Rules	to	edit	the	Decks:
-------	----	------	-----	--------

1. Please use the sub-deck name posted in the table to name your deck, this would mount the deck you made in the main deck.

2. When exporting the deck, please unmark the "Include scheduling information" check-box.

You can use the cloud app/site of your preference for sharing your deck. It is preferable to post it as a text link rather than a URL, but this is optional.
 You may find the Card styles used if you download any of the decks already posted, the formats used are "Sketchy Biochem" and "Cloze-RinaLily"

Thanks!

Enjoy the deck and thanks for your help in this project!
