from 2014; could be post-'DBR'. Sold by Music Mafia and leaked August 22, 2019. Probably untitled; it sounds like Travis is actually saying "aw hell" so "All Year" likely isn't the real title. While it's not the most developed song, it's arguably one of the more interesting songs from 2014 to have leaked.	4:08	Aug 22, 2019	HQ	Travis and Meek Tweets (Screenshots)	KrakenFiles
Days Before Rodeo*	PARTYNEXTDOOR - Jus Know [Demo] (feat. Travis Scott) [prod. PARTYNEXTDOOR & WondaGur]	Early version with a verse and different outro from Travis. Leaked December 9, 2019.	5:12	Dec 9, 2019	HQ		KrakenFiles
Days Before Rodeo	Perfect [V2] (feat. PARTYNEXTDOOR & Young Thug) [prod. Boi-1da, DJ Dahi & THG]	OG Filename: TRAVIS SCOTT - Thug Party-Perfect 6.23.14 Track from mid-2014 that was probably intended for "Rodeo" at a very early stage judging by a post from GOODMUSICINSIDER. This version is distinct to "Nothing But Nets", though the whole song was titled "Perfect". The first part features Boi-1da's original production from TMSB and Southside added to it, extra vocals from PND, and a different take from Travis; the second part uses the same instrumental as Drake's "Views From the 6", which is similar to the second part of his "I With Me". Leaked October 12, 2023.	7:46	Oct 12, 2023	HQ	GOODMUSICINSIDER Post (Screenshots)	KrakenFiles
Rodeo	Dinosaurus (feat. Yung Mazi)	OG Filename [?]: Travis Scott - Dinosaurus_03 One of a few songs played at a Chicago meet-and-greet in March 2015. Quite rough with some mumbling. Leaked as part of a four-pack on May 16, 2016; Travis tweeted a YouTube link to it after Mazi's death.	5:27	May 16, 2016	HQ		KrakenFiles
Rodeo	Dis Side [Demo] [prod. Ging] (AKA: This Side)	OG Filename: Travis - This Side Ref Early solo version, dated April 22, 2015, featuring some reference vocals, an altered instrumental, and a different outro. Leaked June 13, 2019. Also leaked in acapella.	3:07	Jun 13, 2019	HQ		KrakenFiles
Rodeo	Maria I'm Drunk [Demo 2] (feat. James Fauntleroy) [prod. Ging, Maneesh & Allen Ritter]	OG Filename: Travis Scott - Maria I'm Drunk_08 Early version with an extended "Maria" verse and an extended "Travis" verse. "Drunk" in place of Bieber (more complete version of the verse found in the "Drunk" demo). Leaked June 12, 2019.	6:30	Jun 12, 2019	HQ		KrakenFiles
Rodeo	My Ex Best Friend (feat. James Fauntleroy) [prod. Boi-1da & Travis Scott] (AKA: 411, 713 / 411, 911 / 411 (My Ex Best Friend))	OG Filename: Travis Scott - 411 Can be seen crossed out of a late-stage tracklist for "Rodeo"; it was probably cut due to the way that the beat was made, which made it near-impossible to get the multitracks for mixing (Travis chopped up a bounce of the original instrumental to create it). Originally titled "411", with a few other titles being in contention (see "Tracklists"), before "My Ex Best Friend" was presumably settled on. Travis posted a snippet on Snapchat on June 13, 2015. Sold by Music Mafia and leaked November 2, 2018.	3:00	Nov 2, 2018	HQ	Snippet (YouTube)	KrakenFiles
Rodeo	Never Catch Me [Demo 2] (feat. Tinashe) [prod. Sonny Digital, Allen Ritter, WondaGur & Jordan Lewis]	OG Filename: Travis and Tinashe - Never Catch Me - Prep #3 Early version with an unfinished second verse, an altered instrumental, and an extra chorus with Tinashe. Debuted on the "Rodeo" tour on March 12, 2015, prompting insiderRuff to later state that it was intended to be the intro; this was no longer the case by May however. Leaked June 13, 2019. Will be replaced with Demo 3 if the correct version surfaces.	4:53	Jun 13, 2019	HQ		KrakenFiles
Rodeo	Post and Parade [V2] [prod. Allen Ritter]	OG Filename: TRVS SCTT - Post and Parade - PREP Two-part throwaway that was cut from "Rodeo"; it's thought to be the missing song from the July 2015 tracklist. This unfinished version utilizes Gizelle's reference for the first half, though the second half has a rough verse and open verse. Leaked May 10, 2023, without most of the intended vocal effects; a near-completely accurate bounce leaked August 30, 2023.	6:23	May 10, 2023	HQ (Unofficial)		KrakenFiles

Previewed once in a club in February 2016 alongside "Raka" and "Let Meek Right Check". Birds	Left Cheek Right Check (feat. Quentin Miller; add. Jeremih) [prod. Yung Lean & Allen Ritter] (AKA: LRCR)	OG Filename: Left Cheek Right Check Throwaway that was worked on for several years. First previewed in November 2015, it later got played alongside "Forgive Me" and "Raka" in a club in February 2016. The track was temporarily given to DJ Spink and reworked, before Travis took it back and performed it live for the first time in January 2017. Yung later said in February 2018 that he planned to "finish" it, posting a snippet in the process, but nothing more came of it other than some light teasing on Twitter shortly before the release of "Astroworld". Has a short bridge from Jeremih, who may have originally had his own version of the track before Travis created this one (see "Try Me"). This version has a better mix than 'V1'; Sold by Music Mafia and leaked December 7, 2018.	3:53	Dec 7, 2018	HQ		KrakenFiles
Huncho Jack, Jack Huncho	LoFi [V2] (with Quavo; feat. Offset) [prod. Murda Beatz & Cubeatz]	Previewed by Travis on Beats 1 on April 3, 2017, and was later teased by Murda Beatz before "HJH" was released, but it didn't make the final cut. Travis and Quavo can also be seen listening to the song in some promotional material for "The Adventures of Huncho Jack". Murda suggested in early 2018 that it could appear on "Keep God First 2", but the project appears to have been shelved. Leaked August 22, 2019.	2:28	Aug 22, 2019	HQ		KrakenFiles
Huncho Jack, Jack Huncho	Whole Time (with Quavo) [prod. Don Dea]	OG Filename: Whole Time x Travis Scott Leftover from 2017. Quavo solo version leaked January 11, 2019; this version leaked December 6, 2022.	3:04	Dec 6, 2022	HQ		KrakenFiles

Childish Gambino & Ludwig Göransson]	Features Travis performing the chorus rather than Gambino, with some alternate lines from both of them. Leaked June 28, 2019, and later used by Kylie Jenner as part of an Instagram promotion. The whole song was titled "Perfect". Astroworld	Hit-Boy - Up Top (feat. Travis Scott) [prod. Hit-Boy]	OG Filename: 01 Up Top (rough01)_1 Intended for a scrapped 2018 project by Hit-Boy. Auctioned by Music Mafia and leaked March 30, 2019.	2:30	Mar 30, 2019	HQ		KrakenFiles

