

The image shows a horizontal strip of a spreadsheet, likely a financial or operational report. It consists of approximately 15 columns and 4 rows of data. The columns are color-coded: the first column is black, the second is pink, the third is black, the fourth is yellow, the fifth is black, the sixth is yellow, the seventh is black, the eighth is yellow, the ninth is black, the tenth is yellow, the eleventh is black, the twelfth is yellow, the thirteenth is black, the fourteenth is yellow, and the fifteenth is red. The rows are also color-coded: the first row is black, the second is pink, the third is black, and the fourth is yellow. The data cells contain various numerical values and text labels, though they are too small to read clearly. The overall layout is dense and organized, typical of a professional report or dashboard.
