

Rietty's Leve Guide & Resource Sheet

Dawntrail (Patch 7.0): Level 15 to 70 DoH/DoL.

*Hi! This is a quick sheet for the leve items needed for getting the various DoH from 15 to 70. Updated to reflect changes from EW 6.0 experience adjustment.
Special thanks to Margo770ul, Kiri Kotone/Kiri Yume, Hranz (especially for TC lists), shirutsu, feiper and Poison iv for their help from previous sheets/checking 5.1 updates. HUGE thanks to Post Mortem for helping update to 6.0!*

General Notes:

1. Generally the triple turn-ins and/or the courier leves are the most efficient leve to do exp/leve wise.
2. All exp values assume HQ only crafts.
3. You can forgo some of the leves by doing your beast tribes, collectibles and custom deliveries (post level 50). You will also probably skip some due to crafting exp (if crafting yourself.)
4. Use the Engineering Manuals as soon as you can! They give exp bonus when crafting/gathering (if you're not just turning in leves that is.)
5. If you're leveling BTN or MIN, just please pop a manual and grind out levels normally. Collectibles after level 50. No leves needed. (Ishgard Restoration/Diadem is great!)

Other Notes:

1. Experience from crafting itself is not accounted for.
2. Experience from custom deliveries (HW/SB) is not accounted for and can save you leves as well.
3. Simulator suggested is FFXIV-Teamcraft by Miu Asakura.

Note: Fisher has very good leves with massive amounts of exp, so if you see something with dashes in the row, those 5 levels are skipped.
Some of the leves (especially 15-50 in ARR) have leves on rotation. You can do either of the triple turn-in leves, they give the same exp.
