Pete has exchanged several emails with Joe Criner (ECF Data) and on Jan 11 attended a briedemo of SharePoint. However neither the demo or any of the accompanying YouTube links actually demonstarte the search feature the we are looking for. However they have a 1.500 page minimum for any job. 9/21: Gary reported that he has been looking at using Adobe Pro but we would still need to scan the old newsletters; will people really use this search tool ? 1/18/2022 - Gary has identified Advantage Archive as a possible company to scan our newsletters and use OCR to make them searchable. Gary needs to determine the hosting costs.
