CRAZY COOK TO SILVER CITY:									
NM41b.1	01_022XX	2.2	Mengus Tank (solar)	Mengus Tank is full and the solar pump is working. The water in the tank is pretty nasty (green, tons of dead bugs and a dead bird in it) but if you have enough sunlight you can climb up onto the tank and get fresh water right from the pipe.	3/8/2017	Flatlander	31.50141	108.24031	good
NM41a.6	01_123WR	11.5	Sheridan Wells Windmill/Solar (north over ridgeline)	Tank full, excellent water	3/9/2017	Flatlander	31.59724	108.33757	good
NM41a.8	01_137WT	14.1	Sheridan Canyon - water cache box	Location of note on map is wrong. Coordinates of water report are spot on. Box is at junction of red line, purple line and another dirt road. (North of note on map.) (Ley maps probably. His note locations are not meant to be GPS accurate.)	11/7/2016	Bubs	31.6124	108.31332	good
NM41	01_138WR	13.7	Double Tank (solar)	Full large metal tank about 3.5 mi E of cache box on dirt road.	4/22/2017	Radar	31.62047	108.26396	good
NM41a.7	01_071WR	16.8	Thompson Canyon Windmill	At 01_172XX, head downhill. 2" nasty sludge with bees in well head. Windmill defunct, reservoir empty	4/2/2015	Peru	31.64746	108.32604	poor
NM41a.5	01_223WT	22	Solar Well	At 01_221GT, head downhill. Full open reservoir and trough. Solar with a float valve opposite the fill tube.	4/22/2017	Radar	31.69925	108.37881	good
NM40b.2	01_259WT	25.5	Highway 81 water cache box	36 gallons	4/11/2017	Radar	31.73388	108.41075	good
NM40B	02_023WS	27.9	Earthen and enclosed metal tank	Dry pond, no access to water	4/3/2015	Peru	31.76549	108.42066	dry
NM40a.1	02_133WT	38.9	Trough and Earthen tank with electric pump	electric well pump operated by timer. Pipe discharges into trough which overflows into earthen tank. Please do not meddle with the electric pump controls	5/1/2017	Radar	31.89864	108.41459	good
NM39g.10	02_194WT	45	Hwy 9 water cache box	31 gallons	4/11/2017	Radar	31.96518	108.43988	good
NM39g.9	03_015WT	46.7	tire fed from underground pipe 1000' N of BC 03-015M	full, fairly clean water, will need filtering of particulates, bugs etc	4/5/2016	Radar	31.98851	108.43096	good
NM39g	03_029WT	48	tire fed from underground pipe 170' NNE of BC 03-029WT	Tank full and cold	4/28/2016	Sketchy	31.99906	108.44806	good
NM39g.1	03_038WT	49	Vista Tank	DRY pond	4/20/2016	Radar	32.00331	108.45919	dry
NM39g.2	03_050WT	50.2	water tank	Tank full, didn't see a tap, clear water [in the past the tap has been right at ground level in grassy area]	3/11/2017	Flatlander	32.00894	108.47715	good
NM39g.3	03_060WT	51.2	tire	Tire, full of clear water with plants. Actual tire location is a little bit west of #3 on ley map.	11/7/2016	Bubs	32.018151	108.486321	good
NM39f	03_127WT	57.9	Hwy 113 water cache box	18 gallons	4/11/2017	Radar	32.08053	108.55637	good
NM39e.1c	04_032WT	61.4	Lower Camp Tank	DRY	4/5/2015	Peru	32.12001	108.5796	dry
NM39e	04_037WR	61.8	metal tank	cow water, a little better than usual	4/5/2015	Peru	32.123663	108.584326	good
NM39e	04_049WS	62.9	earthen tank	pond is dry	3/9/2016	Matt Smith	32.12784	108.60365	dry
NM39e.1e	04_083WR	66.2	trough near Williams Tank shown on Ley	sign down, but tank full.	5/15/2016	Mark	32.16596	108.63166	good
NM39e	04_095WS	67.4	water tank	Tank is full, has algae in it.	10/17/2016	grams	32.18184	108.63966	good
NM39e.1a	04_105WT	68.5	2 troughs	Surprisingly good water in the tire! There is green algae on the top, but clear water below that. Float valve works, but is under water.	10/17/2016	grams	32.1934	108.64636	good
NM39e.2	04_120WT	70.9	solar steel tank and troughs	Right on BC waypoint and Ley map directions Tank full, clear water. I didn't look for tap, just climbed ladder	3/13/2017	Flatlander	32.20852	108.66277	good
	04_129WT		water tank	dry, never did exist here	2014		32.2149	108.67438	dry
NM39d.7a	04_154WS	73.4	water tank & tire	both dry!	10/17/2016	grams	32.23168	108.70674	dry
