

Course Planner

About

Greetings! Just to ease the process, I created a spreadsheet to help plan for your college classes! You can use the "Options" tab to plan out possible courses to take for next quarter, "GEs" to see which categories you still need to fulfill, and "Year Plan" to generally plan out your next four years! I've included some examples of each tab at the end of the navigation if you need a better conceptual model of how to use this resource. Hope this is helpful! Good luck with everything and I hope you thrive!!

Feel free to adjust things as you need. // This is based on UCI's requirements, so if you're from another school but still want to use this resource, you can just adjust whatever based on what you do and don't need. I've also included a Business Admin major course sheet, but if you're another major or minor, you use the page as a template if you want to keep track of your course requirements easily. (You can also do this on degreeworks but that page is overwhelming ngl lol)