JackBoys*	Pull Up [V1]	Demo from 2019, with a bit of mumbling and a small instrumental gap at the start. Leaked October 6, 2019. Chase B teased a version with Rick Ross in March 2020, however, it was listed on The Source as a solo Ross song, meaning it could just be a different song with the same beat. A Luxury Tax verse has also been teased. Was supposedly slated for release just before it leaked, presumably with one/both of the features (this information is unconfirmed, however, and comes from an unreliable source).	2:30	Oct 6, 2019	HQ		KrakenFiles
Utopia [P1]	Kanye West - Hands On (Remix) (feat. Fred Hammond & Travis Scott; add. Dr. Dre) [prod. Dr. Dre]	OG Filename: 06 Hands On (Remix) 3.2 Main_4424_02MAR2020 Remix intended for 'JESUS IS KING: The Dr. Dre Version'. Utopia [P1]	Heartbeat [V2] [prod. Ronny J. Tupunmusic & RicoOnTheKeys]	2020 track mostly written by KayCyy; has completed lyrics, but a verse repeats. A HQ snippet leaked on April 2, 2021, and it was later teased on May 29, and again on July 16 (though neither time by Travis). In his Discord server, KayCyy claimed that this was going to be the first single for "Utopia", but the snippet and reference track leaks messed that up; this is unconfirmed, however (see "Dystopia" on the "Tracklists" sheet for more speculation). Leaked December 10, 2022.	3:01	Dec 10, 2022	HQ		KrakenFiles
Utopia [P1]	Knife (feat. BobbyRaps) [prod. BobbyRaps & Wheezy] (AKA: The Knife)	OG Filename: TRAVIS SCOTT Knife 1 Cut from the "Gully" soundtrack, likely because of clearance issues. Last Updated: June 28, 2024   Songs that are (generally) wanted by the community - restricted to songs that are confirmed to exist					
Owl Pharaoh	<b>Blame</b> (feat. Mr Hudson) [prod. Travis Scott]	Different to the 'Birds'-era "Blame"; this is a new version of "Analogue" with Mr Hudson. Revealed by Pharaohxx on March 23, 2013; Travis confirmed its existence through a tweet three days later. Possibly intended for the scrapped iTunes deluxe version of 'Owl Pharaoh'.	N/A	<a href="#">Pharaohxx Posts (Screenshots)</a> <a href="#">Travis Tweet Transcription (Screenshots)</a>	
Owl Pharaoh	<b>Chaz Interlude [Demo]</b> (feat. Toro y Moi) [prod. Toro y Moi]	Appears on the May 2013 tracklist. 4:42 long, 3:02 longer than release. Fair to assume that this may just be a loop or open instrumental, but this song was very heavily desired in 2013.	N/A	<a href="#">May 2013 Tracklist (Screenshots)</a>	
Owl Pharaoh	<b>Fuck</b> (feat. Kid Cudi & Kanye West) [prod. Anthony Kilhoffer, Kanye West, MIKE DEAN & Travis Scott] (AKA: Can't Look In My Eyes)	Song that appears on the August 2012 tracklist; production credits confirmed through tweets from Travis (Mike Dean was mentioned in a separate tweet). Posts from some KTT users and GOODMUSICINSIDER indicate that it is an early version of Kid Cudi's "Too Bad I Have to Destroy You Now" (previously/alternatively known as "Can't Look In My Eyes"), before Travis and Kanye were cut. Pharaohxx stated that "Fuck" was actually "Shit On You"; the evidence seems to suggest that he was wrong, but it's possible that both things are true, with "Fuck" developing into "Can't Look In My Eyes", and either the instrumental or Travis's vocals being used in some capacity on either "Bad Mood" (due to the heavy presence of the word "fuck") or "Shit On You". Owl Pharaoh	<b>Gold 88 [V2]</b> (feat. Pusha T) [prod. THC & Travis Scott]	Later version featuring Pusha T that appeared on the August 2012 tracklist. Apparently owned by Pharaohxx, but he purposefully left it out of the pack he sold, as he anticipated it would leak.	N/A	<a href="#">August 2012 Tracklist (Screenshots)</a>	
Days Before Rodeo	<b>Oh No</b> [prod. Kyor Gyoti & Travis Scott]	Previewed by Kyor Gyoti on Tumblr on February 7, 2014, though it may have been posted by Travis first. An early version of the beat, missing the screams, leaked January 9, 2024. [NOTE: The linked file is a bounce of the beat's multitracks; it's probably not mixed correctly.]	Snippet - LQ	<a href="#">Tumblr Post</a> <a href="#">KTT Post (Screenshots)</a>	<a href="#">Snippet (KrakenFiles)</a> <a href="#">Instrumental (KrakenFiles)</a>
Days Before Rodeo	<b>Skyfall [Demo 1]</b> (feat. Young Thug) [prod. Metro Boomin] (AKA: Skyfall Interlude)	Earliest version with rough reference vocals and Thug singing in the intro. The recording process can be seen in a mini-documentary on YouTube; Thug wasn't there for the video, but he arrived at the studio straight after. Played briefly at a show later in the month, before Travis realised it was the demo and quickly turned it off. Travis called it "Skyfall Interlude" in the caption of an Instagram video posted during the recording session. Rodeo	<b>French Montana - 5 Mo [Demo]</b> (feat. Lil Durk & Travis Scott) [prod. TM88 & MP808]	Early version from a mini-documentary recorded in the studio whilst the song was being created. Features a verse by Travis as well as an additional "nah, nah-nah-nah" part (seemingly performed by Durk).	Snippet - LQ	<a href="#">Documentary Clip (YouTube)</a>	<a href="#">KrakenFiles</a>
Rodeo	<b>Antidote [Demo]</b> [prod. WondaGuri & Eastbound]	Early version with a rough take and different adlibs. Recorded on June 18, 2015, before being teased in a video with Metro Boomin. Performed at JYMBLYA a day or two later and then played backstage, before being re-recorded with the second and third verses being added. Travis noted in his 'Clique' interview that he did the hook and first verse in one take; there could be rough vocals where the live snippets were cut. Rodeo	<b>Chief Keef - Lil' Nigga</b> (feat. Travis Scott) [prod. Southside]	<b>OG Filename: Chief Keef_Idea 2 (Lil' Nigga)</b> Recorded on April 14, 2015, in the same session as "Fireman*" and Keef's "Nightcrawler" verse. Previewed once by Keef on Instagram on April 20, 2015, but was later apparently said to be lost.	Snippet - LQ	<a href="#">Snippet (YouTube)</a>	<a href="#">KrakenFiles</a>
Birds*	<b>Nine One One</b>	Previewed once via a short video snippet by someone smoking a blunt (February 2016 is the furthest I can trace it, but it may have been posted earlier).	Snippet - LQ	<a href="#">Snippet (Vine)</a>	<a href="#">KrakenFiles</a>
Astroworld	<b>After Party [Demo 2]</b> (feat. Don Toliver) [prod. Sonny Digital, Cubeatz, Nils & Travis Scott]	Recorded at some point during or after Day 4 of the Hawaii sessions. First heard in the 'Look Mom I Can Fly' documentary; another LQ snippet later surfaced. Unclear if Don is featured on this version. Astroworld	<b>Family</b>	First song previewed by Travis after the release of 'Birds'. Played on Snapchat on October 26, 2016.	Snippet - LQ	<a href="#">Snippet (Instagram)</a>	<a href="#">KrakenFiles</a>
Astroworld	<b>Laptop</b> [prod. Ging]	Previewed once by Travis, alongside "A Man", on March 13, 2017. Unofficially referred to as "Laptop" since it initially appeared to be a remix of the Johnny Yukon song released roughly a month earlier on February 17, but Travis's version appears to use the original instrumental. If the song is a remix then it's strange that it uses the original beat; it's more likely to be a track completely unrelated to "Laptop" that Travis made and previewed without knowing that "Laptop" had released.	Snippet - LQ	<a href="#">Snippet (Instagram)</a>	<a href="#">KrakenFiles</a>
Astroworld	<b>Might Go</b> [prod. OZ & Foreign Teck]	Previewed by Travis on Snapchat on January 9, 2017. A LQ snippet of the instrumental was leaked on March 31, 2018; the same part later surfaced in HQ on February 7, 2020. Producer OZ has mentioned a few times on Instagram Live that he wants it to release.	Snippet - LQ	<a href="#">Snippet (YouTube)</a>	<a href="#">KrakenFiles</a>
Astroworld*	<b>Pressure</b> [prod. Southside & Jake One]	Snippet leaked by a random user in a Discord server on July 31, 2019. Has a "Jack" adlib and Southside played the beat on Instagram Live in early 2018, so it's likely from the 'Astroworld'-era.	Snippet - LQ		<a href="#">KrakenFiles</a>
JackBoys	<b>JACKBOYS - Classy</b> (feat. Don Toliver & Sheck Wes) [prod. BRYVN & CHASE B]	Made during the Don Toliver x Sheck Wes sessions. Was included in a three-pack of 'JackBoys' considerations, but it didn't make the early tracklist. First previewed on May 31, 2020, by Sheck Wes.	Snippet - LQ		<a href="#">YouTube</a>
Utopia [P1]	<b>Delresto (Echoes) [Demo 6]</b> (feat. Kanye West, James Blake & Justin Vernon) [prod. Hit-Boy, Travis Scott, MIKE DEAN & Allen Ritter] (AKA: Delresto)	Version dated June 12, 2021; features vocals from James Blake and Kanye not found on the final version. Found within a password-protected zip file, so it likely will never leak.	N/A	<a href="#">Zip Details (Screenshots)</a> <a href="#">James Blake Comments (Screenshots)</a>	
The Scotts	<b>Vision</b> (with Kid Cudi)	Fan-given title to a snippet used by Kylie Jenner as part of an Instagram promotion on June 20, 2020. Putting the original file for the snippet into a hex editor revealed the filename "travcud_2.aif", so it may have been considered for "The Scotts". Last Updated: August 8, 2024   To highlight noteworthy songs that are interesting (important / unique / specific former grails) but might not be worthy of 'Best Of'							
<b>The Graduates</b>	Say You Will (Remix) [V1] [prod. Kanye West]	<b>OG Filename: kanye free</b> Freestyle remix of the '80s & Heartbreaks' track, intended as a pitch for Kanye and GOOD Music to sign The Graduates; Travis shouts out his phone number, 6 minutes long and no mumble. Leaked May 26, 2024. Remake of an old OG Chess song created in November 2011 that featured ASAP Ferg, produced by Travis; Travis was accused of stealing the instrumental by Shane Morris (his old manager) and a KTT member that knew Travis personally, with the possible intention of giving it to Kanye. Said by Travis to be for 'Owl Pharaoh' during his 2013 SXSW set and XXL Freshman interview, with Kanye later insisting that it would be on the iTunes deluxe edition, but it never saw a release, most likely due to the possible legal issues surrounding it. The instrumental leaked on July 19, 2013, after being acquired from Tony Loney by KTT users Carlos and xman; the actual track leaked in a four-pack on May 16, 2016, which passed Travis off.	6:36	May 26, 2024	Full - HQ		<a href="#">Pillowcase</a>
<b>Owl Pharaoh</b>	Home (feat. Pooe Dash) [prod. Travis Scott]	Version of a cut 'Yezeus' track, made when the album was still titled 'Thank God For Drugs', featuring a short amount of vocals from Travis, possibly as a reference. Pharaohx first revealed the title and Travis's involvement with the production in April 2013 on KTT. <b>Owl Pharaoh</b>	Kanye West - No No No No (ref. Travis Scott; feat. 2 Chainz & The-Dream) [prod. Sak Pase & Travis Scott]	Likely made sometime in early - mid-2012 and, according to Pharaohx, serves as an early concept for "Quintana", KTT user Lord Elm leaked snippets of the song in early 2013, but they are likely lost. Likely the same version that was 'released' by DJ S.R. on January 27, 2016.	3:31	Oct 22, 2023	Full - HQ	<a href="#">Pharaohx Post (Screenshot)</a>	<a href="#">KanyeFiles</a>
<b>Owl Pharaoh</b>	Trap In Mexico [V1] (with Trae Tha Truth)	<b>OG Filename: Black Skinhead Remix 10.13.13</b> Scrapped remix with a new instrumental, and vocals from Miley Cyrus and Travis; according to Page Six, Miley skipped her own VMAs afterparty to record for it. This version has a better mix than 'V1'. It leaked with tags in early 2016; higher quality untaged leaked May 27, 2021.	4:17	O- Jan 2016 C: May 27, 2021	Full - HQ	<a href="#">Page Six Article (Screenshot)</a>	<a href="#">Pillowcase</a>
