McLaren 650S S1 Widebody kit with amazing grip and handling. Top tier tune for S1, can be competitive online I think. Loved driving it. Lamborghini Gallardo LP570 I won't lie. It is a weird car. Feels like it has lackluster acceleration, but if you ever drove go-karts this is how you race this tune. You can carry a lot of speed and momentum throug		S1	Widebody kit with amazing grip and handling. Top tier tune for S1, can be competitive online I think. Loved driving it. I won't lie. It is a weird car. Feels like it has lackluster acceleration, but if you ever drove go-karts this is how you race this tune. You can carry a lot of speed and momentum through the corners
Spyder Performante S1 and even with average acceleration you get competitive times at S1. Not top 5 times, but good ones either way.	Spyder Performante		and even with average acceleration you get competitive times at S1. Not top 5 times, but good ones either way.
Ford GT40 Mk.1 S1 Stock engine tuned. Definitely an enjoyable car to race and still able to kill Unbeatable driveatars. Ford Mustang GT Deberti Design S1 This is the closest thing I drove in FH4 to the GT3 Bentley. If you wanna outcorner light, european/jdms in a car twice their size, this tune is for you. Really surprising handling and g			Stock engine tuned. Definitely an enjoyable car to race and still able to kill Unbeatable driveatars. This is the closest thing I drove in FH4 to the GT3 Bentley. If you wanna outcorner light, european/jdms in a car twice their size, this tune is for you. Really surprising handling and grip.

Ferrari F40	S1	NO Downforce tuning on this car because that is what Forza decided. So it will be rear happy, however it is easily controllable. The front end grips like mad. This is more of a real fun car to race than a competitive one, although it still does good times.
renanreo	31	uan a competive one, annogin is sur uses good unies. RWD setup, more race intended. It feels like a Hurracan GT3 car. Tameable, but you always get a feeling it wants to kill you. To drive it properly, go fast and it will grip. If you slow down, you lose
Honda NSX 1992	S1	a lot of grip. I loved racing it in Holyrood :D
Ferrari F355 VW Scirocco 2011	S1 S1	Really good setup and amazing handling and acceleration. This is a surprisingly good car, I absolutely loved driving it. Fast, a tad of oversteer when you push it to the floor in low speed corners, and an engine sound to kill for.
VW Golf R 2010	S1	Close to max S1, but performs equally good. Great racing setup.
Honda Civic Type R 2018	S1	Really weird car to tune. It was hard to get rid of the ridiculous snap oversteer but this tune now handles decently so you can enjoy the car if you like it.
Caterham R500 Superlight FE	S1	Circuit only type of car. But damn, does it go fast! Real grippy setup and acceleration is brutal (0-100 in 1.3s) Stock engine. One of the top 5 best cornering car at S1. Absolute beast, even the braking line from the game underestimates you. BUT, the top end speed is low. This is more of a circuit focused
Donkervoort	S1	car, although I did beat Unbeatable drivatars on Marathon with it first try.
KTM X Bow Lotus Elise 111S	S1 S1	Hands down the best cornering and handling car at S1. At the same time it has one of the worst top speeds at this class. Still won against Unbeatable Drivatars in it at Marathon. One of the best cornering cars at S1. Truly a monster of grip and handling. Top speed is stiill a problem but it is faster than other circuit based cars.
Datsun 510	S1	Widebody kit, easily wins the championship. A little understeer, but it still handles better than drivestars and on the straights it is like a rocket.
Vauxhall Monaro	S1	Modern muscle car for the online championship. It is MAD fast, it was the fastest S1 in Marathon so far.
Dodge Demon	S1	I think this was the heaviest S1 car I tuned and with a real bad weight distribution. However, I eliminated understeer and it corners really better than expected. I was honestly surprised. But, do not forget it is a big car, understeer is not a thing but intertia in corners still is lol
Dodge Viper GTS ACR 1999	S1	AWD Setup: Incredibly agile for S1 and REALLY fast around the Marathon where I tested it. If it did this good in a completely wet track, in dry conditions it will be monstrous in the corners.
Dodge Viper GTS ACR 1999 Dodge Viper SRT10 ACR 2008	S1 S1	RWD Setup: A bit temperamental in slow corners, but treat her right and in the medium speed and fast corners it will be really grippy. Quite enjoyable! Another great car, worth using in online races at S1. Definitely top tier as far as handling and grip goes, acceleration and top speed also keeps it in the high tier.
Audi RS7	S1	Another great can work using in ommeraces at 31. Deminery top ter as nar as narioning and gring goes, acceleration and top spect also keeps it in the ingin ter. Wow, this is real FAST. One of the best online cars to race, if not among top 3. Sheer speed, acceleration, monstrous grip and correnting. This just has it all, including widebody kit!
