Aliases:				Community Time Trial Rules:
Paddy Blank	<i>dkr_paddy</i>	Marc Robert	<i>TheSpecialist</i>	In order for your time to qualify for the leaderboard, the following criteria must be met:
Gavin Carper	<i>gamewizardx</i>			Difficulty: any difficulty is allowed. Advancing every track : you cant finish 2nd at any track in a speedrun
Andre Luis	<i>therecord7</i>			Racers = On [the reason for this is that the game only saves your time as a record if this option is enabled]
David Vicens	<i>Kasht</i>			Traffic = On [the reason for this is that the game only saves your time as a record if this option is enabled]
Mark Jones	<i>dntn31</i>			All vehicles and all upgrades can be used. Fastest Vehicle for all tracks besides Chicago however is the full upgrade All-Terrain Vehicle, for Chicago it's the full upgrade La Bomba
Tom Votava	<i>rdrunner0077</i>			General advice: Note that for time trials choosing manual transmission is faster without exception! (Maybe no exception at all currently testing all vehicles)
Brian Smith	<i>bks</i>			The use of cheating devices such as Action Replay (all versions), Equalizer, GameShark Pro (all versions), and N64 Passport (all versions) is prohibited.
Eric Frichter	<i>Eric F</i>			As of now emulator is allowed with requirement of a VOD, so that it is clearly visible savestates weren't used. This could change if emulator times aren't reproducible on console!

for NG+ runs the optimal vehicle is the Blue ATV with transmission set to Manual!

You have to complete all tracks in Cruise the USA mode without losing or restarting any

As getting a Top 10 ranked time loses 4 second, InGameTime counts for the run, otherwise time trialing would give you an unfair advantage

Also that would mean that your not aiming for a perfect run (you'd aim for your #11 best time on each track optimally)

This would be strongly against the intuition of what speedrunning is about.

Another positive side effect: any version differences especially concerning lag are equalized this way!