<b>Days Before Rodeo</b>	Treated Crew - I Been Trill [V2] (feat. Travis Scott, Mic Terror & Z Money) [prod. Manoj]	<b>OG Filename: I BEEN TRILL TREATED CREW</b> Version with Travis vocals that was given to Kanye, before he took it back and turned it into "3500" (see "V3"); first heard about after being tweeted about by Kanye's ex-DJ, Mano. Travis mentioned in an interview that his hook from "3500" originated from Kanye playing around with his verse from this song. Possibly set for release in early 2014, though all links to the information are dead. Leaked December 15, 2022.	5:17	Dec 19, 2022	Full - HQ		<a href="#">KanyeFiles</a>
<b>Days Before Rodeo</b>	Kanye West - Quintana, Pt. 2 [Demo 1] (ref. Travis Scott) [prod. Southside & MIKE DEAN] (AKA: Finness, Finness)	<b>OG Filename: 11 finness</b> Earliest known version of the song, originally titled "Finness", that appears as track 11 on a copy of "Yezeus II" dated January 12, 2014. Features a different intro, a rough line in the first verse, and an extra verse in place of the outro. T.L. is not yet present as Kanye possibly had no vocals. Leaked December 10, 2023.	3:18	Dec 10, 2023	Full - HQ	<a href="#">Yezeus II Tracklist (Screenshot)</a>	<a href="#">Pillowcase</a>
<b>Rodeo</b>	Metro Boomin - Blue Pill [Demo 4] (feat. Travis Scott) [prod. Metro Boomin] (AKA: Flyya)	<b>OG Filename: BOUNCE_02</b> Early version, dated September 22, 2014, with rough autotune, some different adlibs, the tweaked instrumental from previous versions, and no outro. Previewed at a club by Metro in late October 2014, and multiple times in early 2015. Leaked April 15, 2019.	3:42	Apr 15, 2019	Full - HQ	<a href="#">Club Snippet (YouTube)</a>	<a href="#">KanyeFiles</a>
<b>Rodeo</b>	Tinasho - Hot Sauce [V1] (ref. Travis Scott, PARTYNEXTDOOR & Quentin Miller) [prod. WondaGurl]	Reference for Tinasho, made during 'Joyride' sessions in 2015; Music Mafia leaked her version of the song on August 5, 2017. Seemingly re-recorded in early 2016 (see 'V3'), after Tinasho had no use for it. Leaked September 4, 2016.	3:12	Sep 4, 2016	Full - HQ		<a href="#">KanyeFiles</a>
<b>Rodeo</b>	Joyride [Demo 4] [prod. Hit-Boy & Allen Ritter]	'Completed' solo version later shown to Tinasho; features a new verse over the beat-south, as well as Travis performing both of Tinasho's verses and the hook. Leaked July 29, 2024.	3:17	Jul 29, 2024	Full - HQ		<a href="#">KanyeFiles</a>
<b>Rodeo</b>	Looveo [Demo] [prod. Pharrell Williams & WondaGurl] (AKA: Love)	<b>OG Filename: LOVE rough</b> Early version likely recorded not long after the release of 'DBK'. A LQ snippet was posted to the Tumblr page vlnex in early September 2014, but it's not known where it originated (possibly SnapChat). Seemingly had to be AI isolated for the 'Utopia' version as the session was likely lost; WondaGurl had to send Travis the song in 2021, which is why it's thought that she may have produced on it. Leaked December 25, 2022.	3:18	Dec 25, 2022	Full - HQ	<a href="#">Tumblr Snippet (YouTube)</a>	<a href="#">KanyeFiles</a>
<b>Rodeo</b>	Oh My [Demo 1] [prod. Allen Ritter]	<b>OG Filename: Oh My_03</b> Early solo version, dated February 28, 2015, featuring rough vocals and a different instrumental before the sample was replaced by Jordan Lewis. One of a few songs played at a Chicago meet-and-greet in March 2015, and was also played at a couple of shows around the same time. Leaked June 13, 2019.	3:59	Jun 13, 2019	Full - HQ	<a href="#">Snippet 1 (Instagram)</a> <a href="#">Snippet 2 (YouTube)</a>	<a href="#">Pillowcase</a>
<b>Birds</b>	Kanye West - Can U Be [Demo] (feat. Travis Scott) [prod. Havoç] (AKA: Pressure)	<b>OG Filename: trav uzi pressure</b> Kanye throwaway that was worked on in 2014-15, originally starting out as "Get Off Me"; this final known version features Travis and was made during 'SWISH' sessions (see the Kanye tracker for information on other versions). Another version had a snippet leak through Music Mafia in mid-2017. This version was teased on Instagram Live by Che Pope, on October 22, 2020. The intro samples the 2012 film 'Silver Linings Playbook', while the synths are sampled from "Haunted", from the 'Maniac' soundtrack. Uzi was present in the studio, but didn't record for this song. Leaked May 26, 2024. The released version is identical to this leak.	4:00	May 26, 2024	Full - HQ (Unofficial)		<a href="#">Pillowcase</a>
<b>Birds</b>	Easy [V2] (ref. /feat. Rook Monroe)	Previewed by James Harden on January 16, 2017, and Travis later played it on Snapchat in May 2017, though it was likely recorded around 'ANTI' sessions sometime in late 2015 to early 2016 based on the Rook Monroe feature. Multiple high-quality snippets leaked over the course of 2017, until an edited version with an extra chorus (~3:20) was eventually leaked on Music Mafia in December 25, 2017 (this real, unedited version (~2:40) has since been made available). Rook Monroe is primarily a writer and was possibly laying down a reference verse. Possibly one of the first 2016 'Astroworld' considerations.	2:49	Dec 25, 2017	Full - HQ	<a href="#">James Harden Snippet (YouTube)</a> <a href="#">Travis Snapchat Snippet (YouTube)</a>	<a href="#">KanyeFiles</a>
<b>Birds</b>	Cashmere Cat - Europa Pools [Demo 2] (feat. Travis Scott & Kacy Hill) [prod. Cashmere Cat & Evian Christ]	'Complete' version featuring an intro from Travis that was cut after he decided to add it to the start of "the ends". Leaked September 10, 2016. Sometimes incorrectly labelled as featuring Julia Michaels. [NOTE: The OG file for this leaked a few years ago - please contact an editor if you have it.]	3:26	Sep 10, 2016	Full - HQ		<a href="#">KanyeFiles</a>
<b>Birds</b>	Disclosure - Magnets (Remix) (feat. Lorde & Travis Scott) [prod. Disclosure & WondaGurl]	Scrapped remix with an unfinished verse from Travis and new production from WondaGurl. Played on the Beats 1 show 'Soulclout!' in February 2016, where WondaGurl was a guest for a short interview (Travis's verse wasn't played). The song was dropped on (and soon deleted from) WondaGurl's SoundCloud sometime later without Travis's verse, as he never finished it. Sold on The Source and leaked July 5, 2021.	2:20	Jul 5, 2021	Full - HQ	<a href="#">SoundCloud Segment (Screenshot)</a> <a href="#">SoundCloud Release (Pillowcase)</a>	<a href="#">KanyeFiles</a>
<b>Birds</b>	Wonderful [Demo 3] [prod. T-Minus & Boi-1da]	<b>OG Filename: Track01</b> First version with completed lyrics, but overall it still has a rough feel. Travis performs The Weeknd's parts with some different lyrics. Previewed multiple times across November-December 2015. Leaked June 10, 2019.	2:55	Jun 10, 2019	Full - HQ	<a href="#">Chris B Set Snippet (Vine)</a> <a href="#">Performance (Vine)</a>	<a href="#">KanyeFiles</a>
<b>Birds</b>	Rihanna - Woo [Demo 7] (ref. The Weeknd, Travis Scott, Jeremih & Ty Dolla Sign) [prod. Hit-Boy, Travis Scott & Ty Dolla Sign]	<b>OG Filename: WOO LONG 3RD VS</b> Structured reference that uses some of The Weeknd's vocals from the original freestyle, and has a finished verse from Jeremih. Travis's hook is also present, and he performs some extra vocals that Rihanna performs on the final version. Jeremih and Ty Dolla Sign weren't credited in the OG file, with the artist label being 'RI TRAVIS WEEKND'; Ty provides backing vocals and adlibs during The Weeknd's parts. Leaked June 7, 2018.	3:53	Jun 7, 2018	Full - HQ		<a href="#">KanyeFiles</a>
<b>Huncho Jack, Jack Huncho</b>	Moon Rock [Demo 2] [prod. Vinyz] (AKA: Moonrocks)	Early solo version with a different beat and structure, and rough vocals; it's unclear if it's a throwaway that was repurposed for 'HJH' or simply an early concept. This version leaked July 6, 2021.	3:44	Jul 6, 2021	Full - HQ		<a href="#">KanyeFiles</a>
<b>Astroworld</b>	Astrothunder [Demo 1]	Early version that features completely different production and rough reference vocals. Possibly the production that was planned to be used before John Mayer added his contributions a week before the release of the album, but not known for certain. Leaked September 23, 2019. Not an edit.	2:41	Sep 23, 2019	Full - HQ	<a href="#">Rolling Stone Interview (Screenshot)</a>	<a href="#">KanyeFiles</a>
<b>Astroworld</b>	French Montana - Hop Out [V2] (feat. Travis Scott; add. Blac Youngsta) [prod. OZ & Foreign Teck] (AKA: GGG)	<b>OG Filename: 8 GGG (OPEN V2)</b> First previewed in January 2017 by French Montana on Snapchat; teased again in early 2018 and was later track 8 on an early version of 'MONTANA'. Features a verse from French with Blac Youngsta adlibs, and an open verse. Leaked December 10, 2023.	3:56	Dec 10, 2023	Full - HQ	<a href="#">Snippets (YouTube)</a>	<a href="#">KanyeFiles</a>
<b>Astroworld</b>	In My Head [V3] (with Swae Lee & Kacy Hill) [prod. Justice]	<b>Partial OG Filename: INMYHEAD030</b> Throwaway that was cut from the 'Spider-Man: Into the Spider-Verse' OST, possibly due to how explicit it is. This version features more developed production and more vocals compared to previous versions. Travis's first verse is unfinished, but the song is otherwise complete; it's likely that the verse was left in as a placeholder, as his second verse uses the same flow and is clearly based on it. Seemingly dated March 30, 2018. Leaked August 9, 2019.	3:15	Aug 9, 2019	Full - HQ		<a href="#">KanyeFiles</a>
<b>Astroworld</b>	Licence (add. Tory y Mol) [prod. Southside]	Unfinished throwaway from 2017; the same lyrics loop throughout. Unconfirmed, but it sounds as though Tory y Mol is the one saying "1999" and "now is not the time". Said by the seller to be produced by Southside, but this is unconfirmed and seems unlikely; if it was, it was almost certainly not solo-produced. Leaked July 25, 2019.	4:22	Jul 25, 2019	Full - HQ		<a href="#">KanyeFiles</a>
<b>Astroworld</b>	Kanye West - Skeletons [Demo] (feat. Travis Scott, Pharrell Williams & The Weeknd) [prod. Tame Impala & Travis Scott]	Early version with full, finished verses from Kanye, some minor additional vocals from each feature, and some additional instrumental effects; also samples an Zion Mask interview. Some of Kanye's lyrics near the beginning were reused on "Cudi Montage" from 'KIDS SEE GRANTS', and most of his second verse was used (and tweaked) by Travis on the final version. The song was supposedly intended for Kanye's 'Love Everyone' at some stage, though a scene from 'Look Mon I Can Fly' shows Kevin Parker playing the instrumental for Travis; how the song came together is unknown, but Travis seemingly showed it to Kanye and took it back after he didn't use it. Leaked June 27, 2022.	4:45	Jun 27, 2022	Full - HQ		<a href="#">KanyeFiles</a>
<b>Utopia [P1]</b>	Kanye West - Future Sounds [V13] (feat. Travis Scott & Harmony) [prod. BoogDeBeast]	<b>OG Filename: 11 Future Sounds Ye Edit No Echo 11.5.20</b> Early version of "Telekinetic" when it was a Kanye West song. This version is dated November 5, 2020 and widely considered one of the best versions. Leaked December 12, 2021.	2:20	Dec 12, 2021	Full - HQ		<a href="#">KanyeFiles</a>
<b>Utopia [P1]</b>	Kanye West - God's Country [Demo 6] (feat. Travis Scott) [prod. 30 Roc, E.VAX, Rico Nichols, Darius Woodley, Dez Wright & Zentsch]	<b>OG Filename: Gods Country V1</b> 'God's Country' was a originally a Kanye West song before Travis took it; both of them have mumble vocals. This version features additional production from E.VAX, Rico Nichols, Darius Woodley, and PiZ. Leaked September 17, 2023.	3:00	Sep 17, 2023	Full - HQ		<a href="#">KanyeFiles</a>

