

Zing-it for ridgelines and tie-outs

Amsteel for Suspension Whoopie slings DIY

Dynaglide lighter than amsteel. Safe for suspension up to 225 lbs

Braided mason line - easy to tangle. Limpness makes it hard for knots

American rope tensile strength was converted from pounds to daN. Tensile strength in daN is strength in kg * 0.980665 or pounds * 0.44522191

Weights for Lash-It/Zing-It were taken from Dutch's website

Amsteel Blue sizes were converted from inches rather than the mm sizes they use on their website with this inch to mm conversion chart

Prices in EUR for American ropes are converted with the live exchange rate from Google Finance