Audi RS6 Avant 2015	S1	Widebody wagon, I love this. Made 2 separate tunes, one with the police lights and one without it. Apart from this they are almost identical. It is a really fun car, it has 8 speeds which is good for
Audi RS4 Avant 2001	S1	keeping the RPM in top range and has more cornering adaptability. But it still reminds you of a truck like gear system lol. V8 wagon in a touring car style race tune. Really amazing stability, handling and acceleration in a top tier tune.
Audi RS4 2013	S1	More wagon love, this one is really enjoyable to drive. The grip and handling is especially good in medium speed corners, that is where you will have the most fun with it.
Audi R8 Coupe	S1	Surf Top Spoiler tune. It is really fun, since it has less rear grip it will tend to slide a bit. It is not a top tier car as far as speed goes, but you can definitely enjoy it a lot! The handling and grip are really good, just do not weight shift suddenty.
Aston Martin Vantage GT12	S1	A top tier S1 tune, at the limit of being online viable. Acceleration is real good, top speed is a bit meh and the cornering ability is great.
Aston Martin DB11	S1	Gorgeous car, fast acceleration, great engine sound and really reliable cornering ability. A lot of fun to be had in this!
Holden Torana A9X Holden Monaro GTS	S1 S1	V8 stock engine tune. Surprisingly enough, it was quite a great handling car and still just as fast as you would expect from a muscle car. Quite similar to the Torana, but it has its own peculiarities too. Amazing handling and still muscle car fast!
Eagle Speedster	S1	Easily wins against Unbeatable AI. I loved driving it, it is really nimble, handles great and accelerates well.
BMW Z8	S1	Amazing handling car, easily wins championship. The dubt THE CODD actions maximum here one that actually sound nice and not like a law manuar without one. Oh and it is incredibly fast incred what the other cav. This is the most solid or at
BMW i8 Roadster	S1	Tuned with THE GOOD engine, meaning the one that actually sounds nice and not like a lawnmower without gas. Oh and it is incredibly fast, ignore what the stats say. This is the most agile car at S1 that I drove.
BMW M2 2016	S1	(New rim used) This feels like a weapon. Incredibly stable and focused, didn't finch in any corner and was consistent.
BMW M5 FE	S1	Tested it out on the Colossus and performed quite good. Definitely a fun, fast influence grinder. I used it to farm Colossus to get to Goliath ages ago, but got around to tune it, make it a bit better and share it now.
Vauxhall VX220	S1	Really not that fast to be honest and it kind of wants to kill you at times, but that makes it fun and different for me. I enjoyed it!
Vauxhall Insignia	S1	2 tunes: one with police lights and one without: So, you tought a family sedane would be faster than the Vauxhall Sports Car? Well, you are right. If you don't drive it bravely (and I mean it, you cannot push it much) it will be surprisingly fast and enjoyably constitent.
Lola #6	S1	The worst handling car ingame, made driveable. This is only if you want a real challenge, the car is ridiculously hard to control but I made it tameable. It is not a competitive car, just for fun.
Twin Mill	S1	This is a 2+t car, with almost 60% weight distribution and paper thin front tires. Expect understeer. I did make it more manageable and tuned it with a shorter gear ratio for a bit more control and braking. The other unces 1 decided to make one myself.
Audi 1995 RS2 Avant	A	Feels like a touring car, awesome fun.
Chevrolet Corvette Stingray VW Golf R 2014	A	Fast enough to win Online Adventure races. Mad grip setup and great handling. Completed Super Hot Hatch Championship against unbeatable drivatars but it is hard at A class.
	А	RWD tune: A bit more tailhappy, just be careful around slow 1st gear corners and you will be fine. If you know how to handle RWD cars, this will be easy. The car is a lot of fun to drive, handles
Mercedes 190E Ford Capri	A	really good and it may be competitive in A class online. RWD, stock engine tune. A pretty fun little car, I liked racing it. I had a blast in the weekly forzathon challenge.
Fiat Abarth 124 Spyder	A	RWD, stock engine cune. A precy run nuce car, i new racing it. I new a bask in the weeky forzationin chainings. The grip and handling is on par with 51 iter cars. Pretty funny how you get 400+ Nm of torque of out a 1.3 engine loi. A nice car all around!
Acura Integra Type R	A	This one is actually a pretty quick car. Honestly surprised me. Careful not to weight shift fast, it can be snappy.

