Investors continue four-week retreat from U.S. stock market

35 40344.15

Investors continued a four-week long retreat from the U.S. stock market last week by unloading a net of nearly \$9.6 billion in assets from domestic mutual and exchange-traded funds, according to data released Wednesday by the Investment Company Institute. The nearly \$9.6 billion in outflows came on the heels of a \$10.1 billion decline in net assets from the week before, prolonging a streak in which investors have sold into a rising stock
