

To get your precise position, you can just click on our members map.

Put some tag of what you're good at (e.g. rcpp, ggplot2, r-package).

Use the tag **global** if you have a broad knowledge & understanding of R as a programming language.

Please use common StackOverflow tags.

Note that all the information provided here will be **public**. So if you don't want to share some, just leave some blanks.

The first line serve as example.