Owl Pharaoh	Owl Pharaoh [Mid-2012 - December 2012] (Source: Pharaohxx, mikelangelo)	<p>It's unclear whether this is a genuine early version of the project or simply a collection of random demos. Pharaohxx stated that he left out the original version of "Sin City" and the version of "Gold 88" with Pusha T, which suggests that it's merely a compilation, though the inclusion of songs like "16 Chapels", "Night", and "Illamerica", which were all already released/leaked, suggest that the leak was an early version of the project, or at the very least a collection of songs that were being considered for the project.</p> <p>KTT user mikelangelo (who leaked the LQ version of "Sin City" and knew Travis) claimed to have heard a very similar version of the project over a phonecall with Pharaohxx. mikelangelo stated that the call took place in December 2012, so it's possible that he heard a later version; if this is the case, the songs being unfinished here makes more sense, and Pharaohxx's comment about leaving things out may have been a bluff. We know that "Gold 88" had Pusha T from July 28, 2012, at the latest, so it's possible that this is a version of the project from before he was added.</p> <p>There are three probable scenarios (in no particular order): 1) this is a random compilation of demos that Pharaohxx had on-hand; 2) this is a collection of songs that were being considered for the project (effectively an early version) sometime close to July 2012; or 3) this is an incomplete version of the project from December 2012 that is missing some songs and some correct versions of songs.</p>	<p>N/A</p>	N/A	<a href="#">Pharaohxx Post (Screenshot)</a> <a href="#">mikelangelo Posts (Screenshots)</a>

