Inverse Base Calculator

In the dropdown below, select the base you want.

Peach

Muted Light II

This base is obtainable in the following ways...

This base can only be obtained through breeding.

...or by breeding with these guidelines:

- The parents' base Colours must be one of the following combinations:

- Muted x anything else
- Cool x Warm
- Cool x Monochrome
- Warm x Monochrome

- The parents' base Shades must be one of the following combinations:

- Light x Light
- Light x Medium
- Light x Dark
- Medium x Medium

- At least one parent must have a Tier II, Tier III, or Special base

Additional Information

A breeding of two special bases can result in any color category.