	04_161WT		earthen tank	dry, since forever			32.22631	108.71692	dry
NM39d.7b	04_164WT		steel tank	Tank is about half way full, water has a couple of dead crickets in it, but is ok. Spigot is turned off, has no valve to turn back on.	10/17/2016	grams	32.22327	108.71921	poor
NM39d.3	04_173WT	75.4	Pyramid Well (solar)	Tank 1/4 full, access from side trough. Good water.	11/7/2016	Bubs	32.23243	108.73197	good
NM39d.4	04_187WT	76.9	Last Chance Well	Solar well is working. You can get water out of the tank by opening the two valves (black and red ones) on the ground right in front of the tank	10/17/2016	grams	32.24892	108.7436	good
NM39c.3	04_198WT	77.8	Animas water cache box	14 gallons	3/31/2017	Radar	32.26283	108.74166	good
NM39c	04_218RX	79.8	Solar Well	No water access	4/6/2015	Peru	32.28434	108.75075	dry
NM39c	04_222WT	80.3	Cattle Trough	The trough is full and there is water coming out of the pipe when you push down the float valve	10/17/2016	grams	32.28971	108.74873	good
NM39a.4a	05_148WS	98.1	water tank	Dry	10/3/2016	Montana Mike	32.40511	108.54533	dry
NM39a.4b	05_155WS	98.8	water tank	Dry	10/3/2016	Montana Mike	32.41089	108.53749	dry
NM39a.3	05_166WT	99.9	Engineers Windmill	From Facebook post.. water flowing in trough with float valve fed from tank next to it?	5/28/2017	Tour Guide	32.41818	108.52531	good

Ley	BC	Guthook	Name	Status	Date Reported	Reported by	GPS (N)	GPS (W)	Condition
NM39a.1	05_197WR	103	Co-op windmill (solar)	The faucet works when the sun is shining directly on the panel. If it doesn't work, check out the green cow trough: open the white lid and fill up from the inlet. (Water Report coordinates are correct, BearCreek & Guthook also have an old point up on the hillside.)	3/16/2017	Flatlander	32.44811	108.51314	good
NM39a	05_247RL	108	Juniper Spring Tank (450' SW)	Dry and defunct (silted in, washed out)	4/6/2016	Radar	32.4912	108.4795	dry
NM38b.1	05_292WT	112.4	Goat camp windmill (solar)	Tank lid wired shut. Trough algae like normal.	3/16/2017	Flatlander	32.53764	108.46886	good
NM38a.6	05_320WT	115.3	Whitetail Creek	Wet sand.	3/16/2017	Flatlander	32.54847	108.43517	dry
NM38a	06_041WR	119.9	Jack's Peak Cistern	150' N of old foundation and parking area, cistern and a trough that can be dipped from. (Cistern empty, +50gal in trough)	4/9/2015	Problem Bear/Peru	32.58478	108.42861	poor
NM38a	06_061WR	121.9	Deadman Cyn	Water reported running all the way down Deadman Canyon. 4/10/17	4/10/2017	Toasted Toad	32.599056	108.432383	good
NM38a.1	06_064WR	122.2	Mud springs	Spring was cloudy. Trough was clear, but very low water level.	3/17/2017	Dan & Hippy Longstockings	32.6014	108.43603	good
NM37a	06_071XX	123.1	Burro Mountain Homestead	Burro Mtn Homestead (1mi E) will be posting signs at this turn to welcome hikers to hike to their location to come down and relax, use their laundry room, and shower. Camping for \$12/night or you are welcome to camp outside the gate and use the facilities. Possibly last water opportunity for 20.3mi.	5/7/2016	Dewey, Homestead General Manager	32.607366	108.444698	good
	06_077WT	123.6	Seasonal Creek	Dry	5/29/2016	Animal	32.61337	108.44577	dry
NM37a	06_095WT	123.6	Iron Gulch	Small Pools	4/10/2017	Fat Albert	32.62782	108.4535	good
NM37a	06_105WT	126.3	Willow Creek	Several usable pools after yesterdays rains.	5/19/2016	Radar	32.63032	108.46248	good
NM37a	06_193WT	135.2	creek, intermittent	Bone Dry.	5/29/2016	Animal	32.69378	108.52412	dry
NM37a	06_195WR	135.4	Black Hawk Cyn seep, 3/4 mi east	Small seep, very slow and shallow but tasty. Local horsewoman says working windmill another 3/4 miles down.	5/20/2016	Peru/Radar	32.70055	108.51757	good
NM37b	06_271WT	142.9	Saddle Rock Riparian Area	Strongly flowing small stream of good clear water coming down side canyon and disappearing into sands of main canyon. (Still good mid-May 2016)	4/20/2017	SeeKing	32.74904	108.52479	good
