[1] Why is sales tax being collected? Sales tax must be collected on the sale of used winery equipment. However, there is a partial manufacturing exemption of 3.9375% which can be deducted from sales tax on the sale of manufacturing equipment, and yes, winery equipment qualifies. Thus, the sales tax is the combined Oakland, CA sales tax of 10.25% - 3.9375% = 6.3125%.

No sales tax on wine barrels.

[2] price depends on what you select from what's available