Car	Class rating	Tune description
Porsche Cayman GTS	1 Class Ratin	The Gauntiet: 9:09 seconds. As of now it is THE best rally car ingame Surprised to see a race car perform THIS good. Also widebody!
Fiat 131 Opel Manta	S1 1 Class Ratin	The Gauntlet: 9:11 seconds. It is the best rally car ingame. As in no other rally purpose car is as fast as this one. The Gauntlet: 9:13 seconds. I honestly never thought it would be THIS good.
ancia o37 Stradale 2003 Ford Focus RS	S1	The Gauntlet: 9:14 seconds. It is a monster The A class is pretty fun to drive, it can give you a handful if you drive it to the limit but it is controllable. The S1 feels like a proper McRae rally car, definitely very enjoyable and fast!
odge Charger Daytona	S1	In the Top 3 fastest rally cars ingame, on par with Regal GNX. First gear acceleration is not the best, but it makes up for it with mid range acceleration and incredible stability. Can be raced online.
Ferrari Enzo Ferrari Dino	51 51	Another unexpectedly quick rally car, its Top 3 in my lap times on Gauntlet. This one is really unique as a driving zyle. You can flick i like a beast, it handles better like that AND with grip racing. Handbrake turns like in other rally cars will not be as effective. Amazingly fun to drive. Can be online competitive, meaning it beats Subanus and Lancias in rally. Kind of on par with the Subaru rally cars, it is fast. To take advantage of it you have to drive it a bit more aggressively, so it will be a lot of fun!
Ferrari 512	S1	On par with the top Lancia cars, this is a beast of a rally tune. Goes really well in mid speed sections, but can handle the rest with ease as well. Plus the stock engine sounds great!
Chevrolet Monte Carlo	S1 S1	I wanted a rally car with the Nascar engine in it. Turns out it was quite a good idea, the car is a REALLY good and quick rally car. Top tier in fact, it might even work in online offroad races. One of the best rally car of S1 that I raced. Completely overpowered setup. Remember the Unbeatable drivatars that you cannot catch? This setup makes YOU like that against the Unbeatable
	51	drivatars. Pretty much what you expect from a WRC car in FH4. Still fast, but it is not top 3 fast. However it is wild and it has THE highest downforce numbers I have seen ingame. This drives a bit differently there offere allowed and a start of the st
Ford M-Sport Fiesta RS Lancia Stratos	S1	than other rally cars, so if you wanna go fast you really gotta throw it in a corner. No braking, just full on 4wd action. Well, just less braking :P Great handling and scary speed. Feels like a real B Group car.
Honda Civic GRC Audi Quattro #2	51 51	THE fastest modern rally car ingame. By far. It is a bit of a harder rally car, but it reminds me a lot of Dirt Rally in a good way. Definitely a real fun car to rally :) It has monstrous grip and downforce. It can slide or it can stick to corners like it is on tarmac.
Subaru WRX STI 2004 Subaru WRX 2005	51 51	A top tier rally tune, amazing fun and as fast as you would expect from a Subaru WRX rally car. Loved it! Top notch rally control and acceleration
Subaru WRX 2015	S1	Amazing control offroad and mad quick. In the middle tier of the rally scene, this one is a bit different. A lot of front distribution means you can weight shift easier if you know what you are doing, but overall it is a bit more difficult to
Subaru WRX STI 2008 Lancia Delta Integrale EVO	S1 S1	rally in. Pretty much what you expect from it
Ford Escort RS Turbo Ford Escort RS Cosworth	S1 S1	This will just blow past anything, in a straight or a corner alike. Offroad, tarmac, does not matter for it. Pretty much what you expect from a Cosworth rally car. Mad.
Ford RS200	S1	A decent mid tier rally car that loves going sideways and grip racing, depending on your driving style. Not hard to control, not too fast or too slow, it is a good car! A really good, top tier rally car. The straights and acceleration are a bit meh, but you can easily carry momentum and speed through the corners. A real easy one to handle and just attack any
Ford Sierra Cosworth RS500 Renault Alpine A110	51 51	corner. VERY nimble and great handling rally car.
Subaru Legacy RS Subaru Legacy RS	S1 B	Unexpectedly quick car. THIS is a sleeper rally car lol. Easily kills the B class Retro Rally championship. On a straight tarmac road it is mediocre, but offroad it is a monster for this class. Think of this: 1.8g cornering for B class lol.
Hoonigan Ford RS16000 Hyundai Veloster N	S1 S1 (max 898)	Construction of the Second rank remaining on a straight terms read on the straight terms read in a straight terms read on the str
Ford Fiesta XR2 Subaru #199 WRX	S1 S1 S1	This but is a bleast of a finity can it is link a followed of wheels, won races rear easy in it. Feels like a go kart rally. Insane downforce. Not the best rally can, but I di al I Could with it.
