

## UK Health Security Agency Behavioural Science and Insights Unit Literature Report Database

Welcome to Public Health England Behavioural Science Reference Cell's database of past Literature Reports

Here you can access all reports from our archive and can filter according to specific topics to help narrow down your search

Our Literature Reports aim to highlight a selection of COVID-19 related work in the field of behavioural and social science.

This database will be updated weekly with the latest edition and topics will evolve in line with the LitRep content

### **To use the database:**

1) open the database in the sheet below

2) click on "Data" in the toolbar at the top

3) click on "Filter views"

4) click on the filter you would like to choose

*Note: there are three categories to choose from and you can choose one filter at a time: 1) topic; 2) population; 3) location*

5) if you want to view another filter, repeat steps 2-4

6) if you want to view the whole database again, click on the "x" in the top right hand corner

*Please note, at this moment in time the filtering option is not available on a tablet or phone*

If you are looking for a specific article or author name, press "Ctrl F" on your keyboard and type in your entry

If you have any issues or feedback, or if you are not currently on our mailing list but would like to be, please email the COVID-19 Behavioural Science mailbox at: [covid19.behaviouralscience@phe.gov.uk](mailto:covid19.behaviouralscience@phe.gov.uk)