Days Before Rodeo

Untitled Album [V2] [July 2013 - Early 2014] (Source: Travis Scott, Pharaohx) (AKA: Fuego)

"Blame" with Mr Hudson is a rumoured song. During an interview on HOT97 on July 16, 2013, Travis officially announced that he was working on an album, set to be released in 2014. At the time of the announcement, Travis said that he had recently been working with Cudi, so any songs made with him are likely in contention; "Naked" and "Can't Look In My Eyes" may have still been in consideration (assuming Cudi hadn't taken the latter back yet) but "Armageddon" likely wasn't. Pharaohx also said that the Rick Rubin rework of "Naked" would make the album. An October 31, 2013, Rolling Stone article said that Travis was considering "Fuego" as a title, but "Rodeo" was eventually settled on (in March 2014 at the latest). The project continued to evolve until eventually all songs from this time had been cut.

By August 19, 2014, according to GOODMUSICINSIDER, "Rodeo" already had features from James Blake, Justin Vernon of Bon Iver, and King Krule, as well as a song with PARTYNEXTDOOR and Young Thug that we now know is "Perfect" [V2]. Other probable songs include "Pray 4 Love" and "Love". Travis played a few songs intended for "Rodeo" at a Chicago meet-and-greet in March 2015. The songs played (in no particular order) were:

Other songs such as "3500", "90210", "Act 1 (Drown)", "Never Catch Me", "Poet and Parade", "Pray 4 Love", and "Wasted" (among others) all existed at the time, but it's not known if they were being considered.

A list of songs from April 23, 2015, that were being actively worked on by Travis. Not sequenced, it's simply a list of songs that could've been in consideration for "Rodeo", with notes on the state of their completion and possible features (some hadn't recorded and didn't in the end). Note that "OK Alright", "Maria I'm Drunk", and "Oh My Dis Side" existed at this point, but they were treated as individual songs on the list so that they could have their progression tracked more easily.

Rodeo [July 1, 2015 Considerations] (Source: Blake Harden)

- A list of songs from July 1, 2015, that were being actively worked on by Travis. Very close to completion at this point, but is still missing some songs and has more that were later cut. Note that "Ok Alright", "Maria I'm Drunk", and "Oh My Dis Side" existed at this point, but they were treated as individual songs on the list so that they could have their progression tracked more easily. 01. I Can Tell 02. Never Catch Me (feat. Tinashe & T.I.) 03. 3500 (feat. Future & 2 Chainz) 04. Nightcall (Nightcrawler) (feat. Rae Sremmurd & Chief Keef) 04. Whole Lot's Changed (feat. Fredo) 05. "20 Naked Bitches" is likely a feature rather than a "Rodeo" consideration. This is the first time that "Twist One Up" and "Poet and Parade" had been revisited since the April 14 tracklist. It's unknown why "My Ex Best Friend" has such a confusing and unclear title. Click the link to see the full images.

Whiteboard tracklist shared by Mike Dean after the release of the album; Mike had previously shared a picture of the same whiteboard featuring only "3500" on July 13, 2015, and it appeared briefly in the back of a Snapchat video posted by Allen Ritter on July 21. Unlikely to be sequenced.

- 01. 3500 02. Oh My Dis Side (Quavo) 03. Night Call 04. Ok Alright 05. Antidote 06. Maria I'm Drunk 07. I Can Tell 08. 90210 09. Flying High 10. Never Catch Me 11. Pray For Love 12. Pornography 13. Wasted (King Krule) 14. Piss On Your Grave (Kanye) 15. [Blank/Erased] 16. My Ex Best Friend

Quite a few songs were still unfinished at this stage. "Impossible" and "Apple Pie" are missing; "Apple Pie" existed at the time, but it's not known if "Impossible" did. "Nightcrawler" is listed as "Night Call", which was its new title from June onwards; it was also titled this on the CD leak, though it was changed back to "Nightcrawler" for the official release. "Pray 4 Love" is listed as "Pray For Love". "My Ex Best Friend" has been crossed out, and a song has been erased. Possible contenders for the erased song are "Twist One Up" and "Poet and Parade" (which were both revisited and reconsidered for the album shortly before the tracklist was amended), and "Joyride" (which was sent to Rihanna around this time); the latter two are the only two songs that look like they could fit what is left of the erased text, but "Poet and Parade" is currently the most likely.

Travis has stated that "Birds in the Trap Sing McKnight" was originally titled "Tina", before Quavo's line from "Pick Up the Phone" inspired him to change it (this likely would've taken place in March 2016). "Goosebumps" was confirmed to be on it on WAV Radio; basically any song created in the period between the release of "Rodeo" and March 2016 could've been in contention at the time.

Lose 08. The Curse 09. Guidance 10. Raw Raw Based on the present songs and the features that Travis said were going to be on the album in an August 12, 2016 episode of WAV Radio, it can be presumed that the tracklist is from sometime in July-August. Two pieces of supporting evidence: 1) The original "Guidance" dropped June 5, 2016, so it can't have been before then; 2) "All I Know" was recorded in early July 2016, and Kamayah was still on the album as of August 12. "Late Nights" is "Through the Late Night"; "Outside" was possibly solo at this point, and "RaRa" may be too if it didn't feature Offset at this point. Differences for every other song are likely, but unknown.

Astroworld [Final Version] (Source: Mike Dean)

Whiteboard tracklist shared by Mike Dean after the release of the album. 01. STARGAZING 02. CAROUSEL 03. SICKO MODE 04. RIP SCREW 05. STOP TRYING TO BE GOD 06. NO BYSTANDERS 07. SKELETONS 08. DON'T WANNA WAKE UP 09. 5% TINT 10. NC-17 11. ASTROTHUNDER 12. VOSSEMENTE 13. CANT SAY 15. BUTTERFLY EFFECT 16. HOUSTONFORMATION 17. COFFEE BEAN 18. [Blank] 14. WHO WHAT No differences, other than "WAKE UP" being titled "DON'T WANNA WAKE UP". Reveals that "WHO? WHAT?" was a last-minute addition, though it was already known to be the last song recorded for the album, per the Complex cover. It also appears that there may have been a song at track 17 (now 18 after the inclusion of "WHO? WHAT?") that was scrapped very late on, as one of the columns has a check mark. This song could possibly be "Watch" as it would fit as an outro, but the lack of check marks suggest that the song didn't get very far in the mixing / mastering stage, while "Watch" had already received the full Mike Dean treatment.

<p><b>JackBoys</b></p>	<p><b>JackBoys [November - December 2019]</b> (Source: Leak)</p>	<p>Lengthy tentative tracklist that was ultimately trimmed down. From an unknown time, but is definitely post-October. Features were not listed, but some songs were credited to specific artists. <p><b>Utopia</b></p>	<p><b>Dystopia [November 5, 2021]</b> (Source: Rumour; Unnamed Producer)</p>	<p>Based on information from a producer that has worked extensively with Cactus Jack, as well as what can be inferred from comments made by Travis as part of the GQ Cover "The Reemergence of Travis Scott", Travis intended to release a mistake titled "Dystopia" in late 2021 or very early 2022, followed by the album "Utopia" in early 2022. While the producer should be a reliable source, they also claimed that they had production on both projects, but didn't appear on "Utopia"; it's still possible that they were telling the truth and were simply cut. Regardless, the aforementioned GQ Cover states that Travis intended "other releases" after the "Escape Plan" / "Mafia" pack - quite possibly "Dystopia" - but the AstroFest tragedy halted the plans.</p> <p>It's hard to know what songs were intended for the project or simply considered briefly and then quickly scrapped. While no tracks are confirmed, some can be speculated on. "Heartbeat" would be a solid contender. KayCyy mentioned that it was intended to be the lead single for "Utopia" before the leaks messed it up; it could be that he was partially correct, and the song was intended for "Dystopia" instead. Snippets like "I Need You" would also fit the supposed darker vibe that "Dystopia" was rumoured to have. It could also be the case that several of the darker songs on "Utopia" were repurposed from "Dystopia".</p>	<p>N/A</p>	<p>N/A</p> <p><a href="#">GQ Cover</a></p>
<p><b>Utopia</b></p>	<p><b>Utopia [November 5, 2021]</b> (Source: Travis Scott, Speculation)</p>	<p>According to Travis in the GQ Cover "The Reemergence of Travis Scott", by the time that "Escape Plan" and "Mafia" were released on November 5, 2021, a version of "Utopia" was roughly 50-60% completed. It can be deduced that a large number of the songs that made the final cut of the album existed at this time:</p> <ul style="list-style-type: none"> <li>- "Hyaena", "God's Country", and "Delresto" were all verifiably started in 2020</li> <li>- "Thank God" and "Sirens" can be inferred to be from 2020 based on the reference track for "Thank God" and the similar vocal inflections used in "Sirens" and "Praise God" (also made in 2020)             <ul style="list-style-type: none"> <li>- "Lost Forever" existed by mid-2021</li> <li>- The first part of "Skizzo" and "Till Further Notice" are verifiably from 2019</li> <li>- "Loovee" was verifiably revisited in mid-2021</li> </ul> </li> <li>- The GQ Cover confirms that the first part of "My Eyes" was one of the first songs made for the album</li> <li>- Kanye scrapped "Future Sounds" just before the release of "DONDA", so Travis could have made "Telekiness" shortly after that (though it's also a fair guess that it was worked on in the January 2022 Cabo sessions)</li> <li>- Assuming it was intended for the album at this time, "Aye" also existed by mid-2021</li> <li>- "Modern Jam" is unclear; it has to be from 2021 at the earliest, but it may have been started after AstroFest</li> </ul> <p>Due to the lack of clarity surrounding the "Dystopia" / "Utopia" situation, it's difficult to speculate on what other songs were in consideration at this time and whether or not all of the aforementioned songs were intended for the album. "In My Head" is the only solid guess, since it was briefly previewed at Travis's Dior x Cactus Jack show alongside "Escape Plan" and "Lost Forever".</p>	<p>N/A</p>	<p>N/A</p> <p><a href="#">GQ Cover</a></p>