NM37b	06_275WT	143.4	Spring and tank	Tank: nasty oily bilgewater, 6" deep. No spring.	5/21/2016	Peru	32.75425	108.52342	poor
NM37b	06_302WT	146.1	Steel tank 250' SE	Tank is to the right of the trail in a fenced in area that has openings at both sides. Good water, look out for bees.	4/20/2017		32.78063	108.50114	good
COLUMBUS ROUTE

MACK'S INN ROUTE									
MT72	01_066WT		puddles	maybe just a bit further north than Jerry Brown marked it. This is 0.1-0.2 mile north of the Macks Inn intersection. There is series of several wood footbridges over areas damp in wet season. At the northern most bridge, it has more lush vegetation around it, look southwest and you'll see lush tall grass meadows. Walk down into the meadow about 50yd to find animal watering holes amongst the grass. I passed couple dry holes before finding water at one. It a little warm and stagnant but usable. Might be better if you try looking a little further downslope. PS there was also some very muddy water in potholes on fr066 as approach Reas Pass if your filter can handle it.	8/12/2014	Oops	44.43963	111.10367	poor

Location	Item	Note
BC 06-260RR, Guthook 141.9	tricky turn	At this point, there is a spur of CDT that continues to the north, but deadends before reaching 180. Instead, turn right onto the road as indicated by the BC maps/tracks. From here it is 6.3 miles of roadwalk to reach 180.

Open fire ban:	Ban on open fires in effect in the GILA, APACHE, and CIBOLA National Forests.	
<p>SIGNAL FIRE NEW MEXICO GILA NF</p> <p>http://nmfireinfo.com/ http://inciweb.nwcc.gov/</p>	<p>SIGNAL FIRE info for 05/23/2014: http://nmfireinfo.com http://inciweb.nwcc.gov/incident/3864/</p> <p>SILVER CITY, NM; May 23, 2014 – Forest officials announce the 5,484-acre Signal Fire on the Gila National Forest is now 100 percent contained. As a result of the total containment, the area closure for the fire has been reduced.</p> <p>Under the new fire area order #06-342, the following recreational sites are open:</p> <ul style="list-style-type: none"> · McMillan Campground · Cherry Creek Campground · Ben Lilly Memorial Observation Site · Signal Peak Trailhead · Woodhaul Wagon Road Trailhead · Big Tree Trailhead <p>These roads and trails remain closed:</p> <ul style="list-style-type: none"> · Forest Road 154 (Signal Peak Road) at intersection of FR 4255G · Forest Road 149 (Meadow Creek Road) at T16S, R13W, southeast corner Sec 4, approximately two miles from NM Hwy 15 · Forest Road 855A (Lockney Rd.) · Signal Peak Trail #742 from Black Peak to Signal Peak · Continental Divide National Scenic Trail (CDNST) #74 from Black Peak to the junction of FR 89 <p>The closure order and map are posted on the forest website at http://tinyurl.com/p56bntv. The human-caused fire started May 11, 2014 about 10 miles north of Silver City, NM. Around 100 personnel remain assigned to the incident to mop up hot spots and patrol firelines.</p>	<p>Jerry Brown's Signal Fire Detour:</p> <p>Map: http://www.bearcreeksurvey.com/Data/Signal%20Detour.pdf</p> <p>GPX waypoint file: http://www.bearcreeksurvey.com/Data/Signal.zip</p> <p>CLOSURES via Teresa Martinez on the Facebook Group: Here's the update from the Silver City Ranger District on the fire on Signal Peak. The CDNST will be closed in the area, as will alternate routes.</p> <p>From USFS: "We will be implementing some closures for the area which will include parts of the CDNST and some FS roads. The closure will include the Arrastra site on Highway 15 to Sapillo Campground on Highway 35 plus many surrounding trails will be closed. So alternate routes most likely will not be available. Recommend to catch a car ride to Hwy 35 and proceed north from Sapillo Campground. Also, Highway 15 (highway to has also been closed from Ben Lilly Monument north to the Gravel Pit near Wildhorse Mesa)."</p>
