**BRACKET DRAWING RULES**

- Each bracket section of four teams will contain one team from each of the above pots.
- Seeds in red have their position in the bracket locked.
- Play-Ins Qualifiers are as yet unknown, so once the nine qualifiers are determined we will run another draw at the end of the season. Each qualifier will be randomly assigned a number from 1-9 to correspond to a qualifier position in the bracket.
- Seeds in blue are wildcard entries but are highlighted purely for show (bracket position is not locked).
- When conducting the draw, all of Pot 1 is drawn into the sixteen sections first. Seeds from the same divisions will be kept in separate sections of the bracket.
- Pot 2 is then drawn into the other half of each section, avoiding the Pot 1 teams in the Round of 64.
- Pot 3 is then drawn to face Pot 2, with regions seeded to avoid seeds from the same region whenever possible. Example: If a GMAN seed is drawn to face a GMAN seed, they will be placed in the next non-GMAN spot.
- Pot 4 is then drawn in the same way against the teams from Pot 1, following the same rules.