<b>Fake</b> (N/A) <i>Songs that are known to be 'fake' in one way or another, including fan-made demos, fan-edits of leaks, incorrectly labelled snippets, or made-up songs.</i>				
Fake	3500 [Demo] (feat. Future & 2 Chainz)	Sounds as though someone took the outro and layered it over the top of the song. Leaked in 2016; circulated via some old compilations and was relatively unheard of, but it's still worth mentioning.	Fake	
Fake	Aerial	Snippet with Music Mafia tags thrown over the top. It's just "Stunt Mr. Scott" from 'Buddy Rich'.	Mislabel	
Fake	Kanye West - Alien (feat. Travis Scott)	Made up by Waterfalls. Another version with Kacy on it was also falsely said to be Travis.	False Rumour	
Fake	Kacy Hill - All Alone (feat. Travis Scott)	Said to be a 'scrapped interlude' with a spoken outro by Travis. Travis's vocals were taken from a narration for a short film made by Nick Knight known as 'The Seven Deadly Sins of Edward Ennifull', and the rest is merely an interlude already released on Kacy's 'Like a Woman'. Kacy confirmed that it's fake via Twitter.	Fake	<a href="#">Kacy Hill Tweet (Screenshot)</a> <a href="#">BeatsxEP25</a>
Fake	Antidote [Demo]	Snippet that contains the lyrics "I just hit a three-peat, fucked the same one from last week / I don't do no old hoes, all I do is bankroll". Fake version made from unused/re-recorded vocal takes.	Fake	
Fake	The Weeknd - All I Know [Demo] (feat. Travis Scott)	Rumour tweeted about by RodeoTheAlbum, which led to a news article being written. The song doesn't exist.	False Rumour	
Fake	Another Check	Solo version of Surf Club's "Go Off"; it's merely an edit and not a demo.	Edit	
Fake	Astrothunder [Demo]	Leaked as 'V4'; has the final vocals with a mix of the final instrumental and Demo 1's instrumental.	Fake	
Fake	Lil Uzi Vert - Aye [Demo] (feat. Travis Scott) [prod. BNYX, Clif Shayne & Brandon Finessin]	AI edit previously on the tracker; missing some adlibs, and the 808 sounds off.	Fake	
Fake	Blue Pill [Demo]	Leaked as 'V3' by someone who owns the session. Contains real unreleased vocals, but isn't a real version.	Fake	
Fake	Brix	Looped snippet made using the "bricks" adlib from "Upper Echelon".	Fake	
Fake	Butterfly Effect [Demo]	Fake open-verse demo made using multitracks.	Fake	
Fake	Butterfly Effect (Remix) (feat. Quavo)	Not a traditionally 'fake' song, but a remix doesn't actually exist; Quavo had a different song over the beat titled "Bigger Than You" that was mixed into "Butterfly Effect" during a Chase B set.	Mislabel	
Fake	A\$AP Mob - Call The Cops (feat. A\$AP Rocky, Future & Travis Scott)	Appears on a fake tracklist for 'Cozy Tapes Vol. 2: Too Cozy' posted by HipHop-N-More. A snippet for this song does exist, but Travis definitely isn't on it.	Fake	
Fake	Days Before Birds [Project]	Appeared on streaming services on October 14, 2016. Consisted of leaks, loosies, and features. Travis and Epic Records both confirmed its illegitimacy and it was quickly removed.	Fake	<a href="#">Travis Tweet (Screenshot)</a>
Fake	Different Bitches	Said to be the first Travis and Metro Boomin collaboration, but is actually "stay" from 'Cruisin' USA' with OG Chess edited out.	Mislabel	
Fake	Entertainment (feat. Kanye West)	Short snippet of an instrumental that circulated around 2013. Fan-made.	Fake	
Fake	First Class	Fan-made edit created using Music Mafia's "Forgive Me" snippet. Did the rounds a lot in 2017-18.	Edit	
Fake	Kanye West - FML [Demo] (feat. Travis Scott & Yung Lean)	Snippet with Yung Lean vocals and a different beat. The beat can be found in a set of leaked stems; Lean says "fuck my life up" in the song, but it's presumed to be a stem edit.	Fake	
Fake	Hooch [Demo]	9-minute rough version with Travis testing flows similar to "Marietta" and "Wine and Hennessy"; it's a stem edit that combines random unused vocal takes.	Edit	
Fake	I Need (feat. Kid Cudi)	Very obviously not Travis or Cudi, but has been uploaded to several profiles on YouTube and SoundCloud.	Mislabel	
Fake	JackBoys [Early Tracklist]	Much longer tracklist posted by Alek in late 2019. Included here as some people still believe it was real; it occasionally does the rounds on Twitter.	Fake	
Fake	Lately	Snippet that surfaced through the OnlyFiles leak. Fake; uses unused vocal takes from "Oh Me Oh My".	Fake	
Fake	Hazel - Margiela Cinderella (feat. Travis Scott)	Listed in music registries with a release date of October 21, 2022, but nothing came of it. Likely some sort of fake, as there no artists named Hazel that it makes sense for Travis to work with.	Fake	
Fake	Marietta [2:38 Version]	Edit made by Bugs. Top result on YouTube and reuploaded a few times so it's worth mentioning.	Edit	
Fake	Net (with Drake & Swae Lee)	Not 'fake' in the traditional sense, however, the song doesn't exist. LQ snippets of a song led people to think that Travis and Drake were on it, but it's just a solo Swae Lee song named "System".	False Rumour	
Fake	Yeat - Nu Money (feat. Travis Scott & Drake)	Snippet released on April Fools' Day in 2022 by producer BNYX, featuring Travis's "La Flame" adlib and a fake Metro Boomin tag. Reuploaded to several snippet channels despite being proven fake shortly after. The melody may have been utilised during the intro part of the first beatswitch from "Mettdown".	Fake	
Fake	DJ Snake - Oh Me Oh My [Demo] (feat. Travis Scott) (AKA: Oh Me)	Leaked July 30, 2019. Has a fake bridge made from unused vocal takes.	Fake	
Fake	Ooh	Fake snippet leaked in April 2019; tagged as being for the LGBT community. Made using a well-produced instrumental and real unreleased vocal stems from "I'm Fine".	Fake	
Fake	Outside [Demo] (feat. 21 Savage)	Found in an old compilation. Sounds identical, but has a slightly muddier mix. Presumed to be fake.	Fake	
Fake	Palm Trees [Demo]	A semi-solo edit of Preme's "Palm Trees". Neither version is a leak as some seem to think, it's just a feature and this supposed 'demo' is merely an edit.	Edit	
Fake	Promethazine	Fan-made edit of "Wine and Hennessy".	Edit	
Fake	Pussy [Demo] (feat. Gunplay & Chuck Inglish)	Was on the tracker at one point as I falsely believed it to be the real demo until it resurfaced in August 2020, as it was labelled as a demo in old compilations from around the time it leaked, and on SoundCloud. This is actually just a remaster made by someone on KTT in 2013.	Edit	
Fake	RaRa [Demo] (feat. Lil Uzi Vert)	Fake version made using a combination of the Demo 1 and the released version. A leaked snippet of this had Music Mafia tags, which would be more than enough proof if it didn't sound so obviously fake.	Fake	
Fake	Rocket	Not really talked about much, but an old snippet channel has a video of what is possibly an unreleased Travis song titled "Rocket" semi-audible in the background - it's actually a song titled "Leg Over" by Mr Eazi.	Mislabel	
Fake	Scars (feat. Hudson Mohawke & Kanye West)	Instrumental leaked by KTT user xxman in July 2013, supposedly produced with Hudson Mohawke and Kanye West. xxman later said that it's fake.	Fake	<a href="#">xxman Post (Screenshot)</a>
Fake	Young Thug - She Flexin (feat. Travis Scott)	Previewed by Thug in 2015. Travis was incorrectly rumoured as a feature.	False Rumour	
Fake	Stop Trying To Be God [Demo]	Snippet posted in 2020 and resurfaced in 2021; features rough vocals over a different instrumental. The vocals were likely taken from the 2019 Grammy's rehearsal leak.	Fake	
Fake	BBY GOYARD - Take Off (feat. Travis Scott)	A version of the 'Astroworld' throwaway with a verse from BBY GOYARD leaked in 2021, but it's unclear how he came into possession of the track. He teased a snippet of his verse plus some unheard Travis parts before it had leaked, so he obviously had it beforehand, but it's extremely unlikely that he got it officially.	Unofficial	
Fake	The Stick (with Quavo)	Snippet from August 2016. Sounds like Travis in the snippet, but it's actually Quavo; the real song is "Bag on Em" by Migo Domingo, released in April 2018.	Mislabel	
Fake	The Kid LAROI - Therapy (feat. 2 Chainz & Travis Scott) [prod. Miracle]	Appeared in a list files shown by either Miracle or LaroI. It's just a remix of "4AM" with a LaroI verse and different production.	Remix	
Fake	Kid Cudi - Through the Late Night [Demo]	Fake open-verse demo made using multitracks and unused vocal takes.	Fake	
Fake	Too Many Chances (Remix) (feat. The Kid LAROI)	Unofficial remix, recorded after LaroI downloaded the leak from YouTube.	Fake	
Fake	Up To Something [Demo]	Demo that leaked as "act" in April 2019. Stem edit combining several vocal takes.	Fake	
Fake	Wasted [Demo]	A solo demo leaked in 2019 that features new reference vocals from Travis. This was a bounce mistake; the vocals comes from two separate demos that were accidentally combined when being unofficially exported.	Edit	
Fake	Miguel - Waves [Demo] (feat. Travis Scott)	Version that leaked on June 26, 2019. The real one has a rough one-take mumble verse, while this one has a partially finished verse. It's a fake version made using unused and re-recorded vocal takes.	Fake	
Fake	Zon3d (feat. Hit-Boy)	Instrumental leaked by KTT user xxman in July 2013, supposedly produced with Hit-Boy. xxman later stated that it's fake.	Fake	<a href="#">xxman Post (Screenshot)</a>
Fake	Bad Bunny - [Unknown] (with Travis Scott)	Snippet surfaced at the end of July. It's an AI fake.	Fake

