Note that some of these total times are not humanly obtainable because driving at this speed on some tracks will make you too fast for some of the obstacles. More info on "Track-specific notes". (See below)
Below the normal BKS' are list of splits that are faster than the current BKS but, for one reason or another, were invalidated and don't count on the main charts.

The WR difference color scale tries to visualise how optimized a run with the strategy in question needs to be, to achieve a WR.

These pace-related/lap transition issues are strictly based on WR pace/strategies. Submit to the Discord server or contact Cederic#2720 or SaunaBoi#4259 on Discord if you think something is wrong/missing.

Track/Category	Note
Mushroom Gorge <i>Glitch</i>	Lap transitions could make the BKS' slightly inaccurate.
Toad's Factory <i>Shortcut</i>	With the current WR strat, only the best pace into lap 3 and the lap 3 itself are recorded, due to faster lap 1s having to lose time to clip the crate on lap 2.
Toad's Factory <i>No Shortcut</i>	The sliding crate cycle lap 2 becomes much harder to deal with if your pace is extremely fast. Also boost into lap makes the BKS' skewed a little bit on laps 2 and 3.
Mario Circuit <i>Glitch</i>	Lap transitions could make the BKS' slightly inaccurate.
Coconut Mall <i>Glitch</i>	Lap transitions could make the BKS'/BKP slightly inaccurate.
Wario's Gold Mine <i>Glitch</i>	Lap transitions could make the BKS'/BKP slightly inaccurate.
Wario's Gold Mine <i>No Glitch</i>	The second mincart on lap 3 will be blocking the optimal line on a very fast run.
Maple Treeway <i>Glitch</i>	Early/late lap counts affect the BKS'/BKP.
Grumble Volcano <i>Glitch</i>	Lap transitions could make the BKS'/BKP slightly inaccurate.
Grumble Volcano <i>Shortcut/Rock-Hop</i>	Boost into lap makes the BKS' skewed a little bit on laps 2 and 3.
Grumble Volcano <i>No Glitch</i>	Boost into lap makes the BKS' skewed a little bit on laps 2 and 3.
Moonview Highway	A truck on lap 3 is in the way of the optimal line on WR pace.
Bowser's Castle <i>Shortcut</i>	Spinning fireballs, wavy road, thwomps, geysers. All of these will affect your driving on certain paces.
Bowser's Castle <i>No Shortcut</i>	Spinning fireballs, wavy road, thwomps, geysers. All of these will affect your driving on certain paces.
Rainbow Road <i>Glitch</i>	At certain paces, the wavy road can have more or less tricks and will effect laps.
Rainbow Road <i>No Glitch</i>	At certain paces, the wavy road can have more or less tricks and will effect laps.
GCN Peach Beach <i>Glitch</i>	Lap transitions could make the BKS'/BKPs slightly inaccurate.
GBA Bowser Castle 3 <i>Shortcut</i>	You might have to go around the thwomp lap 3 if you have a very fast pace.
N64 DK's Jungle Parkway <i>Glitch</i>	Different types of banner clips affect the BKS'.
N64 DK's Jungle Parkway <i>Shortcut/Spiral Skip</i>	Sometimes you'll get a boost into the lap making the BKS' skewed a little bit on laps 2 and 3 // MT leaving the shroom can give an unrealistic line into the next turn.
N64 DK's Jungle Parkway <i>No Glitch</i>	Sometimes you'll get a boost into the lap making the BKS' skewed a little bit on laps 2 and 3 // MT leaving the shroom can give an unrealistic line into the next turn.
DS Peach Gardens	The chain chomp on the hedgemaze lap 3 is blocking the way if you're on really good pace with Spear Automatic.
N64 Bowser's Castle <i>Glitch</i>	Thwomp patterns might affect the run depending on your pace.
N64 Bowser's Castle <i>No Glitch</i>	The first sliding thwomp is in the way of the optimal line lap 2 on WR pace. Also the firepillar on lap 2 could be an issue on an extremely fast pace.

This sheet now gets the WR table from mkwrs automatically and compares the first 2 laps to the BKP to get the WR difference + WR time to BKS total

this sheet is only for formulas, if you're reading this you are a formula

[1] This pace + that lap 3 are the laps that Bryce & Idriz decided on to be the BKS' as these are the most realistic.

[2] Read note of the first two BKS' as to why this is the BKS and not the fastest lap 3.

[3] This is the same as the Best Known Pace into lap 3.

[4] This .565 is not the same .565 as the lap 1 & lap 3 BKS.

[5] Image: <https://prnt.sc/88trFC2OyYpm>

[6] This pace is the pace that Bryce & Idriz decided on to be the BKP as it's the most realistic.

[7] Note: If the same lap is the BKS for several different ways of playing the track, it will count as more than one point on this chart. This is to keep the chart automatic.

Example: Kasey has 27.448 Lap 2 and 3 without shrooms on MC no glitch. Since we have BKS' for 1-0-2 and a 3-0-0 category, his lap will get him a point for all shroomless splits