Subaru #199 WRX Aston Martin V8	S1	Surprisingly good actually. Never thought it was such a good rally car haha.
1983 Audi Quattro	A	Don't expect a drag race car here, it is not too fast on the tarmac straights, but it handles so good in the dirt you CAN grip race it. In fact, I made it so you barely ever need to slide, just in the real tight corners and hair pins. It is an interesting tune :)
S2 Offroad Car	Class rating	ted the tunes and in 10 random adventures, I did not lose ONCE with them (rush does not count). In the actual races I always had a lead of +10s to even more than +30s from 2nd place. These are Tune description
McLaren 720 Porsche 918	S2 S2	The best suspension ingame. The car does not feel that fast, but it did the best times in my hands. It is a real fast one offroad and rallying. It feels mad fast, but it did not pull the same times as the 720. It is however a doser feel to a rally monster than the 720.
OFFROAD AND CROSS COUNTRY Car	Class rating	Tune description
Toyota #1 T100 Baja Truck Bowler Nemesis	S2 and S1 S1	Maxed out at 908 rating but it is insanely fast and still handles awesome. Also have an S1 tune as well. Monster baja rallying beast. Nuff said.
Chevrolet ZR 2 International Scout	51 51	Easily controllable offroad and has a monstrous acceleration! Best S1 online racer for anything offroad. Oh boy, this is good haha. Mad quick car, actually faster than rally cars. May be competitive online.
Ford Rally Raid RJ Anderson Rockstar Truck	S1 S1	Baja racer, you will go over bumps and jumps almost like nothing. This actually made Cross Country easier and more enjoable to me, plus it is faster than expected.
Porsche Cayenne 2012	S1	It was surprisingly easy to do cross country in this. Acceleration and offroad handling is quite good and easy.
Rally Fighter Jeep Trailcat	51 51	I have no idea how good of a tune it is. I had to de-tune the braking because, believe it or not, it literally violently flipped(barrel rolled) the car over in corners. Now it is driveable by my standards but this was a weird car for me lol. Tuned it to grind Titan. Pretty easy to drive offroad, especially in cross country, and still fast AF.
Jeep Grand Cherokee SRT 1973 Land Rover Range Rover	51 51 51	Index for up gind main retary easy to drive onnoun especially in closs country, and sum ass Ar. Actually seems like a pretty good handling, enjoyable and fast offroad car. I liked it a lot. One of my favourite offroad setups. Looks mean AF and is amazingly quick offroad. Easily wins any offroad race imo.
BMW X5	S1	Another seemingly easy to drive offroad car for cross country or rally. Acceleration is top notch in this, but it does tend to fly a lot for some reason lol.
BMW X6 Alfa Romeo Stelvio	51 51	I barely had to use any rewinds when racing this. I blew past the unbeatable AI and the handling made it easy to stay there. Quite enjoyable! Kind of like the F-Type, but does better on bumpy terrain and not as good on the low bump. But, it has a really great engine sound!
Jaguar F-Type Ford Bronco	S1 S1	High torque, low weight (for an offroad class car). It will be real good on the low-bump sections, but be careful around the tall jumps. It is still decently fast. Do not race against unbeatable AI. This car is NOT fast or easy to handle unfortunately.
Dodge RAM 2500	A	Competitive in ANY winter/offroad races in Online Adventure. If even played in street races with it and was competitive, as long as the season is winter you can win even normal races. I actually had to tune out some of the gears to keep it a bit more OK. You do not really need 10 gears at A class. The truck is real easy to drive in rally and offroad, but lacks top speed. However,
Ford F-150 2017 laguar F-Type	A	you win easily against Unbeatable AI. Pretty decent A class setup for the cross country Jag.
Can-Am Maverick	A	Do not race against unbeatable AI. This car is NOT fast. However, I liked racing this more than any other buggy out there. It is quite fun and easy going offroad.

				NOTE: This will b	e more of a fun, v	et fast and as competitiv
gatt Type 35 B Stock engine, RWD. This one is actually a really great class tune. It eats corners with ease, but do not count on it being fast outside the corners. Build up speed and just keep it. search BCF A Stock engine, RWD. This one is actually a really great class tune. It eats corners with ease, but do not count on it being fast outside the corners. Build up speed and just keep it. search BCF A Stock engine, RWD. Really fin and fast car, but as a key tip: keep it in the mid revealeration is previous of the count on the search and the one to the term range. To high and you will wheelgine easily. search BCF A Stock engine, RWD.