[18] The 'era' that songs are categorised under. It doesn't necessarily mean that they were made for the project released in that year, it's purely based on when they were recorded - not all songs are made to end up on a project. Asterisk (\*) means it is speculative / presumed.

Music videos are listed in the era that the song is from, rather than the era that they were previewed in.

Things to note:

- 'DBR' and 'Rodeo' may have some overlap as 'Rodeo' was announced before 'DBR'. 'DBR' wasn't planned too far in advance and is mostly made up of songs that he knew he wouldn't want for the album.

- 'Birds' and 'Astroworld' may have some overlap as 'Astroworld' was being made at the same time as

'Birds'.

- 'HJJH' contains only early versions of songs or confirmed throwaways for the sake of organisation. Solo songs recorded during that era are considered 'Astroworld'-era. Some songs in this era may technically be 'Birds'-era; it basically contains most songs with Quavo that were made late in the 'Birds' era because it's unclear exactly when they decided to do a joint project.

- 'JackBoys' functions in a similar way to 'HJJH', but is bigger.

- 'Utopia' is split into two 'phases' to split things up a bit better.

[19] The generally agreed name given to a song. Obviously it can't be confirmed if the song isn't released or we don't have the OG filename, so make sure you read the notes if you don't think a song is on here that should be - sometimes they just have different names. Any titles in italics are unconfirmed.

Songs with different title can be found in parenthesis underneath as "AKA". I try to make sure all song titles are correct and official, so I won't list fan-names for a snippet except in special cases where we don't know the real one. Any early version which had a different name will be listed as a demo of its released title, with its original title as an "AKA". Unreleased songs (i.e. not demos) that changed names will be listed under their final known title, with any early titles listed as an "AKA".

Everyone who is featured on the song (even if it's minor additional vocals) will be credited as such, even if they aren't credited on the released version.

Production credits are listed where known. In some cases, some producers may be missing; in others (usually demos of released songs), producers may be listed who didn't actually contribute. Unconfirmed producers are listed in italics. The 'Owl Pharaoh' era in particular has Travis listed a lot, but it's likely that he didn't solo-produce everything there.

In this context, anything labelled a "demo" is simply an early/rough version of an already available song. It's obvious that most of these would be considered demos since they're not finished; I use the word to solely represent an early version of a released song. This is done to differentiate early versions of released songs from completely unreleased songs. Multiple versions of an unreleased song are noted with "V1", "V2" etc., and demos are labelled in chronological order of when they were recorded as "Demo 1", "Demo 2" etc. (don't take this literally; there will always be dozens of unknown versions of songs, and we don't know often know which is which; this is just the simplest way that it can be expressed).

This might get confusing if there are songs that existed before Travis got on them. In this case, "V1" just refers to the first version of the song with Travis, rather than the true first version. Listing every single version of a song, even if Travis isn't involved, is incredibly tedious; just check the tracker for the main artist if you want fully accurate version numbers.

Any artists with "ref." in front of their name were laying down some sort of reference, be it a reference for Travis to re-perform, or for a solo bounce of one of Travis' songs. This also applies to songs where Travis has his own solo version of a song that isn't/wasn't his (e.g., "The London" [Demo 1]). As with the "demo" tag, this is just for the sake of organisation, as mumble demos are also known as reference tracks. Any songs with an unclear main artist will be in the main section, features tagged as "with".

Songs that Travis owned but don't feature his vocals can be found within the main table rather than the 'For / Pre-Travis' section; the only instances of this currently are "Night" with Quavo, the open-verse version of "Piss on Your Grave", and a demo of "Nothing But Net".

For better information regarding features, you might want to check the main artist's tracker instead. I try and add everything that's known here, but (and this is mostly about the Kanye demos that have dozens of versions), it's sometimes hard to keep track entirely accurately, and clogging up the tracker with versions

lacking Travis feels unnecessary when they can be found elsewhere.

[20] Created on February 27, 2018.

Stuff that's known (mostly publicly) about the song. Sources are cited where possible, but some information is speculative, or the sources are simply gone. Some information is withheld in some areas for sake of security/privacy, but otherwise unknown information is often shared on here too. Dates of snippets are included if they were previewed, but dates of leaked snippets are not if the full song has since leaked.

OG filenames are accurate where possible; they're included since they're a good source of dates, real titles etc. Sometimes a song may have a filename listed if it is known, even though we don't have the song itself. In some cases, usually when taking the names from screenshots, the filename listed might actually be the title from the file's metadata rather than the actual filename. Several unofficial bounces may have OG filenames listed if they were found through the session or something similar. Any filenames marked with a question mark "[?]" means that I've either: 1) had the name written down, but I can't remember where I got it from; 2) that I had the name at one time and I can't say I'm remembering it 100% correctly; 3) there may be underscores that are either missing or in the wrong place. or 4) that it's simply unconfirmed. Any spelling mistakes are left in, and underscores are left in where they should be; some places like Discord and OnlyFiles automatically replace all spaces in filenames with underscores, so in some cases, there may be filenames with missing underscores. Discord also removes parentheses, so they might be missing from some filenames.

Partial OG filenames usually come from files that were retagged; various old sellers would prepend a filename with the artist and any features, meaning it didn't have the real original filename. Unofficial bounces obviously don't have real OG filenames, but for the most part they can be inferred from the session title, and sometimes there will be a filename already given when going to a bounce a song; filenames like this are marked with an asterisk (\*).

The "For / Pre" Travis section doesn't mean the millions of versions that may exist before Travis got on the song. Rather, it's for songs where: 1) another artist owned the song before giving it to Travis (e.g. Mac Miller & Pharrell Williams - "Flyin' High"; 2) another artist recorded a reference track for Travis that he didn't end up using (e.g. Smokepurpp - "Woah"; 3) songs where another artist recorded something that Travis eventually performed himself (e.g. CyHi The Prynce - "I'm Fine" [Demo]); or 4) song with open verses specifically referenced as being for / given to Travis to record over (e.g. Miguel - "Waves" (Remix) [Demo]; Big Sean - "ZTFO" [Demo]).

Typically, I avoid giving the names of people who leaked things for the sake of their own protection/privacy, but the following names are too significant to not be mentioned:

L\$ was an alias of Logan Smitherman (RIP), who provided information on Travis in 2012-13 (it's known that Logan had industry connections, but, given that he would have barely been a teenager, it's unclear how he knew so much at such a young age). That said, he's known to have been in communication with Travis in 2012-13, and was relatively close with Mike Dean until his death. He's referred to as 'L\$' in 'Owl Pharaoh'-era, and by his real name elsewhere.

