feet

- MOUNTAINEERING BOOTS**

A lighter weight mountaineering boot is ideal for the variety of terrain encountered on this trip. Boots should be comfortable for hiking on and off-trail (avoid fully rigid plastic boots), with an aggressive sole for edging in loose terrain, climbing on snow, and crampon compatible.

- APPROACH SHOES (optional)**
- GAITERS**
- SOCKS**

Approach shoes are optional for on-trail sections.

2-3 pairs.