Tony Loney was a friend of Travis who was part of his crew through the 'Owl Pharaoh ' era, and directed some of his early videos; he later sold some of Travis' songs to KTT members in mid-2013.

Pharaohxx was a KTT account used by Aaron Reid, son of L.A. Reid (of Epic Records, at the time), to give out early insider info. He was responsible for some early 'Owl Pharaoh' demos leaking, and provided lots of info that turned out to be true.

Fitz, Carlos, and xxman are some KTT members who bought songs from Pharaohxx and Tony Loney. Multiple other KTT users pitched in the money, but they are named as they handled all the communication and leaking of the files.

skr8up was @maarckaalman, a member of Travis' team who provided generally reliable information on KTT during the 'Rodeo' era.

GOODMUSICINSIDER was another KTT account that provided lots of insider info in a dump on August 20, 2014. GOODMUSICINSIDER claimed to be Pharaohxx when he began posting, however, skr8up later made posts implying that he was GOODMUSICINSIDER, yet he also directly stated that he was not Aaron Reid. Regardless of his true identity, many of his statements (particularly concerning Kanye) were proven true some six years later.

Music Mafia were a group that held auctions for unreleased music, and also leaked a lot of music themselves, through their now-defunct website (musicmafia.to).

'Private' refers to the (now-defunct) "new private source" that rose from the ashes of Music Mafia. They were both operated by mostly the same people.

'The Source' refers to a now-defunct unreleased music forum with paid entry. Again, most of the sellers on the site are thought to have been from Music Mafia / Private.

[21] The length of a song. Note that these are rough and may be off by a second or two. Also note that some of the older files (Owl Pharaoh era in particular) may be off by more than a few seconds as these files were passed around a lot and possibly edited.

Unofficial bounces with a timestamp marked with an asterisk are unconfirmed. They may be the length of the currently available bounce, but they may not necessarily be the actual intended length; it could be that the file was cut too early or late. Not all unofficial bounces will have an unconfirmed timestamp. Italics means that I am even more inclined to believe that the timestamp could be radically wrong.

[22] Format: Month Day, Year

Can be used to sort the tracker in order of when things were made, roughly. Dates are usually taken from the filename or file metadata, but the bounce dates of .wav files can also be recovered in most cases. Recording dates are generally only used if we don't have a bounce available; there's no guarantee that an available bounce will be from the same day that it was recorded.

[23] Format: Month Day, Year

Can be used to sort the tracker in order of when things leaked.

Files that leaked and then re-leaked later in better quality will have both dates listed, with O for 'original' and C for 'current', respectively.

[24] "Full" doesn't necessarily mean "finished", just that whatever we do have isn't purposefully edited to remove parts. Anything that is edited will be detailed where known.

"~" = roughly or almost

An "unofficial bounce" is a catch-all term for a song that was put together unofficially in some manner - this could mean that individual stems were combined to make a bounce, or a song was bounced from a session. Although these files are technically unofficial, this isn't really a cause for concern - stem bounces may only have a different mix to what was intended; and session bounces, if correct plugins are used, can sound exactly as they were meant to. Unofficial bounces have an accuracy rating of 1-5 stars; if there are no stars, then it was simply a stem/multitrack bounce and thus accuracy is not a concern.

1 star - inaccurate / poor attempt at a bounce

2 stars - bounced without official plugins

3 stars - bounced with plugins, but possibly sounds different to how it should due to some missing plugins

4 stars - very accurate, but might be missing a plugin or two (you may not be able to tell, however)

5 stars - effectively 100% accurate

"Recreation" is used in very specific cases, usually explained in the 'notes' section for the song.

A song that is "essentially" full means that the song may be available, but part of it may be being performed live over the instrumental. This is different from when a song is "near-full", which applies when a tiny portion of the song (usually either at the start or the end) is missing.

I use "HQ" where you might otherwise use "CDQ". I just don't because they're not technically CDQ.

If there's both a LQ and a HQ snippet out for a song, this will simply say "HQ".

[25] Links to sources, if they're referenced. If a song was previewed, the original snippet may be linked as a source.

Most of the 'Owl Pharaoh'-era stuff comes from KanyeToThe. The website had a big style change after KTT2 launched, so some screenshots might look like they're from different sites depending on when they were taken.

[26] Link(s) to audio/video. Filenames may not be accurate, so ignore them unless they match the OG filename mentioned in the notes section.

DBREE is typically used on the tracker for video snippets that aren't on YouTube. If you use the site, be cautious when using the search function.

mp3s are supplied where possible. Some files may be a wav if that was the OG file. Some files are m4a as this is all I had on hand - sorry if this is annoying. In most cases, the m4as were converted from mp3, so I wouldn't recommend converting it back unless you absolutely have to, for the sake of the quality. If you know for a fact that you have an un-converted mp3 version of an m4a file, please send it to an editor. Most of the 'Owl Pharaoh'-era leaks were unfortunately converted by the person who leaked them, so the original mp3s could be lost.

[27] A lot of this information here is second or even third-hand. Most of it comes from KTT posts made between 2012 and 2013, a lot of which don't exist anymore. Any old insider I reference has had their account (or most of their posts) deleted and I'm getting info from places where they have been quoted, or are being paraphrased by other users.

Because it was all so long ago and the information is so scattered, some of it could be wrong. That said, I've spent a lot of time reading, trying to gather as much reliable information as I can. I hope everything is as accurate as it can be.

(If anyone was around on KTT at that time and can remember anything valuable, please get in touch with me.)

If you're curious about the 'OG Owl Pharaoh' that leaked years ago, read the early tracklist section, specifically the tracklist from August 3, 2012.

- [54] Bounced in ProTools with all official plugins. Should be effectively 100% accurate, though it does appear to be a mix-prep file, meaning it possibly hadn't been mixed yet.
- [55] Bounced in ProTools with all official plugins, but half of the song is missing.
- [56] Bounced in ProTools with all official plugins, but the structure is wrong, and most of Z-Ro's vocals are missing.
- [57] Bounced in ProTools, but no effects were applied beyond the slight screwing of Z-Ro's last bars and a slight effect had been applied that sped Z-Ro's vocals up. Since no further work was done on it, the track in its current state was unlistenable. As a compromise, the speeding up effect was removed from this bounce. [79] 'Huncho Jack, Jack Huncho' was indirectly announced by Quavo on Episode 7 of .WAV Radio on December 9, 2016, but we don't know for certain when the two came up with the idea for a project. As a result, this era contains songs that it maybe shouldn't - essentially anything from 'Birds' with Quavo, other than "Pick Up the Phone". I'm doing this because it feels wrong to put songs like "LoFi" in a different era when they were clearly being considered for the project at some point.

[90] Bounced in ProTools using official plugins. Should be 100% accurate.

[91] Just raw vocals from the session; the instrumental can be heard through the bleed.

[92] Sorted by release, not by when they were made.

[93] Titles are properly formatted, unlike the unreleased tracker. Production credits for Travis projects are taken from the CD booklet, where possible.

[94] Format: Month Day, Year

Can be used to sort the tracker in order of when things were made, roughly. Dates are usually taken from the filename or file metadata, but the bounce dates of .wav files can also be recovered in most cases. Recording dates are generally only used if we don't have a bounce available; there's no guarantee that an available bounce will be from the same day that it was recorded.

[95] Format: Month Day, Year

Can be used to sort the tracker in order of when things leaked

Songs that were played on a radio station and then had a proper file leak later will have both dates listed, with O for 'original' and C for 'current', respectively..

[96] Links to sources, if they're referenced. If a song was previewed, the snippet may be linked as a source.

Most of the 'Owl Pharaoh'-era stuff comes from KanyeToThe. The website had a big style change after KTT2 launched, so some screenshots might look like they're from different sites depending on when they were taken.

[97] Non-streaming links. If a song is not streamable (if it was removed from streaming, was never released on streaming, etc.), a link is provided. Music videos are listed where possible. Download links are NOT provided for commercially released content, except in cases where a specific version is longer able to be streamed or purchased.

Necessary for website integration; can also be used to sort the tracker in order of when things leaked.

[107] Breakdowns of any early tracklists for Travis projects; also contains info on known things that we don't have a tracklist for. Some of these contain simple speculation with no actual tracklist. Full breakdowns of each song found on a tracklist can be found on the 'Unreleased' sheet.

This sheet isn't colour-coded like the Kanye tracker as the likelihood of having the correct version of a song is a lot smaller, and also harder to know for certain. If we do have the right version, the unreleased entry will likely say so.
